MESSAGE FROM DIRECTOR WOODSON

Crime in Wyoming 2014 is a compilation of Uniform Crime Reporting (UCR) statistics from January through December, 2014.

The Wyoming UCR Program became fully operational in June, 1977, and has grown since then. As stated in the first annual UCR report, *Crime in Wyoming 1978*, the goals of the UCR Program were originally stated, and they still hold true today:

- Inform the Governor, Legislature, other governmental officials, and the public as to the nature of the crime problem in Wyoming
- Provide law enforcement administrators with criminal statistics for administrative and operational use.
- Determine who commits crimes by age, sex and race in order to find the proper focus for crime prevention and enforcement.
- Provide proper base data and statistics to measure the workload and effectiveness of Wyoming's Criminal Justice System.
- Provide proper base data and statistics for research to improve the efficiency, effectiveness and performance of Criminal Justice Agencies.
- Provide base data and statistics to measure the effects of prevention and deterrence programs.
- Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.

The Division of Criminal Investigation Criminal Justice Information System is always trying to streamline and improve the way that crime statistics are collected. We strive to publish quality crime data in hopes that the information will better serve both local law enforcement agencies and policymakers alike.

Thank you,

Steve Woodson

Steve Woodson, Director
Division of Criminal Investigation

INTRODUCTION TO UCR

This annual report of Crime in Wyoming presents data on reported crime from January through December, 2014.

The data presented in this report was compiled from Uniform Crime Reporting (UCR) records submitted by contributing law enforcement agencies. These records are designed to collect pertinent standardized data at the city, county and state levels, and were prepared in compliance with the National Uniform Crime Reporting Program standards and definitions.

Agencies prepare UCR forms containing offense, clearance, arrest and supplemental information, and submit monthly reports to the State UCR Program, Criminal Justice Information Section, Division of Criminal Investigation, Office of the Attorney General¹. After processing, the reports are sent to the FBI for use in compilation and analysis of national crime statistics.

Sixty law enforcement agencies report UCR data, which serve jurisdictions representing 97.3 percent of the State's population². Twenty-one sheriffs' offices and thirty-nine police departments contributed UCR reports in 2014.

The UCR Program collects data on offenses which are categorized as Part I and Part II crimes. The Part I crimes include the "Crime Index" offenses of murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft. Arson was added as a Part I offense in 1979, (referred to as the "Modified Crime Index"). For Part I offenses, information regarding the incident, certain supplemental crime information, and arrest data is collected, however, the UCR Program collects only *arrest* data for Part II offenses.

The Domestic Violence Reporting Program information was compiled from data submitted by all Wyoming law enforcement agencies within whose jurisdiction incidents of domestic violence occurred³.

The *Hate Crime Reporting Summary* has been compiled in response to the *Hate Crime Statistics Act of 1990*. Its data was received from those agencies submitting reports for each particular quarter of 2014.

¹See W.S. 1977 7-1-102 for legislation mandating the reporting of crime information to the Attorney General's Office.

²Based on estimates calculated from population data by the U.S. Bureau of Census and the National UCR Program.

³See W.S. 7-20-107(b) mandating the reporting of all domestic violence incidents to the Division of Criminal Investigation, Office of the Attorney General.

UNIFORM CRIME REPORT DEFINITIONS

Offenses in Uniform Crime Reporting are divided into two groups designated as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number of offenses cleared by arrest or exceptional means, and the number of persons arrested are reported. Only arrest data is reported for Part II offenses.

PART 1 (INDEX) OFFENSES:

1. **CRIMINAL HOMICIDE** - (a) *Murder and Non-Negligent Manslaughter*: The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) The killing of a felon by a law enforcement officer in the line of duty; and (2) The killing of a felon, by a private citizen, while in the act of committing a felony, (b) *Manslaughter by Negligence*: The killing of another person through gross negligence. This excludes traffic fatalities. Wyoming collects both forms of homicide under the murder category.
2. **FORCIBLE RAPE** - Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.
3. **ROBBERY** - The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence by putting the victim in fear.
4. **AGGRAVATED ASSAULT** - An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.
5. **BURGLARY-BREAKING OR ENTERING** - The unlawful entry of a structure to commit a felony or theft. Attempted forcible entry is included.
6. **LARCENY-THEFT** - (Except motor vehicle theft) - The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.
7. **MOTOR VEHICLE THEFT** - The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.
8. **ARSON** - Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

