STATE OF WYOMING

INTRODUCTORY SECTION

**For Fiscal Year Ended
June 30, 2012**

Cynthia I. Cloud, CPA, State Auditor

December 21, 2012

State Capitol
Cheyenne, Wyoming 82002
Telephone: 307/777-7831
FAX: 307/777-6983

TO: The Honorable Matthew H. Mead, Governor,
Members of the Legislature, and the
Citizens of the State of Wyoming:

It is my privilege to present the Comprehensive Annual Financial Report (CAFR) of the State of Wyoming as of and for the fiscal year ended June 30, 2012. In accordance with law (W.S. 9-1-403(a)(v)) the State Auditor provides annual financial statements prepared in conformance with generally accepted accounting principles (GAAP).

The CAFR is the primary means of reporting the State of Wyoming's financial activities. McGee, Hearne & Paiz, LLP, certified public accountants, has independently audited the State of Wyoming's financial statements. The independent audit is performed annually to provide reasonable assurance that the financial statements of the State of Wyoming are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the State of Wyoming's financial statements for the fiscal year ended June 30, 2012 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of the CAFR.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

The CAFR consists of representations by the management of each State entity concerning the finances of the State of Wyoming. Responsibility for both the accuracy of the data and the completeness and reliability of the information, including all disclosures, rests with the State. To provide a reasonable basis for making these representations, the State has established an internal control framework that is designed both to protect the State's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the State of Wyoming's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the State's framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. This is the established and accepted standard. The financial statements have been prepared primarily from accounts and records maintained by the State Auditor. To the best of my knowledge and belief, this financial report is complete and reliable in all material respects.

The independent audit of the financial statements of the State of Wyoming is part of a broader, federally mandated "single audit" designed to meet the special needs of federal grantor agencies. The standards governing single audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements involving the administration of federal awards. These reports are available in the State of Wyoming's separately issued Compliance Report.

Profile of the Government

On July 10, 1890, the State of Wyoming, known as the 'Equality State,' was the 44th state admitted to the Union. Located in the Rocky Mountain section of the western United States, Wyoming is bounded on the north by Montana, on the east by South Dakota and Nebraska, on the south by Colorado and Utah, and on the west by Utah, Idaho and Montana. It is the ninth largest state in the United States, containing 97,914 square miles. The 2010 Census put Wyoming's population at 563,626. Wyoming is home to two of the country's foremost national parks, Yellowstone National Park and Grand Teton National Park, as well as the first designated national monument, Devil's Tower.

The executive branch of Wyoming government is comprised of a Governor, Secretary of State, State Auditor, State Treasurer, and the Superintendent of Public Instruction, all of whom are elected by statewide vote every four years. The legislative branch of government is comprised of 30 state senators and 60 state representatives. The term of office for senators is four years, 15 of the members being elected at a general election at which a President of the United States is elected, the balance at the next general election. The entire body of the House of Representatives is elected every two years for a two-year term.

The State of Wyoming provides a full range of services to its constituents. The principal departments of Wyoming Government are: Administration and Information, Agriculture, Attorney General, Department of Audit, Corrections, Engineer, Environmental Quality, Family Services, Game and Fish, Health, Revenue, State Parks and Cultural Resources, Transportation and Workforce Services. Effective July 1, 2012, a new principal department was created—Enterprise Technology Services. This department is designed to centralize Information Technology services.

Among the some 21 separate operating agencies are six entities which are legally separate but considered as component units of the State of Wyoming, as the State has significant operational and/or financial relationships with them. Six of the component units' financial data are reported in columns separate from the financial data of the primary government (the State). Those organizations are the University of Wyoming, Department of Transportation, Wyoming Community Development Authority, Wyoming Pipeline Authority, Wyoming Infrastructure Authority and Wyoming Business Council. Additional information on all six of these legally separate entities can be found in Note 1 in the notes to the financial statements.

Budgetary Process

The biennial budget serves as the foundation for the State of Wyoming's financial planning and control. Wyoming statutes require the Governor to prepare and submit a biennial budget to the Legislature every even-numbered year. Budgets are prepared for a biennial period and are augmented, if necessary, with supplemental appropriations during the legislative sessions conducted in odd-numbered years. Budgets are adopted at the program level by agency. The Legislature may add, change, or delete any budget items proposed by the Governor. The Governor may authorize changes and revisions to approved budgets during the budget term, including increasing appropriations in the event of federal revenue above the initial budget approved by the Legislature. Budget-to-actual comparisons are provided in the CAFR for each individual governmental fund for which an appropriated biennial budget has been adopted. For the general fund, the foundation program fund and the American Recovery and Reinvestment Fund, this comparison is presented as part of the required supplementary information. For governmental funds other than the major funds, this comparison is presented in the supplementary information section of the CAFR.

Long Term Financial Planning

The State of Wyoming incorporates revenue forecasting for two principal areas: general government operations and public school financing.

For general government the State utilizes the efforts of the Consensus Revenue Estimating Group (CREG). CREG was created by mutual informal agreement between the executive and legislative branches in 1983 as a result of the need for reliable and consistent revenue estimates which could be used by the executive branch and the Legislature in the budgeting process. CREG is composed of members from various professional fields and governmental organizations, including legislative and executive branch representatives.

The CREG Report contains the following information:

- (i) Projections for major revenue sources to the General Fund are detailed including sales and use taxes, pooled interest, Permanent Wyoming Mineral Trust Fund interest, and severance taxes.
- (ii) The severance tax forecast details projected production, price and expected severance tax receipts for each major mineral and the report shows expected distributions of severance taxes to each fund or account that receives the taxes;
- (iii) The federal mineral royalty forecast also details projected production, price and expected royalties for oil, natural gas and coal and details the expected distribution of royalties to each fund or account that receives the royalties;
- (iv) The report also projects income derived from investment of the Common School Permanent Land Fund and projects total state assessed valuations to project the amount of revenue generated by the assessment of twelve mills to support education.

School Finance

The Legislature is required to define the proper combination of educational goods and services every child in Wyoming should receive. The State has a continuing process to determine the resources needed to provide proper combination of educational goods and services and to ensure that school districts have adequate funding to provide those goods and services. The present day funding model is recalibrated every five years.

The funding model consists of three major components:

1. Legislation enacting the model. This includes the statutory language to fund schools, and an appendix, which outlines specific funding decisions made by the Legislature.
2. A set of linked worksheets which compute school and district funding allocations.
3. Additional worksheets developed by the Wyoming Department of Education to distribute funds to the school districts.

The State also has a legislatively approved plan for construction and major maintenance of State education facilities, including for the University of Wyoming.

Major Initiatives

State Land Project

The State Auditor, in cooperation with the Governor and the Office of State Lands and Investments (OSLI), completed a joint project which included the development of an online reporting system for all state non-trust lands. This system, known as the Uniform Real Property Reporting System, is housed within and maintained by OSLI. All agencies are required to report in the system all land transactions including purchases, sales, swaps and donated land. If they had no activity for the year, they are required to report that as well.

This project was completed by fiscal year end and resulted in the recording of approximately \$33 million dollars in previously unrecorded land and the restatement of approximately \$16.6 million in land previously recorded. Going forward, this system will allow the State to track its non-trust land holdings.

Super Computer

The State in conjunction with the Wyoming Business Council, Cheyenne Leads and the University of Wyoming have been working to bring the newest supercomputer for the National Center for Atmospheric Research to Wyoming (NCAR), with the preferred location being Cheyenne, Laramie County Wyoming. The State Legislature had provided a total of \$24 million to secure this project and authorized the appropriations in its 2007 General Session. The efforts of the State, local government and the University of Wyoming were successful, as Cheyenne was selected by NCAR. The grand opening was held in the fall of 2012.

The purpose of the NCAR-Wyoming Supercomputing Center is to provide meteorological assistance by studying everything from hurricanes and tornadoes to geomagnetic storms, tsunamis, wildfires, air pollution and the location of water beneath the earth's surface. Nicknamed "Yellowstone", it can run an astonishing 1.5 quadrillion calculations

per second — that as of June 2012 ranks among the top 20 most powerful computers in the world. According to one expert, “Yellowstone” will greatly advance our understanding of Earth.

The NCAR Wyoming Supercomputing Center (NWSC) represents a collaboration between NCAR and the University of Wyoming and through the Wyoming-NCAR Alliance (WNA) a portion of the Yellowstone systems, about 75 million core-hours per year, is reserved for Wyoming-led projects in the atmospheric, earth system, geological and related sciences. Large allocations are overseen by the WNA Resource Advisory Panel (WRAP); a University of Wyoming-managed process.

In addition, allocations may be given to support faculty's integration of high performance computing in their undergraduate and graduate courses, and to support initial code development, experimentation, application testing and data analysis to be used to strengthen a future grant proposal. Resources may also be made available to a small number of projects funded by other government agencies or by the private sector.

Source: UW website for NCAR

Education. The Hathaway Scholarship Program. Hathaway scholarships are scholarships designed to provide an incentive for Wyoming students to prepare for and pursue postsecondary education within the State of Wyoming. The higher education program consists of four separate merit scholarships, each with specific eligibility requirements, and a need-based scholarship for eligible students, which supplements the merit awards.

Hathaway Merit Scholarships became available for eligible recipients beginning with the class of 2006 for the fall semester. Funding: 80% of the funds appropriated for the Hathaway Scholarship Program are for the Hathaway Merit Scholarships and 20% of the funds are for Hathaway Need-Based Scholarships. Hathaway scholarships are for attendance at the Wyoming postsecondary eligible institutions. Hathaway scholarships are not entitlements, and are subject to legislative appropriation. The Legislature has the authority to modify or terminate the Hathaway Scholarship Program at any time and to amend the requirements for eligibility.

Capital Projects. The State Building Commission and the Legislature are considering the renovation of the Capitol. Appropriations for the design work have been approved. The major issue facing the Commission and the Legislature is to locate space to house the Capitol occupants, and to decide whether space should be added to the Capitol while preserving the historic integrity of the building.

The State has also authorized a major water project for the city of Gillette. The end result of the project will be a reliable water supply for the city. The project is being funded with appropriations, Abandoned Mine Land grants, loans from the Permanent Mineral Trust Fund and local government funding. To date the State has provided approximately \$240 million from the various sources.

State Economy

Wyoming's economic well-being continues to depend primarily on the mineral industry. Revenues to the State of Wyoming come from severance taxes, ad valorem taxes on real and personal property, federal mineral royalties from production on federal lands in Wyoming, and sales and use taxes. Wyoming gets approximately 52 percent of its mineral severance tax from natural gas production.

According to economic analysis through the second quarter ending June 30, 2012, prepared by the Division of Economic Analysis (EA) of the Department of Administration and Information, the national economy was still experiencing weak domestic demand as well as economic and monetary issues facing the European Union. U.S. economic growth had come to a near standstill, with real gross domestic product growing at only a 1.3% annualized rate for the second quarter of 2012, which was down from a 2% growth rate in the first quarter. Businesses were reluctant to hire, and households were spending tentatively.

