Performance Management:

In FY 12 a new Strategic Plan for ETS was developed under the Governor's vision for delivering technology to the state of Wyoming. With the creation of the new agency under legislation signed into law in March 2012, goals have been identified and performance matrices are currently being developed.

Goals:

1. Deliver tech potential to business innovators

2. Foster passionate people; holistic, engaged, committed
3. Engage technology to do more and better with less
4. Enhance quality of life through technology initiatives
