

Wyoming Recycling Directory

2007 - 2008

The **Wyoming Recycling Directory** was prepared with Stripper Well Funds under grant number 406, SEP grant 02R830112.

Prepared by
Peak Environmental Management, Inc.
P. O. Box 404
Green River, Wyoming 82935
307-875-2893

under contract to

Wyoming Business Council
Mineral, Energy, and Transportation Division
Federal Energy Programs
214 West 15th Street
Cheyenne, Wyoming 82002
307-777-2804

Additional copies of this directory can be obtained by contacting:

Wyoming Business Council
Mineral, Energy, and Transportation Division
Federal Energy Programs
307-777-2805
Tom.Fuller@Wybusiness.Org
Dale.Hoffman@Wybusiness.Org

The **Wyoming Recycling Directory** is also available on the Internet by accessing the Wyoming Business Council Web site at:
www.wyomingbusiness.org/pdf/energy/Recycling_Directory1.pdf
or the Wyoming Department of Environmental Quality Web site at:
<http://deq.state.wy.us/shwd/downloads/recycle/RecycleDirectory.pdf>

Duplication or quotation of material in this publication is welcome if credit is given to:

Wyoming Business Council
Mineral, Energy, and Transportation Division
Federal Energy Programs
and to
Peak Environmental Management, Inc.

Directory Updates

This directory will be updated as state funds are available. Every effort was made to contact profit and not-for-profit recycling centers in Wyoming. Any errors or omissions are unintentional. A form (which may be copied) is provided in this directory for revisions, additions of new organizations, recycling centers, and businesses which utilize recyclable waste to produce saleable materials. Updated information should be directed to:

Peak Environmental Management, Inc.
P. O. Box 404
Green River, Wyoming 82935
307-875-2893
FAX 307-875-5179
email: myra@peakenvironmental.com

Goals of this directory are to provide information to the public and private sectors and the general public, to improve economic development in recycling operations, and to enhance natural resource management.

Inquiries and Information

Prior to delivering recyclables to a center, the center should be contacted to determine current hours, location, accepted materials, or packaging requirements. Each recycling center adjusts in response to market conditions.

General inquiries and information requests regarding recycling should be directed to community contacts, public interest organizations, local recycling centers, or the following:

Wyoming Business Council
Mineral, Energy, and Transportation Division
214 West 15th Street
Cheyenne, Wyoming 82002
307-777-2804
FAX 307-777-2837
email: Tom.Fuller@Wybusiness.Org or
Dale.Hoffman@Wybusiness.Org

Recyclables' Value

Since the value of many recyclables and the cost of handling and transportation to end-markets are substantial, most centers do not pay money for items such as glass or plastic. Some centers pay for aluminum and ferrous and non-ferrous metals. Centers should be contacted to determine if any money is paid for accepted materials.

Preparation and Packaging of Recyclables

Each type of material must be separated, e.g. glass cannot be combined with aluminum, and materials should be deposited in appropriate containers. Each center has specific preparation and packaging requirements which are based on quality control requirements established by the purchaser of the recyclables and by quality standards for end products. Although general guidelines are listed, the individual center should be contacted regarding preparations and packaging.

Telephone Books: Look in your new telephone book for information about recycling your old one. Telephone books are usually collected for recycling during only the two months of the year following distribution of your new books.

Rechargeable Batteries and Cell Phones: Due to the numerous locations available to recycle rechargeable batteries and cell phones, they are not listed individually in this Directory. Go to www.rbrc.org to find the closest store for battery and cell phone recycling.

Vehicle batteries: Stores which sell batteries are required by law to accept one battery for each one purchased. Some stores will accept additional batteries, and some battery dealers will pay a small amount for batteries. All battery dealers have not been listed due to the large number of stores which accept batteries.

Used motor oil: Used oil may be accepted by some service stations and occasionally for a fee since the station may be charged for used oil collection. Some municipal maintenance operations also accept used motor oil and may also charge a fee depending on the quantity disposed.

Used motor oil must not be mixed with other vehicle fluids.

Used motor oil should not be deposited after hours at any location.

Newspapers: Some centers require that newspapers be bagged or tied with string.

Office paper and office pack: Paper clips and, in some cases, staples should also be removed. Glossy and glue bound publications should not be included with office paper or newspapers. Envelopes and "junk mail" should not be included unless specified. Self-adhesive labels (labels which are not water soluble) should be removed from office paper and office pack. Materials which are acceptable for office pack vary from center to center. Check with local recyclers to determine which paper products they will accept and how materials should be separated and packaged.

Corrugated cardboard: Cardboard must be corrugated, clean, and free of debris.

Flat, gray cardboard: The few centers which accept gray, flat cardboard (e.g., cereal boxes) require that it be clean and free of food and other debris.

Glass: Glass beverage and food containers should be rinsed and clean of food or other material. Labels are acceptable. Window glass, mirrors, and drinking glasses cannot be accepted. Metal and plastic lids and metal rings must be removed. Most centers require separation of glass by color.