The Division of Economic Analysis in their report indicated that Wyoming's economy has continued turning positive since the beginning of 2010, due in large part to the energy sector. The unemployment rate had dropped to 5.3%, while the U.S. unemployment rate was at 8.2%. Wyoming's mining industry saw job growth of 1.7%, which for this pivotal industry was actually a slowdown in job creation.

At their October 2012 revenue forecast meeting the State's revenue estimating group increased their revenue projections for the balance of the 2013-2014 biennium by \$85 million. The Governor's budget submitted to the Legislature on December 1, 2012 included recommended cuts across State agencies averaging approximately 6.5%.

For additional information on the State of Wyoming's economy, and the latest CREG revenue projections, the reader is directed to the Division of Economic Analysis (EA) of the Department of Administration and Information. Their web address is <http://eadiv.state.wy.us>.

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Wyoming for its CAFR for the fiscal year ended June 30, 2011. This was the fifteenth year that the State has received this prestigious award. In order to be awarded a Certificate of Achievement, the State must publish an easily readable and efficiently organized CAFR that satisfies both Generally Accepted Accounting Principles and applicable legal requirements. A copy of the GFOA certificate is included in the introductory section of the CAFR.

A Certificate of Achievement is valid only for a one-year period. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and are submitting it to the GFOA to determine its eligibility for another certificate.

The CAFR represents the responsibility of the State Auditor to give the citizens of Wyoming an accurate picture of the financial condition of their State government. Great strides have been made in the past few years to improve our State's accounting and financial reporting: implementation of GAAP, preparation of the CAFR, an independent audit of our financial statements, and implementation of various Governmental Accounting Standards Board (GASB) standards. All have contributed to better financial management. My appreciation goes out to the Legislature and our staff for making these improvements possible.

In conclusion, I believe this report provides information beneficial in evaluating the financial activity of the State of Wyoming. The State Auditor's Office would like to express our appreciation to the fiscal officers and staff throughout State government for their dedicated efforts in assisting us in the completion of this report.

I would also like to express my thanks to the dedicated staff within the State Auditor's Office, who continue to take great pride in this report. I am proud to have them on my team as we reaffirm our commitment to providing the citizens of Wyoming excellence in financial reporting.

Thank you!

Respectfully submitted,

A handwritten signature in black ink, reading "Cynthia Cloud". The signature is fluid and cursive, with the first name "Cynthia" and the last name "Cloud" clearly distinguishable.

Cynthia I. Cloud, CPA

INDEPENDENT AUDITOR'S REPORT

Honorable Governor, Members of the Legislature
State of Wyoming
Cheyenne, Wyoming

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wyoming (the "State") as of and for the year ended June 30, 2012, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Wyoming Community Development Authority, the Wyoming Pipeline Authority, Wyoming Infrastructure Authority, or the Wyoming Department of Transportation, which are shown as discretely presented component units. In addition, we did not audit the financial statements of the University of Wyoming Foundation (Foundation), a component unit of the University of Wyoming, which is included in the balances for the University of Wyoming (University), a discretely presented component unit of the State. The Foundation represents approximately 32% of total assets and 6% of total revenues of the University. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Wyoming Community Development Authority, the Wyoming Pipeline Authority, Wyoming Infrastructure Authority, the Wyoming Department of Transportation, and the Foundation portion of the University component units, is based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wyoming as of June 30, 2012, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 16 through 29 and budgetary comparison information and infrastructure modified approach information on pages 139 through 148 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Wyoming's financial statements. The combining and individual nonmajor fund financial statements and the schedules of revenue and expenditures (budget and actual) on pages 149 through 213 are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedules of revenue and expenditures (budget and actual) are fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Wyoming's basic financial statements. The introductory section on pages 3 through 11 and the statistical section on pages 215 through 272 are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

STATE OF WYOMING

**MANAGEMENT'S
DISCUSSION
AND ANALYSIS**

**For Fiscal Year Ended
June 30, 2012**

MANAGEMENT'S DISCUSSION AND ANALYSIS

The State Auditor's Office offers readers of the State of Wyoming's financial statements this narrative overview and analysis of the financial activities of the State of Wyoming for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-iv of this report.

Financial Highlights

Government-Wide:

- The assets of the State of Wyoming exceeded its liabilities as of June 30, 2012 by \$15.3 billion (reported as net assets). This is an increase of \$1 billion from June 30, 2011. Of this amount, \$5.1 billion is unrestricted net assets that may be used to meet the government's ongoing obligations. Also, beginning net assets were restated by a net increase of \$27,656,140. This restatement of net assets was principally attributable to previously unrecorded land which provided a net increase of \$16.6 million, \$8.3 million for Medicaid ARRA expenditures and \$2.7 million for unrecorded intangible assets. Component units reported net assets of \$7.1 billion.

Fund Level:

- As of June 30, 2012, the State of Wyoming's governmental funds reported combined ending fund balances of \$14.1 billion, an increase of \$948.3 million.
- At the end of the fiscal year, unassigned fund balance for the general fund was \$2.1 billion. The previously reported unreserved fund balance was \$1.9 billion. The majority of the increase of \$200 million is attributable to major revenue sources of the General Fund being greater than was projected, with more than half of the increase attributable to investment earnings of \$159.2 million greater than anticipated.
- The enterprise funds reported net assets at year-end of \$367.4 million an increase of \$74.1 million from June 30, 2011. This increase is attributable to a number of factors including a decrease in claims and benefits of \$117.8 million coupled with a slight increase for charges for sales and services of \$52 million. These increases were somewhat offset by a decline from investment income and changes in investments totaling \$116.1 million year over year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the State of Wyoming's basic financial statements. Financial reporting is intended to provide external parties that read financial statements with information that will help them to make decisions or draw conclusions about an entity. These parties do not always have the same specific objectives. In order to address the needs of as many parties as reasonably possible, the State's annual report consists of three major sections in accordance with required reporting standards: Management's Discussion and Analysis (MD&A), the basic financial statements, and required supplemental information. The State of Wyoming's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the State of Wyoming's finances, in a manner similar to a private-sector business. The State's government-wide financial statements include the *statement of net assets* and *statement of activities*. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting.

- The purpose of the *statement of net assets* is to report all of the assets held and liabilities owed by the State. The State reports all of its assets when it acquires ownership over the assets and reports all of its liabilities when they are incurred. The difference between the State's total assets and total liabilities is titled *net assets* and this difference is similar to the owner's equity presented by a private-sector business.

The government-wide statement of net assets can be found on page 32 of this report.

- The purpose of the *statement of activities* is to present all the revenues and expenses of the State of Wyoming. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a private-sector business in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the State. Revenues are recorded when

earned regardless of when the cash will be received and expenses are recorded even though they may not have been paid during the current period (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide statement of activities can be found on pages 34-35 of this report.

Both statements report three activities:

- *Governmental Activities* – Most of the State's basic services are reported under this category. Taxes and intergovernmental revenues generally fund these services. The Legislature, the Judiciary, and the general operations of the Executive departments fall within the governmental activities.
- *Business-type Activities* – The State charges fees to customers to help it cover all or most of the cost of certain services it provides. Workers' compensation and the State's unemployment compensation services are examples of business-type activities.
- *Component Units* – Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The State has 3 authorities, 1 university, and 2 state agencies that are reported as discretely presented component units of the State.

Fund financial statements. The major fund financial statements begin on page 36 and provide more detailed information about the State's most significant funds – not the State of Wyoming as a whole. Funds are accounting devices that the State uses to keep track of specific sources of funding and spending. Except for the general fund, a specific fund is established to satisfy legal requirements established by external parties or governmental statutes or regulations. The State of Wyoming establishes other funds to control and manage money for particular purposes or to show that it is properly using certain resources. All of the funds of the State of Wyoming can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** Most of the State's basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for future spending.

Governmental fund financial statements consist of a balance sheet and statement of revenues, expenditures, and change in fund balances. The statements are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements. All of the State's programs are included in the governmental funds, which focus on how cash and other financial assets that can readily be converted to cash flow in and out in a short period of time. For example, amounts reported on the balance sheet include items such as cash and receivables collectable within a short period of time, but do not include capital assets such as land and buildings. Fund liabilities include amounts that are to be paid in a short period after the end of the fiscal year. The difference between a fund's total assets and liabilities is labeled as the fund balance. The unassigned portion of fund balance generally indicates the amount that can be used to finance next year's activities.

The operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid in cash, respectively, during the current period or very shortly after the end of the year. Consequently, the governmental funds statements provide a short-term view that helps determine if there are more or fewer financial resources to finance the State's programs. Because this information does not encompass the long-term focus of the government-wide statements, we provide an analysis reconciling the total fund balances to the amount of net assets reported in the statement of net assets.

Also, there is an analysis following the statement of revenues, expenditures, and changes in fund balances that reconciles the change in net assets of the governmental activities presented in the government-wide statement of activities to the change in fund balance presented in the statement of revenue expenditures and changes in fund balance. These two reconciliation schedules (pages 37 and 39) provide an analysis of transitioning from modified accrual accounting (Fund Basis) to full accrual accounting (Government-wide Basis). The following summarizes the impact of transitioning from modified accrual to full accrual accounting:

- Capital assets used in governmental activities are not reported on governmental fund statements.
- Internal service funds are reported as governmental activities, but reported as proprietary funds in the fund financial statements.

- Unless due and payable, long-term liabilities, such as capital lease obligations, compensated absences, bonds payable, and others only appear as liabilities in the government-wide statements.
- Certain other outflows represent either increases or decreases in liabilities on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- **Proprietary funds.** When the State charges customers for the services it provides, whether to outside customers or to other state agencies within the State, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting: the same method used by private sector businesses. Enterprises funds report activities that provide supplies and services to the general public. An example is the State Workers' Compensation. Internal service funds report activities that provide supplies and services for the State's other programs and activities-such as the State's Information Technology Division. Internal service funds are reported as governmental activities on the government-wide statements since their primary purpose is to support those activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise funds are broken out between major and non-major. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in the supplementary information section of this report.

The basic proprietary fund financial statements can be found on pages 40-42 of this report.

- **Fiduciary funds.** The State acts as a trustee or fiduciary for its employee pension plan. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. These statements include pension, investment trust, private purpose, and agency funds, which use accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

The basic fiduciary fund financial statements can be found on pages 43-44 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 45-138 of this report.

Required Supplementary Information is presented that further explains and supports the information in the financial statements. The Required Supplementary Information includes budgetary comparisons schedules primarily prepared on a biennial basis. Also included is a discussion of the Wyoming Department of Transportation (DOT) and how they account for infrastructure assets using the modified approach.

Required supplementary information can be found on pages 139-148 of this report.

Other Supplementary Information includes combining statements referred to earlier in connection with non-major governmental, enterprise, internal service and fiduciary funds that are presented immediately following the required supplementary information.

Other supplementary information can be found on pages 149-213 of this report.

