

## **BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS & PROFESSIONAL LAND SURVEYORS**

### **Wyoming Quality of Life Result**

Result No. 6: Wyoming state government is a responsible steward of State assets and effectively responds to the needs of residents and guests. (Government)

### **Department/Division/Program**

Board of Registration for Professional Engineers & Professional Land Surveyors

### **Contribution to Wyoming Quality of Life**

This board regulates the engineering and land surveying professions within the state. They review the qualifications of individuals, corporations and partnerships registered in other states, and administer examinations for new applicants in Wyoming. Additionally, they conduct investigations of complaints against professionals and firms, and take appropriate disciplinary action when warranted.

### **Basic Facts**

This licensing board was established in 1907 to protect the public from incompetent, unethical or unlicensed practice of engineering and land surveying. Additionally the board promotes excellence in these professions. The board operates with three employees and a biennium budget of \$650,233. The board is entirely self supporting, and uses license fees to support its operations. Currently, the board has the following numbers of active licensees:

• Professional Engineers (PE)	4,514
• Engineers in Training (EIT)	1,739
• Professional Land Surveyors (PLS)	304
• Land Surveyors in Training (LSIT)	51
• Dual registrants as Professional Engineer and Land Surveyor (PELS)	131
• Corporations (Engineering & Surveying)	783

### **Performance Measures**

Performance measures have not been established for this board.

Supplemental Budget Implications: None