PART II OFFENSES:

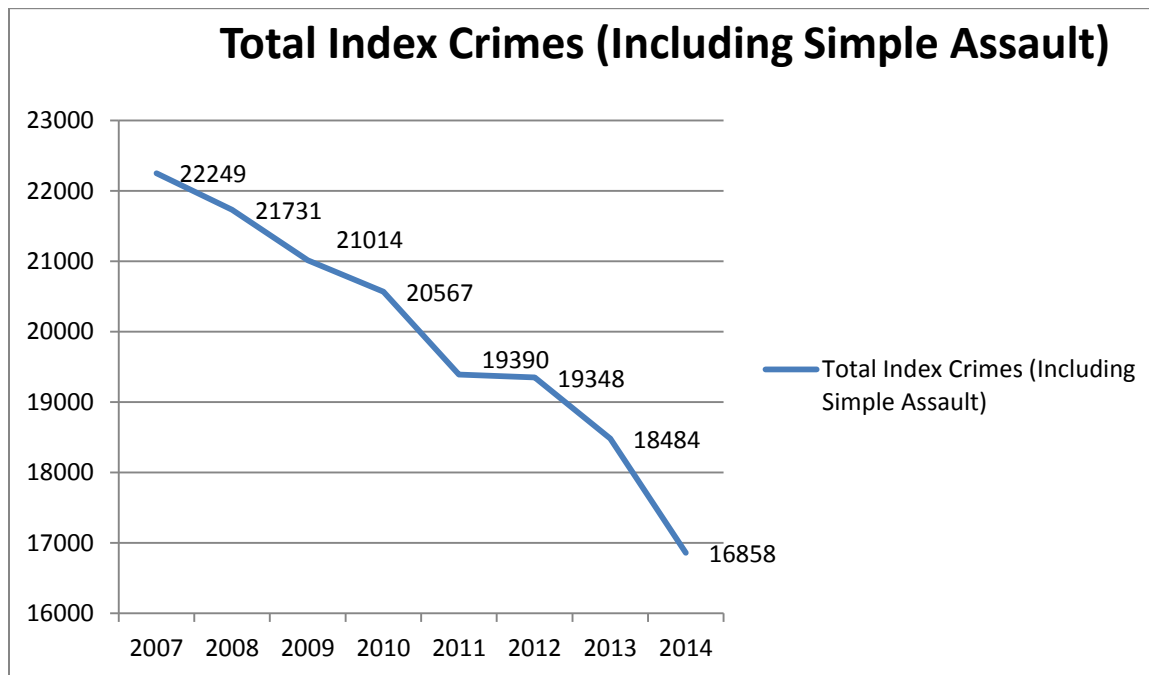

9. **OTHER ASSAULTS (Simple)** - Assaults or attempted assaults where no weapon was used and which did not result in serious or aggravated injury to the victim. (While simple assaults are not an Index crime, these totals are sometimes included with Aggravated Assault to show total assault figures.)
10. **FORGERY AND COUNTERFEITING** - Making, altering, uttering or possession, with intent to defraud, anything false which is made to appear true.
11. **FRAUD** - Fraudulent conversion and obtaining money or property by false pretenses. Included are larceny by bailee and bad checks except forgeries and counterfeiting.

29. ***RUNAWAYS*** - Limited to juveniles taken into protective custody under provisions of local statutes.