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a State's financial position. In the case of the primary government (State of Wyoming), assets exceeded liabilities by \$15.3 billion at the close of fiscal year 2012. This was an increase of \$1.0 billion for the fiscal year but a decrease of \$1 billion in a year over year comparison. The increase for the fiscal year was buoyed by steady albeit lower commodity prices, and investment returns which produced a year over year increase of \$300 million above projections for all major sources of revenue. Net assets were also restated due to the recording of previously unrecorded state lands, intangible assets and an adjustment for ARRA Medicaid expenditures, by approximately \$27.6 million.

The following condensed financial information was derived from the government-wide Statement of Net Assets:

State of Wyoming's Net Assets for Fiscal Year Ended June 30, 2012						
	Governmental Activities		Business-Type Activities		Total Primary Government	
	2011	2012	2011	2012	2011	2012
Current assets	\$ 17,327,091,399	\$ 18,314,802,319	\$ 2,110,991,087	\$ 2,244,511,544	\$ 19,438,082,486	\$ 20,559,313,863

Total liabilities	<u>4,279,439,694</u>	<u>4,334,490,652</u>	<u>1,828,361,914</u>	<u>1,891,291,306</u>	<u>6,107,801,608</u>	<u>6,225,781,958</u>
Net assets:						
Invested in capital assets, net of related debt	847,398,478	903,248,964	10,478,136	14,238,963	857,876,614	917,487,927
Restricted	8,823,942,569	9,198,563,709	255,533,175	45,079,331	9,079,475,744	9,243,643,040
Unrestricted (deficit)	4,259,824,104	4,815,567,129	27,298,952	308,140,907	4,287,123,056	5,123,708,036
Total net assets	<u>\$ 13,931,165,151</u>	<u>\$ 14,917,379,802</u>	<u>\$ 293,310,263</u>	<u>\$ 367,459,201</u>	<u>\$ 14,224,475,414</u>	<u>\$ 15,284,839,003</u>

The investments in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding, is \$915 million. The State of Wyoming uses these capital assets to provide services to the citizens; consequently, these assets are not available for future spending. Although the State of Wyoming's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the State of Wyoming's net assets, \$9.2 billion, represents resources that are subject to restrictions on how they may be used. The remaining balance of unrestricted net assets is \$5.1 billion.

The majority of the current assets of \$20.6 billion, consists of various cash and pooled investments of \$18.2 billion, and accounts receivable, due from other governments and loan receivables (including interest receivable) of \$2.4 billion. The remaining amount is comprised of other assets such as inventory and prepaid expenses.

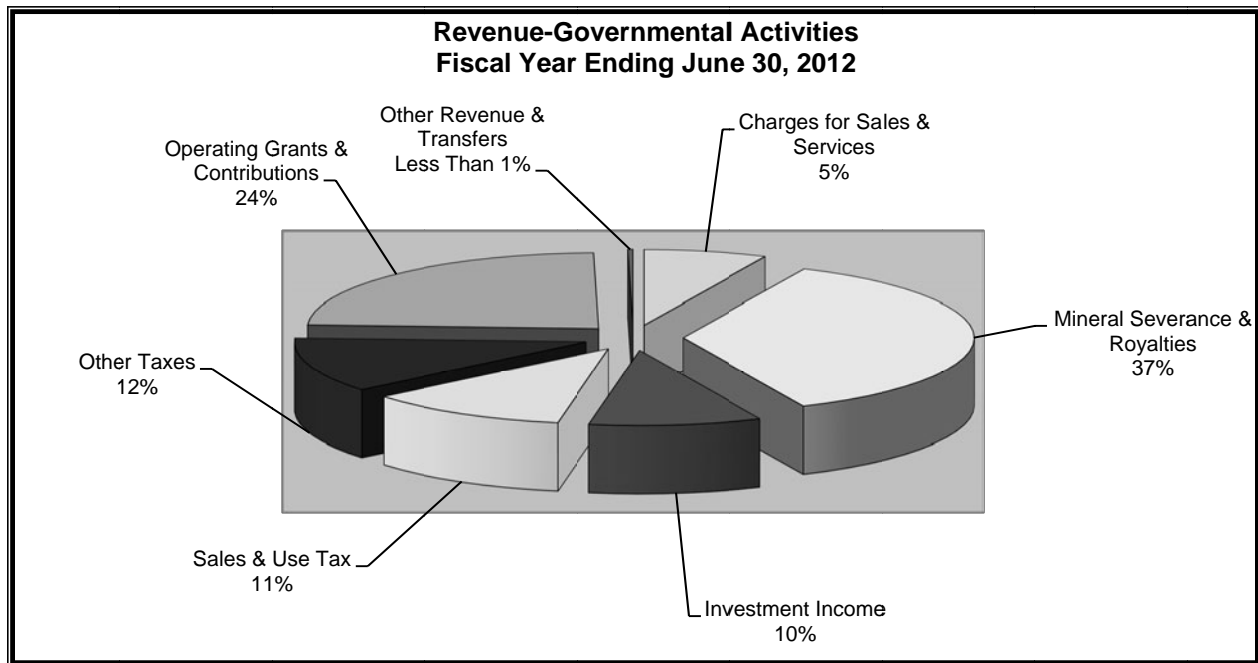

The current liabilities of \$4.7 billion are comprised of various items: \$2 billion is related to liabilities under security lending; \$313.8 million is related to claims and benefits payable, current portion of bonds payable and compensated absences (refer to Note 8 for additional detail); \$2 billion is related to various accounts payable. The amount of unavailable revenue totaling \$298 million is attributable to property taxes and long term loans reserved. The amount due component units \$107.1 million, represents the unspent appropriations allocated to discretely presented component units. The remaining amount of \$36 million is made up of various other liabilities.

The majority of the long-term liabilities of \$1.5 billion is comprised of claims and benefits payable of \$86.1 million, compensated absences of \$12.2 million and bonds payable of \$31.4 million. The State's estimated GASB 45 OPEB liability is \$57.4 million. OPEB represents the State's Other Post-Employment Benefits other than pension benefits.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the State's net assets changed during the fiscal year:

State of Wyoming's Changes in Net Assets for Fiscal Year Ended June 30, 2012 Statement of Activities

The chart below represents revenues of the governmental activities for the fiscal year:

The following chart represents expenses of the governmental activities for the fiscal year:

Business-type activities.

The net assets of the business type activities increased by \$74.1 million during the fiscal year. This increase is attributable to a number of factors including a decrease in claims and benefits of \$117.8 million coupled with a slight increase for charges for sales and services of \$51.8 million. These increases were somewhat offset by a decline from investment income and changes in investments totaling \$116.1 million year over year.

Financial Analysis of the State of Wyoming's Funds

As noted earlier, the State of Wyoming uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the State of Wyoming's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources, as stated earlier. Such information is useful in assessing the State of Wyoming's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2012, the State of Wyoming's governmental funds reported combined ending fund balances of \$14.1 billion, an increase of \$957 million. Of this total fund balance, \$8.6 billion, is classified within the permanent funds as nonexpendable corpus. Fiscal year 2011 marked the first year of implementing GASB Statement 54. This statement created a new fund balance hierarchy. The classifications of this new hierarchy are: nonspendable, restricted, committed, assigned and unassigned. These classifications are further discussed in Note 1 (C) and Note 12.

General Fund. The general fund is the chief operating fund of the State of Wyoming. At the end of the current fiscal year, unassigned fund balance of the general fund was \$2.1 billion, while total fund balance was \$3.1 billion. The net change in fund balance for 2012 in the general fund was a \$870.4 million increase. There was a prior period adjustment restating beginning fund balance by an increase of \$23.1 million. Of this prior period adjustment \$14.8 is related to the continuation of monitoring funds for appropriate financial reporting under the guidance of GASB Statement 54. The balance of the restatement of \$8.3 million is related to a prior period error for ARRA Medicaid expenditures. The majority of the unassigned fund balance (\$1.8 billion of \$2.1 billion) is attributable to moving the Legislative Stabilization Reserve Fund, the Budget Reserve Fund and the capitol restoration fund to the General Fund. This movement was required by GASB 54 as these funds no longer meet the requirements of a special revenue fund. A more detailed comparative analysis of the activity for the General Fund can be found on pages 24-29, of this MD&A.

The State Auditor is required by statute to sweep the General Fund's unappropriated fund balance at the end of a biennium to the Legislative Stabilization Reserve Fund. Because this fund is now part of the General Fund for financial reporting purposes, these transfers will net to zero for financial reporting purposes. For the 2011-2012 biennium this amount was \$164.3 million. The State Auditor is also required by statute to sweep the Budget Reserve Fund's balance in excess of required reserves at the end of a biennium to the Legislative Stabilization Reserve Fund. For the 2011-2012 biennium the amount to be transferred is \$421.9 million.

Foundation Program Fund. The restricted fund balance at June 30, 2012 totaled \$130.1 million, a net decrease in fund balance of \$7.5 million. This fund carries a legislative restriction on its unobligated, unencumbered fund balance which states it shall not exceed \$100 million. For fiscal year 2012 and the biennium ending June 30, 2012, the restricted fund balance in excess of \$100 million is to be transferred to the School Capital Construction Fund. The amount of this sweep in excess of \$100 million for fiscal year 2012 was \$195.3 million. For fiscal year 2012 the excess is to be transferred to the School Capital Construction Fund.

Common School Land Fund. As of June 30, 2012, this fund balance totaled \$2.5 billion, of which, \$2.5 billion is in the non-spendable-corpus portion of fund balance. This is a net increase in non-spendable fund balance of \$124.4 million for the year.

Permanent Mineral Trust Fund. Non-spendable-corpus fund balance at June 30, 2012, totaled \$5.6 billion, a net increase in non-spendable corpus fund balance of \$227.7 million for the year

American Recovery and Reinvestment Fund. As of June 30, 2012, its fund balance was zero and its net change in fund balance was zero as well. This fund is used to account for most federal stimulus funding received, except those received for highway infrastructure and for the University of Wyoming. There are some formula driven stimulus funds that are not accounted for in this fund such as those received by the Supplemental Nutrition Program (SNAP).

Proprietary funds. The State of Wyoming's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The enterprise funds reported net assets at year-end of \$367.5 million an increase of \$74.1 million from June 30, 2011. The majority of this increase was attributable to a decrease in claims and benefits of \$118

million coupled with a slight increase for charges for sales and services of \$53 million. The decrease in claims was attributable to Unemployment Trust Fund and Workers' Compensation Fund claims and benefits of a nearly equal \$58 million decrease for a total decrease of \$116 million.