»»NOTE: Many centers cannot accept green or blue glass.««

Aluminum: Aluminum cans should be free of debris and liquid. At most centers, scrap aluminum should be separated from aluminum cans. Scrap aluminum such as aluminum doors and aluminum lawn chairs are accepted by most scrap metal recyclers.

Plastics: Plastics must be clean, dry, and of the specific type accepted by the center. Some centers accept only natural (clear or white) plastics and cannot accept colored plastic containers. Some centers also have limitations about accepting plastic containers which may have been used for motor oil or vegetable oil.

The Society of the Plastics Industry (SPI) has developed this voluntary plastic container coding system which must be referenced prior to taking plastics to a recycling center:

PET
Polyethylene
Terephthalate

HDPE

Recycling Economic Development Advocates

The Wyoming Small Business Development Center (SBDC) and Manufacturing-Works (MW) encourage economic development with recycling operations. Manufacturing-Works promotes reuse, recycling, chemical substitution, pollution prevention, waste stream management, and waste minimization through use of environmental assessments, recycling methods, and sampling methods. The SBDC and MW offerings include:

- Technical assistance,
- Workshop information,
- Consultation,
- Database listings.

«« Ask the corral manager if the manure is available to area citizens.
Talk to your local county extension agent to determine how much manure
you should use. Too much manure is not be good for all plants.
Manure is a natural fertilizer source for gardens and other
landscaping activities. »»

Materials accepted:

- Used motor oil [Limit of two 5-gallon containers per person per day.]

« « *If you work in an office, use both sides of paper. You can print draft reports or make copies on one side of paper which has been used on the other side. Some businesses must limit their use of "used paper" since it may carry sensitive information. » »*

« « *Wood pellet stoves have been found to be very efficient and lower in air emissions than many other forms of wood burning appliances. » »*

« « *Used motor oil should never be discarded on the driveway, in the yard, in the street, or down a drain. Improper disposal can damage our water supply. Some landfills and other municipal facilities accept used motor oil for no charge or a small fee to recover their cost for proper disposal. » »*

Businesses Utilizing Recyclable Waste in Products

We encourage you to patronize the following businesses. Each business must adhere to strict quality control standards for their finished product and presently have contracts in place for supplies of waste. Therefore, we request that you do not attempt to provide waste materials to these businesses unless the firm is listed in the "Recycling Center" portion of this directory.

CNZ

Attention: Wyoming Recycling Directory Update

- «« *Many recycling centers cannot accept green or blue glass. Contact your local center to determine if they accept glass, and if so, which colors are acceptable. Most centers do not accept glass such as door and window glass, windshield glass, and drinking glasses since those products are not made of the same materials as glass beverage containers. »»*
- «« *Give extra safety pins to organizers of community foot races and walks or to dance and theater groups. »»*
- «« *Ask your city, county, and other local governments to purchase recycled products and to create incentives for recycled products to be purchased. Complete the cycle of recycling. »»*
- «« *Buy in bulk if you use in bulk. Buying in bulk often results in less discarded packaging. Don't buy more than you will use or you may contribute to the waste problem. »»*
- «« *Ask businesses and government agencies what they are doing to recycle, reuse, or buy recycled products. Patronize and support those who are involved with recycling. »»*
- «« *Don't forget to recycle metal products such as lawn chairs, aluminum doors, or car parts. Scrap metal recyclers can accept many types of metal items. Some communities offer pick-up of used cars or other large metal items for no charge or a small fee. »»*
- «« *When traveling, keep your recyclables until you can find recycling centers for them. When staying at motels or campgrounds, ask where you can recycle newspapers, glass, or aluminum beverage containers. »»*

- «« *Reuse paper or plastic bags when you go to the store. Many grocery stores offer a few cents off your purchase when you reuse a bag. Paper and plastic bags can also be reused by local thrift stores or used book stores. »»*
- «« *Reuse rubber bands, paper clips, safety pins, and other fasteners. Reuse small glass jars or a drawer organizer to help you find these when you need them most. »»*
- «« *Reuse glass containers for homemade products such as jelly or canned foods. Give homemade products as Christmas gifts, and reuse glass jars and bottles as the "gift box". »»*
- «« *Give your extra rubber bands to schools or the local newspaper for reuse. »»*
- «« *Check with your local recycling center about whether glossy newspaper inserts can be recycled with newspapers. Some markets will accept glossy inserts, and others do not. »»*
- «« *Share your newspapers and magazines with friends and neighbors. Offer to take your neighbors', friends', or co-workers' recyclables to the recycling center. By sharing and helping each other you will save time, natural resources, and money. You may also make some new friends. »»*
- «« *Paper and plastic bags can be used as liners in waste cans. »»*
- «« *Reuse materials whenever possible. Find ways to extend the lives of furniture and appliances. »»*