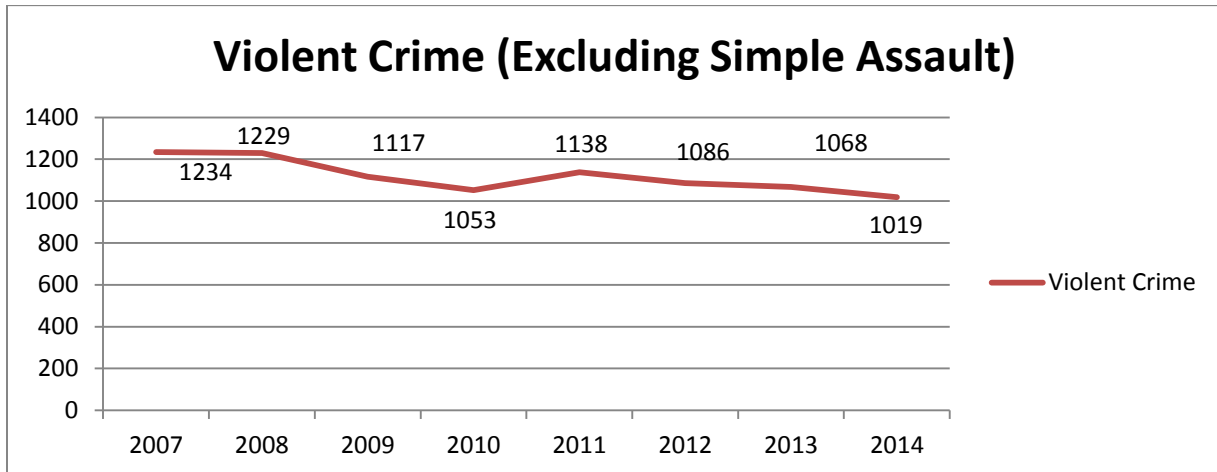

THE CRIME INDEX

The offenses which comprise the Crime Index are all serious, either by their nature or by the frequency with which they occur, and each presents a common law enforcement problem. Crimes within the Index are further categorized as Violent Crimes (murder, forcible rape, robbery and aggravated assault) or as Property Crimes (burglary, larceny-theft, and motor vehicle theft). By congressional mandate, arson was added as a reportable offense in 1979. Its data collection is separate and except where noted as the "Modified Crime Index," it is presented independently of other offense data in this report.

VIOLENT CRIMES

Violent crimes involve the element of personal confrontation between the perpetrator and the victim and entail the use or threat of force or violence. By their very nature, violent crimes are considered more serious than property crimes.

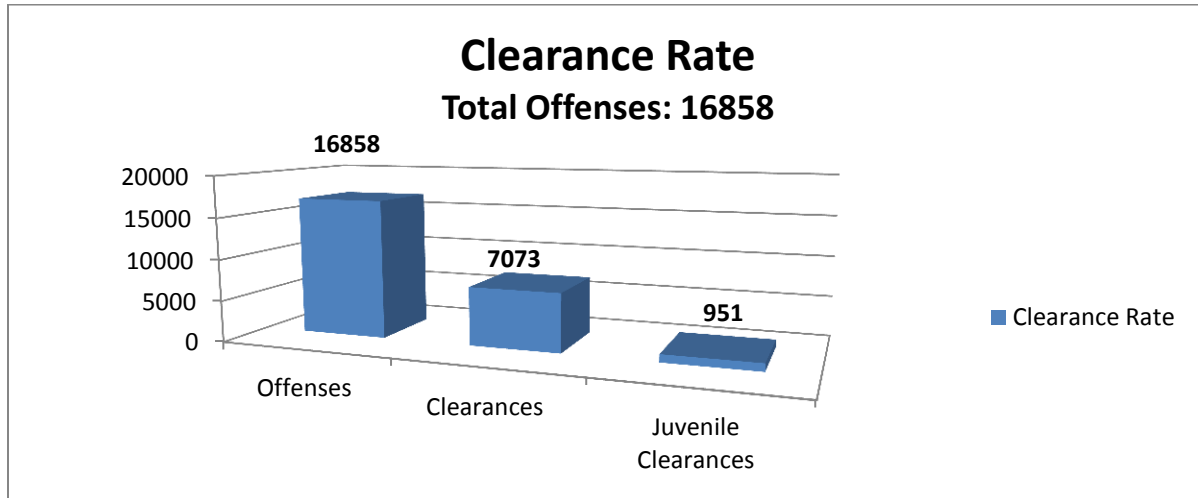

PROPERTY CRIMES

Property crimes entail the attempt or actual taking of someone's property by another. Although property crimes are less serious in nature than their violent crime counterparts of the Index, they represent, by far, the bulk of the total Crime Index.