General Fund Budgetary Highlights

During the 2012 Legislative Budget Session, the 2013-2014 Biennial Appropriations were approved for the General Fund totaling \$3.2 billion. Major budgetary items are briefly summarized below:

- \$70 million Highway construction;
- \$81 million for local government;
- \$372 million University of Wyoming;
- \$236.6 million State Aid to Community Colleges;
- \$12 million for general government Construction in Progress;
- \$15.4 million for Community College Construction in Progress;
- \$36 million for University of Wyoming Construction in Progress;
- \$52.9 million for major maintenance;
- \$468 million for public safety and corrections programs;
- \$131 million for employment and economic development;
- \$936 million for health programs;
- \$162 million for social services programs;
- \$143 million for natural resource programs;
- \$177.7 million for general government;

The total general fund revenues are presented in a pie chart below to display how sources relate to total revenue. The table on the following page shows the change in 2011 and 2012 revenue sources. On page 26, General Fund expenditures are similarly presented, depicting functions as they relate to total expenditures.

As shown in the table following, total Revenues decreased overall by \$30.8 million, while Other Financing Sources (transfers-in) increasing 141% or \$367 million in fiscal year 2012. The slight increase in sales and use tax is attributable to a slight uptick in the energy sector as energy producers changed over from natural gas production and drilling to oil production and drilling. The commodity price for oil for the fiscal year was higher than projected, but was not sufficient to offset the loss in production of natural gas and relative low price received for natural gas which is the major contributing factor for the slight decreases in mineral severance tax and federal mineral royalties. Year over year comparison of investment income saw a slight increase but comparing fiscal year 2012 investment income to what was projected to be received saw an overall increase of \$159 million above revenue projections largely due to the capture of realized capital gains on the State's investment portfolio.

General Fund Revenue and Other Financing Sources for Fiscal Year Ended June 30, 2012					
	FY11	FY12	Increase (Decrease)	Percent Change	
Taxes:					
Sales & Use	\$ 494,496,404	\$ 531,145,133	\$ 36,648,729	7%	
Mineral Severance	494,963,427	468,580,431	(26,382,996)	-5%	
Other Taxes	23,210,774	24,484,327	1,273,553	5%	
Licenses and Permits	8,470,035	9,691,532	1,221,497	14%	
Fines & Forfeitures	5,443,017	6,516,078	1,073,061	20%	
Use of Property	15,616,620	3,606,083	(12,010,537)	-77%	
Investment Income	411,175,858	401,968,590	(9,207,268)	-2%	
Charges for Sales & Services	31,951,274	35,590,561	3,639,287	11%	
Revenue from Others	29,691,960	39,494,543	9,802,583	33%	
Federal	622,527,031	644,399,525	21,872,494	4%	
Miscellaneous Receipts	409,072	84,611	(324,461)	100%	
Federal Mineral Royalties	466,602,075	408,218,740	(58,383,335)	-13%	
Total Revenues	2,604,557,547	2,573,780,154	(30,777,393)	-1%	
Other Financing Sources:					
Capital Leases	125,132	348,848	223,716	179%	
Transfers-In	260,620,930	627,638,879	367,017,949	141%	
Total Other Financing Sources	260,746,062	627,987,727	367,241,665	141%	
Total Revenue & Other Financing Sources	\$ 2,865,303,609	\$ 3,201,767,881	\$ 336,464,272	12%	

The significant increase in transfers-in is attributable to the inclusion of the Common School Permanent Land Fund Holding Account. This is a fund created by the Legislature to sweep a calculated amount from the School Facilities Operating Fund at the end of the 2011-2012 biennium. This holding account is being reported in the General Fund for financial reporting purposes under GASB 54. The amount being transferred in is \$495 million of the \$627.6 million being reported.

As shown in the table following, overall Expenditures increased by two percent or \$35.1 million, while Other Financing Uses decreased by 72 percent or \$199.1 million in fiscal year 2012. The change in other financing sources (transfers out) is a function of implementing GASB 54. GASB 54 required the State for financial reporting purposes to include the budget reserve fund in the general fund. This is because the budget reserve fund no longer qualified as a special revenue fund. The transfers previously reported as transfers-out from the general fund to the budget reserve fund have been netted to zero as part of the combining process.

General Fund Expenditures and Other Financing Sources for Fiscal Year Ended June 30, 2012					
	FY11	FY12	Increase (Decrease)	Percent Change

Capital Asset and Debt Administration

Capital Assets. The State of Wyoming's investment in capital assets, net of related debt, for its governmental and business type activities as of June 30, 2012, amounts to \$914.9 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and systems improvements, machinery and equipment, intangibles, and park facilities.

Major capital asset events during the current fiscal year included the following:

- Completion of Game and Fish Tensleep Hatchery renovations - \$4 million.
- Purchase of building and property for state use - \$1.9 million.
- Completion of Liquor Commission Warehouse and Weights Measures lab renovations - \$7.1 million.
- Completion of Keyhole Water System for the Department of Parks and Cultural Resources - \$1.9 million.
- Completion of Military Camp Guernsey North Training Range - \$3.1 million.
- Completion of land improvement on Military Camp Guernsey Airfield - \$7.6 million.
- Internally Generated Software Projects for various agencies - \$36.7 million.

More detailed information about the State's incomplete construction in progress is presented in Note 13 to the basic financial statements, on page 132.

At the end of the fiscal year 2012, the State had invested \$951.3 million, net of accumulated depreciation, in a broad range of capital assets (see the table below). The accumulated depreciation as of June 30, 2012, totaled \$464.4 million.

Additional information on the State of Wyoming's capital assets can be found in Note 5 on pages 92-95 of this report.

The State's Department of Transportation (DOT), a component unit of the State, is responsible for the majority of the infrastructure (consisting of roadways and bridges). As allowed by GASB Statement No. 34, DOT has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, DOT expenses certain maintenance and preservation costs and does not report depreciation expense. More detailed information about the DOT capital assets and the reporting criteria are available in the Wyoming Department of Transportation Component Unit Financial and Compliance Report as of September 30, 2011 and on pages 129 of this report. DOT's policy is to maintain 83% of its national highway system bridges and 80% of its non-national highway system bridges in acceptable condition. In 2011, 93.9% of all NHS bridges were rated acceptable or above and 93.3% of non NHS bridges were rated acceptable or above. DOT's policy is to maintain its national highway system streets at an average rating of 3.25 and its non-national highway

system streets at 3.00, on a 0-5 point scale. In 2011, the National Highway System streets rated 3.52 and the non-national highway system rated 3.20.

Bonded debt

The state did not issue any new debt for fiscal year 2012 either as new or as refunding of old debt.

At the end of the current fiscal year, the State of Wyoming had total bonded debt outstanding of \$33.3 million. This amount represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

The State of Wyoming has a debt limitation for revenue bonds relating to capital construction in the amount of \$105 million, which is significantly in excess of the outstanding revenue bond debt.

Additional information on the State of Wyoming's long-term debt can be found in Note 8 on pages 98-115 of this report.

In October 2012, the State Land and Investment Board approved a bond refunding of the 2005 Capital Facility Refunding Revenue Bonds. The bonds were issued on December 4, 2012. The amount of Refunded Bonds totaled \$16,905,000 with an estimated present value savings of \$3.1 million over the bond duration, which ends in October 2024.

Economic Outlook and Condition

National Economy

Economic growth is slowing substantially in the U.S., China, and most emerging markets. The Euro zone has staved off a financial crisis, but remains mired in an austerity-driven recession. The volume of worldwide trade is barely growing at all. Inventories have grown considerably, accompanied by weak business confidence and sales. The recent active monetary policies in the U.S. and Europe should provide help to the global economy. Europe's turmoil and the emerging world's economic slowdown are hurting the U.S. economy. The recovery, which began just three years ago, remains among the weakest in 50 years. Real GDP grew at a merely 1.3% annualized rate in the second quarter of 2012, down from a growth rate of 2.0% in the first quarter. This slow growth rate was too slow to meaningfully reduce the unemployment rate to below 8 percent. Though U.S. businesses are in excellent financial health, becoming competitive and profitable, they are still reluctant to hire and invest actively while waiting for the unraveling of the European debt crisis, the political battle on fiscal policy, and the statutory debt ceiling. Consumers have cut down on debt, but are not spending aggressively without strong job growth. (Source: Dr. Wenlin Liu, Economics and Analysis Division-Summary: 2Q2012)

Wyoming's Economy

It is no secret that Wyoming has the least diversified economy of the 50 states. Wyoming is dependent on the revenues and the employment from the extraction industry. This revenue drives the major state revenues of mineral severance taxes, interest from the Permanent Mineral Trust Fund, mining employment drives related sales and use tax collections, a gross products tax levied on mineral production and federal mineral royalties. These revenues continue to play an ever increasing role in the funding of general operations of state government, for city, town and county government for primary and secondary education and for school and general capital construction.

After a short, but severe recession, Wyoming's economy has turned around since the beginning of 2010, thanks to the robust rebound of the energy industry. The state's employment growth was faster than the U.S. average in 2010, but has been at a similar pace since the beginning of 2011. For the second quarter of 2012, Wyoming's recovery was still on track albeit at a slower pace. Compared to the second quarter of 2011, employment grew by 1,900 jobs, or 0.7 percent, weaker than the previous quarter. The unemployment rate dropped slightly to 5.3 percent in the second quarter, while it also fell to 8.2 percent in the U.S. Most industries displayed job growth during the period. Wholesale trade demonstrated the fastest increase, at 4.5 percent, while the retail trade and leisure & hospitality sectors added at least 600 jobs, respectively, between the second quarter of 2011 and the second quarter of 2012. Wyoming's pivotal industry, mining, experienced a slowdown in job creation, grew 1.7 percent. The construction, transportation & utilities, and financial activities sectors suffered annual employment declines during the second quarter. Wyoming's economic recovery continued at a moderate pace, as lower prices for coal and natural gas put the brakes on the state's energy extraction industry. However, natural gas prices have rebounded modestly after bottoming

in April, and drillers may have responded in recent months with renewed exploration. The spot price for Powder River Basin coal is also showing some signs of recovery. (Source: Dr. Wenlin Liu, Economics and Analysis Division-*Summary: 2Q2012*)

Request for information

This financial report is designed to provide a general overview of the State of Wyoming's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the State of Wyoming, State Auditor's Office, State Capitol, Room 114, Cheyenne WY, 82002 or see at <http://sao.state.wy.us/>.

Reconciliation of the Balance Sheet to the Statement of Net Assets

June 30, 2012

Fund balances—total governmental funds	\$ 14,116,800,326
Amounts reported for <i>governmental activities</i> in the statement of net assets are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	921,721,754
Other assets are not available to pay for current-period expenditures and therefore are deferred in the funds.	18,927,177
Internal service funds are used by management to charge the costs of certain activities, such as insurance, telecommunications, technology and transportation to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net assets.	90,405,054
Some liabilities are not due and payable in the current period and therefore are not reported in the fund.	<u>(230,474,509)</u>
Net assets of governmental activities	<u>\$ 14,917,379,802</u>

Reconciliation of the Statement of Revenues, Expenditures & Changes in Fund Balances to the Statement of Activities

For the Year Ended June 30, 2012

Net change in fund balances—total governmental funds	\$	948,334,826
Amounts reported for <i>governmental activities</i> in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays \$74,680,884 exceeded change in net book value on disposal of capital assets (\$3,952,169) and depreciation (\$38,462,880) in the current period.		32,265,835
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		246,383
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		2,645,454
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		4,433,421
Internal service funds are used by management to charge the costs of certain activities, such as insurance, telecommunications, technology and transportation to individual funds. The net revenue (expense) of internal service funds is included in governmental activities in the Statement of Activities.		<u>(29,367,408)</u>
Change in net assets of governmental activities	\$	<u>958,558,511</u>

Notes to the Basic Financial Statements

For the Year Ended June 30, 2012

NOTE 1 Summary of Significant Accounting Policies

A. Reporting entity

The basic financial statements include all funds of the primary government, which is the State, as well as the component units determined to be included in the State's financial reporting entity. The decision to include a potential component unit in the State's reporting entity is based on several criteria, including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief review of certain entities included in the State's reporting entity.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, entities with which the State has significant operational or financial relationships such as boards, commissions and authorities are considered component units. Component units are either discretely presented or blended. Discrete presentation entails reporting component unit financial data in columns separate from the financial data of the primary government (the State). Blending requires the component unit's balances and transactions be reported with the balances and transactions of the State.

Discretely presented component units are reported in separate columns in the government-wide statements to reflect that they are legally separate from the State.

The Governor appoints the governing boards with the advice and consent of the senate, for all discretely presented component units. The State has an ability to impose its will on all discretely presented component units. Except for the Wyoming Community Development Authority, all other component units would be included under the provisions of fiscal dependency due to the level of budget provided by the State.

The following organizations comprise the State's discretely presented component units:

The Wyoming Department of Transportation administers the State's construction and maintenance programs for roads and bridges and is legally separate from the State. The Governor appoints a voting majority of the DOT's Commission and is able to remove appointed board members at will. The financial information included for DOT relates to its fiscal year ended September 30, 2011.

The Wyoming Community Development Authority is an independent authority that provides low interest financing for Wyoming home buyers. WCDA issues negotiable notes and bonds to fulfill its purpose. Neither the faith and credit nor taxing power of the State may be pledged for the amounts so issued. The State appoints a majority of WCDA board members and authorizes WCDA bond issuances; thereby, WCDA is financially accountable to the State.

The Wyoming Business Council is an independent authority that provides economic development and growth for the State. The State appoints all of the directors and provides a material subsidy to WBC.

The University of Wyoming is a public land grant research university serving as a statewide resource of higher education. The University of Wyoming is governed by a board made up of twelve members appointed by the Governor with the consent of the Senate and receives significant support from the State.

The Wyoming Pipeline Authority is an independent authority created to plan, finance, construct, develop, acquire, maintain, and operate a pipeline system or systems within or outside of the State of Wyoming. The governing board is appointed by the Governor with the consent of the Senate. The Authority is dependent upon the State to finance its operating costs.

The Wyoming Infrastructure Authority is an independent authority created to diversify and expand the State's economy through improvements in Wyoming's electric transmission infrastructure and to facilitate the consumption of Wyoming energy. The Authority will participate in planning, financing, constructing, developing, acquiring, maintaining and operating electric transmission facilities and their supporting infrastructure. The State appoints the five-member board and now provides funding through general fund appropriations.

Cheyenne, WY 82001

B. Basis of Presentation

The accompanying financial statements of the State of Wyoming, (the State), have been prepared in conformity with generally accepted accounting principles (GAAP) applicable to governmental organizations in the United States. Such principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the standard-setting body for establishing governmental accounting and financial reporting principles in the United States of America.

The financial statements have been prepared primarily from accounts and records maintained by the State Auditor. Financial data for the Wyoming Retirement System (WRS), Wyoming Department of Transportation (DOT), University of Wyoming (University) including its component unit, the University of Wyoming Foundation (Foundation), Wyoming Community Development Authority (WCDA), Wyoming Business Council (WBC), Wyoming Pipeline Authority (WPA), and the Wyoming Infrastructure Authority (WIA) have been derived from reports prepared by those organizations, based on independent accounting systems maintained by them.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The **Statement of Net Assets** presents the reporting entities' non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in four categories:

- **Invested in capital assets, net of related debt** consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- **Restricted net assets – expendable** include resources in which the State is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.
- **Restricted net assets – nonexpendable** consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.
- **Unrestricted net assets** consist of net assets that do not meet the definition of the three preceding categories. Unrestricted net assets often are designated, to indicate that management does not consider them to be available for general operations. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

The **Statement of Activities** demonstrates the degree, to which the direct expenses, of a given function, or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable within a specific function or segment. The cost allocation by internal service is included in the direct expenses. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

Restricted fund balance generally refers to whether the State could be forced by external entities, to use resources within the fund for a specific purpose.

Committed fund balance generally refers to the commitment of resources by the State's highest decision making authority. For the State of Wyoming that is considered to be the Legislature, which by statute, creates a fund and authorizes the collection of certain revenues for the use of the fund. It would require formal action by the Legislature to change the commitment of resources.

Assigned fund balance refers to that portion of fund balance allocated by the persons responsible for the operation of the fund's activities and delegated the authority to assign amounts to be used for specific purposes.

Unassigned fund balance refers to that portion of a fund balance that is available for any purpose. The General Fund is the only governmental fund to have a positive unassigned fund balance.

D. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Revenues are classified by program and general revenues. Program revenues include 1) charges to customers or applicants for goods and services, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues consist of all revenues not considered program revenue. All taxes are considered general revenues. Certain indirect costs have been allocated to functional activities.

As permitted by GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Funds that use Proprietary Fund Accounting*, the State has elected not to adopt Financial Accounting Standards Board (FASB) statements issued after November 30, 1989, unless the GASB specifically adopts such FASB statements.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60-75 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt services expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Sales and use tax, mineral severance tax, federal mineral royalty tax, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. The statutory basis for recognizing mineral severance taxes for apportionment purposes differs from the basis used to recognize revenue in the accompanying financial statements. All other revenue items are considered to be measurable and available only when cash is received by the State.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of operations.

The State uses funds and component units to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain functions or activities.

Governmental Funds:

The State reports the following major governmental funds:

- a. General Fund as the primary operating fund of the State, accounts for all financial resources except those required to be accounted for in another fund.
- b. Foundation Program Fund accounts for federal mineral royalties, mineral severance tax and other revenue sources, which are restricted for payments to school districts. The other revenue sources include state levied 12 mill property tax and school district recapture amounts.
- c. Common School Land Fund accounts for land donated to the State and income derived from those lands. The revenue earned by this fund is restricted for the purpose of establishing, maintaining, and supporting school facilities.
- d. Permanent Mineral Trust Fund accounts for a portion of severance tax. The interest earned by this fund is restricted for distribution to specific funds.
- e. American Recovery and Reinvestment Fund accounts for the funds that were obtained through the American Recovery & Reinvestment Act.

Enterprise Funds account for operations (a) that are financed and operated in a manner similar to private enterprise, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the State has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Revenue and expenses are classified as operating and non-operating. Operating revenues and expenses generally result from providing goods and services. All other revenues and expenses are reported as non-operating.

The State reports the following major enterprise fund:

- a. Workers' Compensation Insurance Fund accounts for activities of the Wyoming Workers' Compensation Insurance Fund that provides workers' compensation insurance to government and private businesses.

Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State, or to other governmental units, on a cost-reimbursement basis. The Internal Service Funds include the Computer Technology Fund, Motor Vehicle Fund, Central Duplicating Fund, Group Insurance Fund, Wyoming Surplus Property Fund, Personnel/Training Fund and the State Self Insurance Fund.

Fiduciary Funds:

- a. Pension Trust Funds account for the assets held by WRS, as trustee, for nine retirement systems. The financial information included for WRS relates to its fiscal year ended December 31, 2011. WRS is legally separate from the State. However, the State appoints a voting majority of the WRS board, sets the contribution requirements and has a fiduciary responsibility for WRS assets.
- b. Private-Purpose Trust Fund accounts for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments (i.e., unclaimed property/escheat property).
- c. Investment Trust Fund accounts for the assets belonging to Wyoming municipalities invested by the State Treasurer (i.e., WYO-Star).
- d. Agency Funds account for assets that the State holds on behalf of others as their agent.

E. Assets, liabilities, and net assets or equity

1. **Deposits and investments.** Current statutes require all cash and investments of State agencies other than those of the University and the WRS to be pooled and invested by the State Treasurer's Office. The State Treasurer maintains different cash and investment pools for the Common School Land Fund, Permanent Mineral Trust Fund, Workers' Compensation Insurance Fund, Wyoming Tobacco Settlement Fund, and Water Fund and one cash and investment pool for the remainder of the fund types. Earnings from the cash and investment pools are credited monthly, utilizing a formula based on the average daily balance, to the applicable accounts and funds. The majority of the funds maintained by the State are not legally allowed to earn interest. The interest earned by these funds is credited directly to the General Fund. The State reports all investments at fair value, except for investments in participating interest-earning investment contracts having a remaining maturity at time of purchase of one year or less. Participating interest earning investment contracts having a remaining maturity at time of purchase of one year or less are recorded at amortized cost. For the purpose of the statement of cash flows, the State considers all assets held in the cash and investment pool to be cash equivalents because the investments are not identifiable to specific funds and the assets can be withdrawn at any time, similar to a demand deposit account.

2. **Receivables and Payables.**

- a. **Due to Due From.** During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "Due from Other Funds" or "Due to Other Funds" in the balance sheet. See Note 6.
- b. **Property Taxes.** The counties in the State levy property taxes in the first half of August and submit a portion of the tax levy to the State. The tax levy is divided into two billings: the first billing is mailed in the first half of September, generally September 1; the second billing is generally mailed on March 1. The billings are considered due upon receipt by the taxpayer. The taxpayer has the option of paying the full amount on December 31. Property taxes are assessed as of January 1 of each year for that year.