CLEARANCES

For Uniform Crime Reporting purposes, an Index offense is cleared when: 1) a law enforcement agency has identified the offender, 2) there is sufficient evidence to charge the offender, and 3) the offender is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one offense. Clearances are also recorded in exceptional circumstances when some element beyond the control of the law enforcement agency precludes formal charges being brought against the offender. For example: death of offender, offender incarcerated in another jurisdiction, etc.

Monthly Offense and Clearance Totals

CRIME RATES

Crime rates represent the number of crimes in relation to the population of a given jurisdiction. All crime rates presented in this report are per 10,000 population unless otherwise specified. By UCR definition, the victims of forcible rape are male or female. In addition, the estimated "covered population" represents the Wyoming population that is covered by law enforcement agencies who contributed UCR data, and is the population base used in calculating crime rates.

Crime rates are calculated by dividing the number of offenses by the population and multiplying the result by 10,000. The population base figures used for this report were compiled from U.S. Census Bureau population estimates for cities/towns, counties and states. The National UCR Program calculated the 2014 state population using U.S. Census Bureau growth rates data.

* The Percent Change figures presented in this report were calculated by comparing the number of offenses reported by each contributing agency while controlling for missing reports. If an agency failed to report crime data for one or more months during 2014, the same months were excluded from the comparison with last year's reports. Given the comparatively low volume of several of the Index offenses, caution must be used when interpreting Percent Change figures since a slight shift in the volume of offenses may result in a large percent change.

Arson property value is an estimate of damage.

AGGRAVATED ASSAULT

Aggravated assault is defined as an unlawful attack, or attempt to attack, by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. In other words, all assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under one of the aggravated assault categories. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

Simple assault is *not* a Crime Index offense; however, it is collected under the assault category for quality control and for the purpose of reviewing total assault violence.

BURGLARY

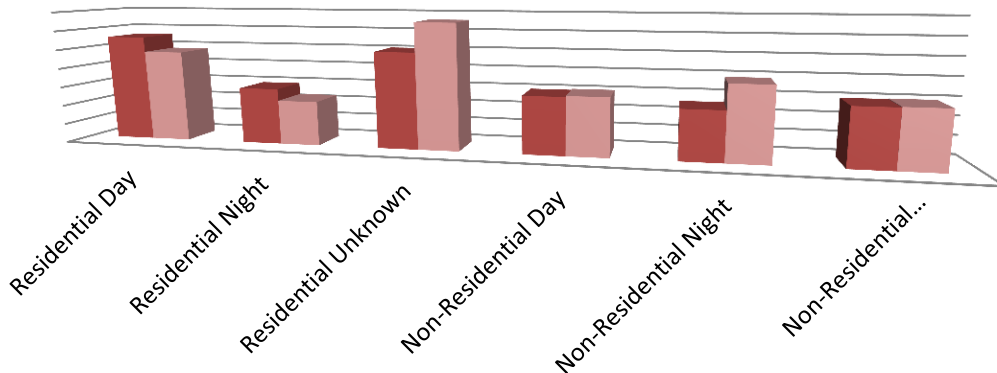

The Uniform Crime Reporting Program defines burglary as the unlawful entry of a structure to commit a felony or a theft. LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED (LEOKA)

All assaults on law enforcement officers (having full arrest powers) in which the officer sustained injury or in which a weapon was used which could have caused serious injury or death are included in this section. Also counted are those sworn officers who were not injured, but force was used against the officer. An offense is counted when an officer is assaulted in the line of duty, even though in a "off duty" status, where he/she is performing official law enforcement duties.

HATE CRIME REPORTING SUMMARY

In response to a growing concern about hate crimes, the President, on April 23, 1990, signed into law the "Hate Crime Statistics Act of 1990" (hereafter "Act"). The Act requires the Attorney General to establish guidelines and collect, as part of the UCR Program, data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, including where appropriate the crimes of murder, non-negligent manslaughter, forcible rape, aggravated assault, simple assault, intimidation, arson, and destruction, damage or vandalism of property." The Attorney General is required to begin acquiring hate crime data in calendar year 1990. The Attorney General has delegated his responsibilities under the Act to the Director of the FBI. The FBI's Uniform Crime Reports (UCR) Section has been assigned the task of developing the procedures for, and managing implementation of, the collection of hate crime data.