- c. **Advances to other funds and component units.** Inter-fund loans receivable are reported as advances and are offset equally by a fund balance reserve account that indicates they do not constitute expendable available financial resources and therefore, are not available for appropriation.
3. **Inventories and Prepays.** Inventories and prepays are accounted for using the purchases method. Inventories are reported in the proprietary funds using the lower of average cost or market. In the governmental fund types, inventories are accounted for at cost or average cost on a first-in, first-out basis. However, as inventories on hand at June 30, 2012 are significant, they have been recorded as assets in the governmental funds. Inventories are reported by the University at the lower of cost (first-in, first-out) or market except for livestock inventory that is reported at net realizable value. The Department of Transportation's inventories are valued at average cost, less an allowance for obsolete items and charged to expenditures when consumed.
4. **Securities lending collateral.** Securities on loan for cash collateral are reported in the Statement of Net Assets. Liabilities resulting from the security lending transactions are also reported. Additional disclosures describing security-lending transactions are provided in Note 3.
5. **Capital assets.** Capital assets, which include property, plant and equipment, and infrastructure assets are reported in the governmental or business-type activities columns in the government-wide financial statements (Statement of Net Assets). Capital assets are stated at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are stated at their estimated fair market value on the date received. The State currently does not capitalize interest costs incurred during construction, except on business-type activities. Capital assets of the business-type activities are capitalized in the fund in which they are utilized.
- a. **Property, plant and equipment.** The State capitalizes all buildings, land and other capital assets that have a value or cost equal to or greater than the capitalization threshold for its asset type at the date of acquisition and has a useful life that extends beyond a single reporting period. The State's capital assets are depreciated over their useful lives using the straight-line method. Capital asset thresholds and estimated useful lives are as follows:

Asset Type	Estimated Life	Capitalization Threshold
Buildings	5-40 years	\$ 50,000
Improvements	5-25 years	50,000
Land & Easements	N/A	Capitalize All
Equipment	3 - 17 years	5,000
Vehicles	3 - 7 years	5,000
Infrastructure	40 years	1,500,000
Works of Art/Historical Treasures	N/A	Exemption
Intangible - depreciable	3-15 years	5,000
Intangible - non depreciable	Indefinite	5,000

- b. **Intangible Assets.** The State implemented GASB 51 – *Accounting and Financial Reporting for Intangible Assets* effective 7/1/09. Examples of intangible assets include software, software licenses, internally generated software, land use rights, easements, patents, and trademarks.
- c. **Infrastructure.** Infrastructure assets can include roads, bridges, lighting systems, drainage systems and flood control systems, and rest areas. The primary government will have infrastructure in the State Parks and Cultural Resources Division and the Department of Game and Fish and may report infrastructure on a network and subsystem basis. The Department of Transportation (DOT) reports most of the infrastructure assets for the State. DOT's capitalization level for infrastructure is \$250,000. In accordance with the alternative approach to depreciating infrastructure assets permitted by GASB Statement No. 34, DOT has elected to expense all infrastructure related expenditures, except for those expenditures related to additions to or improvement of infrastructure assets, in lieu of depreciating infrastructure assets. In order to utilize the alternative system, DOT must maintain an asset management system which will assess asset condition and must maintain infrastructure assets at the condition level established by the DOT. Infrastructure acquired prior to fiscal years ending after June 30, 1980 are reported.

- d. **Art and the Wyoming State Museum Collection.** The State has not capitalized works of art, historical treasures and artifacts contained in the collections of the Wyoming State Museum. The collection is held for public exhibition, education, or research in furtherance of public service, protected, kept unencumbered, cared for, preserved, and subject to an organizational policy that requires the proceeds from sales of collection items to be used to maintain the existing collection.
6. **Compensated absences.** Employees of the different State agencies earn vacation leave, based on their number of years of service, and sick leave of one day per month. Employees are vested and allowed to accumulate up to 384 hours of vacation leave. In addition, employees are paid for one half of accumulated sick leave upon termination of employment with a maximum payment for one half (½) of 960 hours. The amount of vested accumulated leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a liability of the governmental funds in the government fund financial statements. Amounts of vested accumulated leave not expected to be liquidated with expendable available financial resources are not reported by the governmental funds in the government fund financial statements. All vested accumulated leave is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements.
7. **Deferred revenue.** The State reports deferred revenue on its government-wide statements and its fund financial statements. At the fund level, deferred revenue is recognized either as unearned revenue or unavailable revenue. Unearned revenue arises when resources are received by the State before it has legal claim to them, as when grant funds are received prior to the occurrence of qualified expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the State has a legal claim to the resources, the liability for deferred revenue is removed and the revenue is recognized. Unavailable revenue arises when revenue does not meet the 'susceptibility to accrual' test, which states the revenue must be both measurable and available to finance expenditures of the current fiscal period, including property tax receivable assessed but not levied.
8. **Long-term obligations.** In the government-wide statements and proprietary fund financial statements, long-term obligations are reported as liabilities. Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.
9. **Fund equity.** The State implemented Governmental Accounting Standards Board Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions in 2011. This statement created a new hierarchy for the equity section of governmental funds. This hierarchy is further discussed in Section G of this note.
10. **Inter-fund transactions.** Inter-fund services provided and used are accounted for as revenue, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the fund that is reimbursed. All other inter-fund transactions are reported as transfers. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide statements. Inter-fund receivables and payables have been eliminated from the Statement of Net Assets, except for the residual amounts due between governmental and business-type activities. While the effects of inter-fund activity have been eliminated, it should be noted that inter-fund services provided and used are not eliminated in the process of consolidation. See further information in Note 7.

F. Reconciliation of government-wide and fund financial statements

- a. Explanation of certain differences between the governmental fund Balance Sheet and the government-wide Statement of Net Assets.

The Reconciliation of the Balance Sheet to the Statement of Net Assets includes an item that explains, "Some liabilities are not due and payable in the current period and therefore are not reported in the fund." The details of this \$(230,474,509) difference are shown here:

Bonds Payable	\$ (33,280,000)
Compensated Absences	(54,624,238)
OPEB Obligation	(57,444,987)
Deferred Interest and Interest Payable	(410,838)
Capital Leases	(454,966)
LAUST Liability	(76,242,443)
Benefits Payable	(8,017,037)
Net adjustment to reduce fund balance-total governmental funds to arrive at net assets-governmental activities	<u>\$ (230,474,509)</u>

- b. Explanation of certain differences between the Statement of Revenue, Expenditures and Changes in Fund Balance and the government-wide Statement of Activities.

The Reconciliation of the Statement of Revenues, Expenditures & Changes in the Fund Balance to the Statement of Activities includes an item that explains, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The details of this \$4,433,421 difference are shown here:

Compensated Absences	\$ 560,101
Deferred Bond Interest Payable	1,758,587
Other	201,382
Benefits Payable	(176,047)
OPEB Obligation	(8,560,223)
Laust Liability	10,915,073
Capital Leases	(265,452)
Net adjustment to decrease net changes in fund balances-total governmental funds to arrive at change in net assets of governmental activities	<u>\$ 4,433,421</u>

G. Beginning Fund Balance/Net Asset Restatements

- a. GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions, which clarified the definition of special revenue funds and provided for a new fund balance classification structure was adopted in 2011. Subsequent to the adoption, the State became aware of additional fund reclassifications that were necessary to comply with GASB 54.

General Fund beginning fund balance was restated by \$23,159,344, of this restatement \$14.8 million is attributable to GASB 54 adjustments, the remaining balance of \$8.3 million is attributable to Medicaid ARRA expenditures that were not moved from the General Fund by fiscal year end. Non major special revenue fund beginning fund balances were restated by \$(14,519,998), all attributable to GASB 54.

Also, the Statement of Revenues, Expenses, and Changes in Fund Net Assets for Non-Major Internal Service Funds was restated by a net decrease of \$(323,699). This decrease is a result of a fund being previously classified as an intergovernmental fund, but not meeting the conditions for reporting as an intergovernmental fund.

The Statement of Activities reflects a restatement of beginning Net Assets:

The governmental activities beginning net assets have been restated by a net increase of \$27,656,140. Of this amount \$19.3 million is attributable to previously unrecorded capital assets as follows:

\$2.6 million is attributable to previously unrecorded internally developed software due to GASB 51 – Accounting and Financial Reporting for Intangible Assets and \$.1 million for unrecorded construction in progress. For state owned land previously unrecorded, a net adjustment of \$16.6 million was made which included \$33 million for land previously unrecorded and a \$16.4 decrease for restating the carrying value of previously recorded land.

The remaining balance of \$8.3 million is attributable to Medicaid expenditure adjustment discussed above.

Wyoming Department of Transportation – Prior Period Adjustment

The Department changed the way it identifies the liability for contractor progress payments at year end. This allows the Department to better match the liability to the time in which the work occurred. The effect of this change is to reduce the previous year end fund balances and net assets by \$8,142,161.

NOTE 2 Funds and Component Units

The following table lists all of the funds and component units reflected in this financial report:

PRIMARY GOVERNMENT:	
<u>MAJOR FUNDS</u>	
<u>Governmental Funds:</u> General Fund	<u>Proprietary Funds:</u> <u>Enterprise Funds:</u> Workers' Compensation Insurance Fund
<u>Special Revenue Funds:</u> Foundation Program Fund American Recovery & Reinvestment Act	
<u>Permanent Funds:</u> Common School Land Fund Permanent Mineral Trust Fund	
<u>NON-MAJOR FUNDS</u>	
<u>Governmental Funds:</u> <u>Special Revenue Funds:</u> Environmental Quality Fund - Restricted Environmental Quality Fund - Committed Board & Regulatory Fund Game and Fish Fund Special Projects Fund - Committed Special Projects Fund - Restricted Community College Grants Fund Water Fund Workforce Development Fund Mineral Royalties Fund Government Royalty Distributions Fund Farm Loan Loss Reserve Fund State Revolving Fund Miners Hospital Land Fund Omnibus Land Fund Donations and Bequests Fund Wyoming Wildlife Fund Endowment Fund Retirees Prefunded Health Insurance Fund Oil Surcharge Conservation Fund State Land Fund	<u>Proprietary Funds:</u> <u>Enterprise Funds:</u> Liquor Commission Fund Canteen Fund Subsidence Insurance Fund Honor Farm Agricultural Sales Fund Wyoming Health Insurance Fund Unemployment Insurance Fund
	<u>Internal Service Funds:</u> Computer Technology Fund Motor Vehicle Fund Central Mail Duplicating Fund Group Insurance Fund Wyoming Surplus Property Fund Personnel Training Fund State Self Insurance Fund
	<u>Fiduciary Funds</u> <u>Private-Purpose Trust Funds:</u> Unclaimed Property Fund
	<u>Investment Trust Fund:</u> WYO-Star
<u>Permanent Funds:</u> Wyoming Wildlife Trust Fund Montgomery Home for the Blind Fund Wyoming Tobacco Settlement Fund Wyoming Military Assistance Trust Fund Wyoming Cultural Trust Fund Sundry Trust Funds Wyoming Excellence in Higher Education Endowment Funds	<u>Pension Trust Funds:</u> Public Employees Pension Plan State Patrol , Game and Fish Warden, and Criminal Investigator Retirement Plan Volunteer Firemen's Pension Plan Paid Firemen's Pension Plans (Plans A & B) Wyoming Judicial Pension Plan Law Enforcement Pension Plan Volunteer Emergency Medical Technician Pension Plan Wyoming Deferred Contribution 457 Plan
<u>Agency Funds:</u> Treasurer's Agency Fund Funds Held for Individuals Department of Revenue Fund Environmental Cash Bond Fund Other Agency Funds	
<u>Capital Projects Fund</u>	<u>Debt Service Fund</u>
<u>DISCRETELY PRESENTED COMPONENT UNITS</u>	
<u>Governmental</u> <u>Component Units:</u> Department of Transportation Wyoming Business Council	<u>Proprietary</u> <u>Component Units:</u> University of Wyoming Wyoming Community Development Authority Wyoming Pipeline Authority Wyoming Infrastructure Authority

NOTE 3 Deposits and Investments

GASB Statement No. 40 *Deposit and Investment Risk Disclosures-An Amendment of GASB Statement No. 3* addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk and foreign currency risk. As an element of interest rate risk, disclosure is required of investments that have fair values that are highly sensitive to changes in interest rates. GASB 40 also requires disclosure of formal policies related to deposits and investment risks.

In addition, GASB Statement No. 14 *The Financial Reporting Entity* requires separate deposit and investment risk information to be provided for each of the State's component units. This note includes separate deposit and investment disclosure information for the University of Wyoming, Wyoming Retirement System, Wyoming Business Council, Wyoming Community Development Authority, Wyoming Pipeline Authority, and the Wyoming Infrastructure Authority. The University of Wyoming, Wyoming Retirement System and Wyoming Department of Transportation, however, have cash and investments, some of which are held in the State cash and investment pool at June 30, 2012. These investments are included in the respective risk disclosures for the primary government.

MASTER INVESTMENT POLICY

The State Loan and Investment Board (SLIB), consists of the five elected officials – the Governor, Secretary of State, State Auditor, State Treasurer and State Superintendent of Public Instruction. The SLIB is responsible for fiduciary oversight of the state's non-pension investment portfolio. The SLIB establishes the Master Investment Policy and Sub-Policies (Policy). The SLIB reviews the Policy at least annually by law, and updates the Policy throughout the year as needed.

The Policy sets forth roles and responsibilities, acceptable transactions, and performance expectations of the state portfolio. The Policy is aligned with state statutes governing state investments.

Those managing the State's investment program are governed in part by the prudent investor rule contained in the State's Uniform Prudent Investor Advisor Act. This rule states "Trustee shall invest and manage trust assets as a prudent investor would, by considering the purposes, terms, distribution requirements and other circumstances of the trust."

The Policy restates the prudent investor principle that "...investments or groups of investments shall not be evaluated in isolation but in the context of the entire investment portfolio and as part of an overall investment strategy of the trust or fund from which the investment is derived, consistent with the policies for such trust or fund established ... by the Board."

The Policy also allows a trustee to delegate investment and management functions that a prudent trustee of comparable skills could properly delegate under the circumstances. The Policy further states the trustee shall exercise reasonable care, skill and caution in:

- a) Selecting an agent;
- b) Establishing the scope and terms of the delegation, consistent with the purposes and terms of the trust; and
- c) Periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the terms of the delegation.

It is the stated policy of the Board "to invest public funds of the State of Wyoming (the "State") in a manner that strives for maximum safety, provides adequate liquidity to meet all operating requirements, and achieves the highest possible investment return consistent with the primary objectives of safety and liquidity."

The current Wyoming State portfolio consists of the Permanent Mineral Trust Fund, the Permanent Land Fund, the Common School Permanent Land Fund, the University Permanent Land Fund, the Hathaway Scholarship Fund, the Higher Education Endowment Fund, the Workers' Compensation Fund, the Tobacco Settlement Trust Fund and the State Agency Pool. The State of Wyoming also invests the Wyoming State Treasurer's Asset Reserve (WYO-STAR), which is Wyoming's local government investment pool. All available funds are invested with the following objectives and priorities:

- a) Safety of principal. Investments are undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio;
- b) Liquidity requirements of anticipated and unanticipated expenditures;
- c) Yield;
- d) Recognition of differing objectives and needs of various fund portfolios;

- e) Conformance with State law and other pertinent legal restrictions;
- f) Maximization of the total rate of return on investment consistent with the foregoing objectives;
- g) Diversification by asset type, security and investment manager in order to smooth the volatility of quarterly returns.

These objectives and priorities apply to the funds as a whole. Specific objectives and priorities are further delineated in each fund's sub-policy. Specific objectives and priorities for individual asset managers are delineated by mandate.

At June 30, 2012 the State had external investment managers for equities, fixed income, real estate, private equity, absolute return, overlay and cash management strategies.

During fiscal year 2012, the State continued to maintain diversification through asset allocation. State statutes allow monies in the permanent funds to be invested in common stocks not to exceed fifty-five percent (55%). The following schedule reflects Fiscal Year 2012 weightings:

<u>Permanent Funds</u>	<u>Fixed Income and cash equivalents</u>	<u>Equities</u>
Permanent Mineral Trust Fund	50.0%	50.0%
Common School Land Fund	50.0%	50.0%
Permanent Lands Fund Pool	52.2%	47.8%
University Permanent Land Fund Pool	49.1%	50.9%
Hathaway Scholarship Endowment Fund	59.8%	40.2%
Higher Education Endowment Fund	58.8%	41.2%

State law allows the Workers' Compensation Fund an equity allocation of up to 45 percent. The actual percent is set by the direction of the State Department of Workforce Services; it is currently 30 percent.

<u>Enterprise Fund</u>	<u>Fixed Income, cash and cash equivalents</u>	<u>Equities</u>
Workers' Compensation Fund	71.6%	28.4%

The state also invests the following:

	<u>Fixed Income and cash equivalents</u>
State Agency Pool	100%
Tobacco Settlement Trust Fund	100%

The long term (10 plus years) total return expectation is just under 7% for a portfolio with a 50/50 mix of fixed income and cash and equity. The long term total return expectation for portfolios containing just fixed income and cash is 5%.

In May 2009, the State Treasurer adopted an interpretative policy effective July 1, 2008, for accounting purposes whereby earnings of interest and dividends would be treated as ordinary income and distributed accordingly. The policy also provides that capital losses will be made good from future capital gains and not ordinary income.

For financial reporting purposes, the State Treasurer's policy of deferring the distribution of realized losses is reversed and has no financial impact. Accounting adjustments are made to the State's financial statements such that recognized losses are distributed as if they had been distributed as part of investment income.

Risk exposures for the different funds within the managed fund classifications including the State's managed fiduciary Unclaimed Property Fund are not significantly different than the deposit and investment risks of the primary government. As each risk element is presented, disclosure will specify whether the Policy formally provides for management of the particular risk being discussed.

A. Custodial Credit Risk-Deposits

Deposits that have exposure to custodial credit risk are those which are not covered by depository insurance and are either uncollateralized, or collateralized with securities held by the pledging financial institution or held by pledging financial institution but not in the depositor-government's name.

STATE OF WYOMING

Wyoming Statutes require any deposit not so insured shall be secured by depository bond or approved collateral securities as required by law.

As of June 30, 2012 the State had no deposits exposed to custodial credit risk

Restricted Cash

At June 30, 2012 the State of Wyoming had restricted cash of \$637,533. This restricted cash represents the amount required for University of Wyoming Bond Coverage.

Custodial Credit Risk-Agency Funds

Deposits not collateralized and not so required by state law include those funds held on behalf of others. At year-end, \$7.1 million was held in demand and savings bank accounts and \$30.4 million was held in bank certificates of deposit. These funds are reported in the agency funds.

UNIVERSITY OF WYOMING—Investment Policy

University investment policy specifies that internally invested funds may be invested in a combination of fixed-income, minimal risk instruments and money market funds. Investment goals for internally invested funds are designed to achieve a return to provide income, protect assets from risk and maintain liquidity to meet spending requirements. Investments are limited to collateralized bank certificates of deposit, money market funds or federally guaranteed or insured securities that mature in less than one year. Custodial services are utilized to safeguard the assets and provide monthly reports.

It is the policy of the University to invest endowment funds under a memorandum of agreement with the University of Wyoming Foundation. Investment goals for these funds are designed to achieve donor objectives, protect assets from excessive risk, provide program income and growth of the endowment and preserve the purchasing power of both the principal and the income. The Foundation Board of Directors reviews and establishes limits on market segment investment concentration, maximum investment in any company, and maximum share of portfolio per manager.

The University oversees the investment of funds for the Advance Payment of Higher Education Costs (APHEC) program through the use of an external investment firm selected by the Board of Trustees. The investment goal for APHEC is the same as for the endowments. The University also has investments managed by the State of Wyoming Treasurer's Office. These investments are managed under the State of Wyoming Master Investment Policy.

The University has funds on deposit with the Wyoming State Treasurer's pooled investments.

UNIVERSITY OF WYOMING—Custodial Credit Risk-Deposits

At June 30, 2012, the carrying amount of the University's demand deposits in financial institutions was \$50,112,323 and the bank balance was \$55,950,452. The demand deposits were fully insured with a combination of FDIC insurance and pledged collateral held in the name of the University. All deposits were held by a qualified depository as outlined in the State statutes.

CUSTODIAL CREDIT RISK

At June 30, 2012, the University had \$10,603,797 on deposit with the Foundation. Detailed information on the Foundation's pooled cash and investments is available from the Foundation.

At June 30, 2012 the University had \$252,752 restricted for the Reclamation Ecology Endowment.

WYOMING RETIREMENT SYSTEM, WYOMING BUSINESS COUNCIL, WYOMING COMMUNITY DEVELOPMENT AUTHORITY, WYOMING PIPELINE AUTHORITY, WYOMING INFRASTRUCTURE AUTHORITY, AND WYOMING DEPARTMENT OF TRANSPORTATION--Custodial credit risk

As of December 31, 2011 for the Wyoming Retirement System, September 30, 2011 for Wyoming Department of Transportation and June 30, 2012 for the other component units; none had deposits exposed to custodial credit risk.

B. Investment Risk Categories

GASB Statement 40 requires presentation to discuss those risks associated with investment activity including credit risk, custodial credit risk, concentration of credit risk, interest rate risk and foreign currency risk.

Credit Risk is the risk the issuer will not fulfill its obligation to the holder of the investment. The minimum credit ratings for investment debt securities as provided in the State's Master Investment Policy for fixed income managers are A1/P1 or equivalent for commercial paper, B for long-term corporate debt, BBB for mortgage fixed income securities, AA for Mortgage-backed securities, and AA for Asset-backed securities. Either Standard and Poor's, Fitch or Moody's ratings are acceptable. Where the issue is split-rated, the lower of the ratings will apply. N/R indicates that the investment is not rated. Legislatively authorized investments represent those investments the Treasurer has been directed to invest in by the Legislature and/or approved by the Legislature.

Custodial credit risk is for those investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for the State. The information presented is based on concentrations of investments in the State's portfolio.

Interest rate risk is the exposure that the fair value of the State's fixed-income investments fluctuates in response to changes in market interest rates. An element of interest rate risk are those securities which are 'highly sensitive' to changes in interest rates. These highly sensitive securities are separately disclosed.

Foreign currency risk is that changes in foreign exchange rates will adversely affect the fair value of an investment. This risk disclosure applies only to investments that are denominated in foreign currencies. The State's Master Investment Policy does not provide a policy for foreign currency diversification.

STATE OF WYOMING

The State's investments at June 30, 2012 are presented here:

STATE OF WYOMING SCHEDULE OF INVESTMENTS JUNE 30, 2012

Total Investments	16,350,309,772

Custodial Credit Risk

The State does not have any custodial credit risk exposure.