The following represents a summary of the Hate Crime Incident Reports submitted by UCR contributors for the year 2014.

DOMESTIC VIOLENCE REPORT

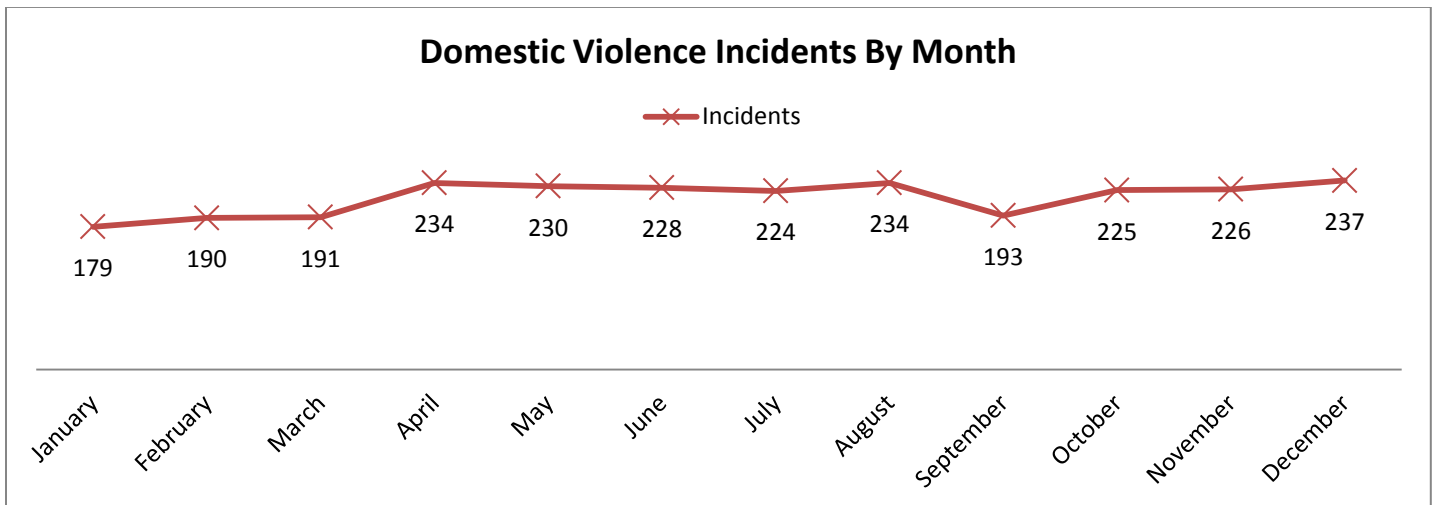

The following domestic violence information was provided by Wyoming law enforcement agencies and compiled by the Criminal Records Section, Division of Criminal Investigation, Office of the Attorney General, in compliance with W.S.S. 7-20-107(a)(b) and W.S.S. 6-4-404.

The Domestic Violence Reporting Program, which began January 1, 1988, reflects domestic violence information as submitted by Wyoming law enforcement agencies on a monthly basis.

Factors involved which contribute to the amount of domestic violence incidents reported for any one month include: repeated incidents throughout the month involving the same individuals: one offender/multiple victims; and, mutual confrontation where the involved subjects are both victim and offender.

When more than one type of violence occurs, or multiple dispositions are reported for a single incident, only the most serious and/or consequential action is counted for reporting purposes of this program.

WYOMING SEX OFFENDER REGISTRY

The first Wyoming sex offender statutes were enacted in 1994. The Wyoming Attorney General's Office, Division of Investigation (DCI) created an in-house database to track registrants for management. Dissemination of information was risk based with no public access.

In 1999, Wyoming sex offender statutes were modified so persons convicted of certain offenses were required to register as sex offenders. If an individual was convicted of an "aggravated sex offense", a required hearing was held to determine his/her risk of re-offense to the community. Once the hearing was completed, the district court classified the individual as posing a high, moderate, or low risk of re-offense. By that statute, only those determined to be at a high risk of re-offending were posted to the Web pages. Most registered sex offenders did not meet criteria for inclusion in the high risk category; therefore, the public did not see their identities posted to the Web pages.

The Wyoming Legislature in 2007 modified the sex offender statutes such that, when enacted, the Division of Criminal Investigation is required to post all registered sex offenders on an internet site accessible to the general public. In part, one purpose of this legislation is to bring Wyoming into substantial compliance with the required provisions of the Adam Walsh Child Protection and Safety Act of 2006 which was signed by the President in July, 2006. The Wyoming legislation contained an appropriation initiating implementation of scalable infrastructure for a sex offender registry system capable of managing compliance with the mandates of the federal legislation. The Wyoming Sex Offender Registration Act can be found in Wyoming State Statutes 7-19-301 through 7-19-308.

The State of Wyoming's goals and objectives were to create and maintain the Wyoming sex offender registration system (WySORS) that will allow the entry of sex offender registration data into a central repository at the time an individual registers with local law enforcement in Wyoming. This will rapidly provide sex offender registration details to the public website designed to enhance public safety by allowing public query of the system.

This web portal will allow public inspection of sex offender registry information based on a query by name or geographic location with the aid of mapping features. In addition to the capability of querying the WySORS database, the web portal allows public subscription to a sex offender record for the purpose of receiving notification when a sex offender moves into a geographic area, changes address or is removed from the registry.

The U.S. Department of Justice, National Sex Offender Public Registry (NSOPR) routinely receives sex offender registration information from each of the states, including Wyoming in the form of an index and a hyperlink to a specific offender record maintained on the DCI sex offender web portal. Wyoming continues this participation with the NSOPR through a new automated interface with the NSOPR.

WySORS supports an interface to the state's law enforcement message switching system (WCJIN). Through this interface, National Law Enforcement Telecommunications System, Inc. (NLETS) formatted queries are received from intrastate and interstate law enforcement with responses being returned through the same interface. In addition, the WCJIN interface provides access to the FBI's National Crime

Information Center (NCIC) system for purposes of entering and maintaining convicted sexual offender records. To facilitate the exchange of data from local law enforcement to the WySORS and NCIC, a uniform system of standardized NCIC data sets are used for the entering, modification, supplement and cancellation of sex offender data. This standardized dataset is used by local law enforcement and DCI administration to facilitate uniform communication with the Wyoming message switch, National Law Enforcement Telecommunications System (NLETS), and NCIC.

WYOMING STATE CRIME LABORATORY

ACCREDITATION AND CERTIFICATION

American Society of Crime Lab Directors/Laboratory Accreditation Board (ASCLD/LAB).

In 2011, the Crime Laboratory received accreditation under the International Standards Organization. The standards are the same ones used in forensic laboratories throughout the world and are designed to ensure that the quality of our testing results meet the rigorous reliability levels required by the criminal justice system. The Crime Laboratory is accredited in the testing disciplines of controlled substances, trace evidence, biology, latent fingerprints, and firearms & tool marks.

SERVICES, COVERAGE AREA, AND STAFFING

The Wyoming State Crime Laboratory provides comprehensive analysis of criminal evidence for all of Wyoming's state and local law enforcement agencies as well as providing analysis services to federal agencies assisting state and local officers. Available services include the analysis of controlled substances, fire debris, clandestine laboratories, body fluid identification, DNA testing, latent fingerprinting, blood pattern analysis, firearm and toolmark identification, hair and fibers, paints, gunshot residue, elemental analysis of unknown substances, and crime scene reconstruction.

Laboratory personnel also provide professional, expert, testimony in courts of law, training to state and local agencies in relevant subjects of forensic sciences, assistance at crime scenes, preservation of evidence, and assistance with unsolved "cold" cases upon request. The laboratory also assists with referrals to testing laboratories and/or individual experts for analysis requests that are outside of the current scope of our testing services.

The laboratory currently has a staff of twenty-five employees consisting of the director, one (1) quality assurance manager, two (2) evidence technicians, and twenty-one (21) forensic scientists.

DEFINITIONS

Analysis Requests: The number of requests for analysis submitted to the Wyoming State Crime Laboratory regardless of the number of individual items that need to be analyzed within each request.