Concentration of Credit Risk

The Wyoming State Treasurer's fixed income portfolio holds \$3,745,022,293 or 31.87% of the fixed income securities in government agency securities such as Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), and Federal Home Loan Bank (FHLB). These agency securities hold a rating of AA+. While the State's Master Investment Policy sets limits for concentration of investments, it provides that U.S. agency bonds are eligible without limitation.

Credit Risk

The credit risk disclosures for the State's fixed income portion of its investments, not including derivatives, as of June 30, 2012, are presented here:

Interest Rate Risk

The interest rate disclosure for the State's fixed income portion of its investments, excluding money markets but including derivatives, is presented here. The State has chosen the segmented time distribution method for its interest rate disclosure. This method most closely matches how the State manages interest rate risk.

The State has no formal policy with respect to managing interest rate risk within its Master Investment Policy; however, the Policy does provide guidance relative to safety, liquidity and yield using the following criteria:

- Funds are analyzed by asset class including cash to determine if securities need to be purchased or sold.
- Future needs are determined and current positions are reviewed.
- Economic, market and interest rate assumptions are considered.
- Securities are selected based on market value, price and availability.
- Trades are executed to raise cash, to shift maturity, to change asset mix, to enhance yield and to improve quality.

Maturity assumptions have been made using a matrix analyzing interest versus final maturity dates of callable securities. The maturity assumptions or average life of the fixed income portfolio securities are displayed in the Interest Rate Risk presented here:

The State's Master Investment Policy does not provide a policy for foreign currency denomination diversification with the exception of Global Fixed Income Managers. These managers can take investment positions in currency and currency forwards, futures, and options as long as 70% of the overall currency exposure is hedged to the US dollar.

The foreign currency disclosure differs from the foreign investments on the Schedule of Investments by \$2,831,699. This difference is due to the reporting of futures contracts, swaps, and forward currency contracts at unrealized gain or loss (URGL) and not at market value (MV) in accordance with industry best practices.

Highly Sensitive Securities

The Wyoming State Treasurer's fixed income portfolios hold securities that are classified as "highly sensitive". These securities, because of their specific type and structure, are rate sensitive as market conditions change. The portfolio holds \$3,067,096,714 or 26.10% of the fixed income securities in mortgage-backed securities. Collateralized

mortgage obligations, (CMO's) perform like mortgage-backed securities. The portfolio holds \$325,407,801 or 2.77% of the fixed income securities in highly sensitive CMO's. During FY12, the State continued to trade step-up bonds in the portfolio. Step-up bonds are structured so that the bonds, at strategic times during their life, will step-up to a higher interest rate if they aren't called. These type of bonds diversify the portfolio and add options that may present opportunities to take capital gains. The portfolio holds \$163,221,852 or 1.39% of the fixed income securities in step-up structured bonds. The portfolio holds \$106,925,466 or 0.91% in asset-backed securities.

Derivatives

The State of Wyoming permits the use of derivatives by its international equity and external fixed income managers. Examples of derivative instruments permitted, but not limited to, are foreign exchange contracts, financial futures, forwards, options, swaps and swaptions. All derivative instruments utilized are considered "Investment derivative instruments" as defined in GASB 53 "Accounting and Financial Reporting for Derivative Instruments".

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2012, classified by type, and the changes in fair value of such derivative instruments, which are included in investment income, for the year then ended as reported in the 2012 financial statements are as follows:

State of Wyoming Derivative Instruments - Summary Disclosure as of June 30, 2012

Derivatives—Risks

Credit, interest rate and foreign currency risks affecting derivatives and other applicable investments are addressed in previous sections of Note 3. These risks, applicable to other fixed income and foreign investments, are not substantially different from the same risks affecting applicable derivative instruments.

In addition to the principal risks noted above, Forward Foreign Currencies, Credit Default Swaps and Interest Rate Swaps are also subject to counterparty risk. In general, counterparty risk is the risk of loss of an amount expected to be delivered under an agreement in the event of the default or bankruptcy of the counterparty. Generally, counterparty risk is controlled through dealing with a number of different counterparties reasonably deemed to be creditworthy by the investment manager.

Derivatives—Counterparty Risk

Counterparty risk with swaps is limited by execution under standardized International Swap and Derivatives Association Agreements. These contracts allow for the mutual exchange of collateral should an overall unsecured market value exceed a certain threshold (e.g., \$250,000). Counterparties which are exchanges or market places are not rated as there is little to no risk associated with them.

Derivatives—Contingency

Derivative instruments often contain credit-risk-related contingent features that could result in an immediate payment to the counterparty. For example, a material adverse change clause could provide the counterparty with the right to early terminate the derivative agreement. Alternatively, it could provide a basis for renegotiating the agreement if specific events occur, such as a downgrade of the entity's credit rating below investment grade. These provisions may include an obligation to post additional collateral in instances where the credit-risk contingent feature is triggered or the counterparty is provided the right to terminate the agreement early.

Contingent features that could result in the exercise of an early termination right against the counterparty include a credit ratings downgrade of the counterparty below a specified threshold, commonly A-/A3. Additionally, the counterparty may exercise an early termination right against the portfolio in the event assets under management of the portfolio decline by more than 30% in a year or 15% in a month. It is important to note that these contingent features are not compulsory; they are voluntary. Based on discussions with its investment managers, the State has determined the fair value of derivatives with contingent features held in the State's investment portfolio is not significant.

SECURITIES LENDING –PRIMARY GOVERNMENT

State Statutes permit the State Treasurer to lend its securities, through the use of agents, to broker-dealers and other entities with simultaneous agreement to return the collateral for the same securities in the future. The State's agents lend securities, of the type on loan at year-end, for collateral in the form of cash or other securities at 100 percent of value for US Treasury Strips and US Treasury Bills, and 102-105 percent of value for other securities. The State, through its agents, measures the fair value of the securities loaned against the fair value of the collateral on a daily basis. Additional collateral is obtained as necessary to ensure such transactions are adequately collateralized. Securities lent for securities collateral are classified according to the category of the collateral. At year-end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceed the amounts the borrowers owe the State. The contract with the State's agent requires it to indemnify the State if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the State for income distributions by the securities' issuers while the securities are on loan.

The following represents the balances relating to the securities lending transactions at the financial statement date:

	Fair Value Underlying Securities	Value of Collateral Received before Reinvestment
Lent for Cash Collateral		
U.S. Governments	\$ 344,181,023	\$ 351,942,757
U.S. Government Agencies	338,434,982	350,381,488
Corporate Securities	453,236,869	468,735,105
Equities	710,509,164	727,613,029
Non U.S. Governments	34,038,936	35,508,063
Non U.S. Government Agencies	9,912,382	10,165,108
Non U. S. Corporate Securities	15,707,319	16,327,073
Non U. S. Equities	63,906,878	67,609,202
Total Lent for Cash Collateral	1,969,927,553	2,028,281,825
Lent for Securities (Bulk) Collateral		
U.S. Governments	726,651,102	747,048,908
U.S. Government Agencies	2,684,384	2,746,354
Corporate Securities	31,205	31,993
Equities	337,139	344,884
Total Lent for Securities (Bulk) Lending	729,703,830	750,172,139
Total Securities Lending	\$ 2,699,631,383	\$ 2,778,453,964

Cash collateral is invested in the lending agent's investment pool, which at year-end has a weighted-average maturity of 163 days. As of June 30, 2012, the State's sole security lending agent uses the securities final maturity to calculate the weighted-average maturity. The relationship between the maturities of the investment pool and the State's loans is affected by the maturities of securities loans made by other entities that use the agent's pool, which the State cannot determine. The State cannot pledge or sell collateral securities received unless the borrower defaults. At June 30, 2012, the cash collateral of \$2,028,281,825 was recorded as cash and investments with trustee and as a liability under security lending. The difference between the amount shown here and the amount reflected in the Statement of Net Assets of \$1,982,320,935 for the primary government is due to the amounts allocated to component units and private purpose trust fund.

Credit Risk

The credit risk disclosures for the State's securities lending program are presented here:

STATE OF WYOMING CREDIT QUALITY DISTRIBUTIONS FOR SECURITIES WITH CREDIT EXPOSURE SECURITY LENDING AS OF JUNE 30, 2012			
CATEGORY	CREDIT RATING	MARKET VALUE	PERCENTAGE OF TOTAL INVESTMENTS
ASSET BACKED SECURITIES	B+	\$161,452	0.01%
ASSET BACKED SECURITIES	CCC	16,218,936	0.81%
CERTIFICATE OF DEPOSIT	A-1+	69,958,103	3.49%
CERTIFICATE OF DEPOSIT	A-1	53,985,097	2.70%
MEDIUM TERM NOTE	A-1+	25,587,895	1.28%
MEDIUM TERM NOTE	NR	11,305,398	0.56%
MONEY MARKET FUND	AAA	32,000,000	1.60%
REPURCHASE AGREEMENTS	A-1	773,554,103	38.63%
TIME DEPOSIT	A-1+	351,501,168	17.55%
TIME DEPOSIT	A-1	129,999,948	6.49%
YANKEE C/D	A-1+	24,999,900	1.25%
YANKEE C/D	A-1	513,342,908	25.63%
Total		\$2,002,614,908	100.00%

The market value reflected in the above table, of collateral securities purchased with cash received from securities lending practices, is \$23,877,758 million less than cash collateral received. This means the state would require at least an additional \$23.9 million in cash to satisfactorily liquidate all outstanding securities lending transactions as of June 30, 2012

Custodial Credit Risk

For the State's securities lending program, the State has lent its securities for other securities. These securities have custodial credit risk, and at June 30, 2012 these securities had an amortized cost of \$707,680,192. By investment type there were \$704,644,788 in US Government securities, \$2,529,999 in US Government Agencies, \$26,095 in corporate securities and \$479,310 in equities.

Concentration of Credit Risk

The State's securities lending program does not have any concentration of credit risk exposure.

Interest Rate Risk

The State has chosen the segmented time distribution method for its interest rate disclosure. This method most closely matches how the State manages interest rate risk. There is minimal interest rate risk due to the average life of the security lending portfolio. The maturity assumptions or average life of the security lending portfolio are displayed in the following table:

STATE OF WYOMING			
INTEREST RATE ORGANIZED BY INVESTMENT TYPE USING SEGMENTED TIME DISTRIBUTION			
SECURITY LENDING AS OF JUNE 30, 2012			
CATEGORY	MARKET	LESS THAN 1 YEAR	MORE THAN 10 YRS
ASSET BACKED SECURITIES	\$16,380,388		\$16,380,388
CERTIFICATE OF DEPOSIT	123,943,200	\$123,943,200

MONEY MARKET FUND	32,000,000	32,000,000	
REPURCHASE AGREEMENTS	773,554,103	773,554,103	
TIME DEPOSIT	481,501,116	481,501,116	
YANKEE C/D	538,342,808	538,342,808	
Total	\$2,002,614,908	\$1,986,234,520	\$16,380,388

Foreign Currency Risk

The State had no foreign currency exposure in its securities lending program as of June 30, 2012.

Highly Sensitive Securities

There are no highly sensitive securities to disclose for the state's securities lending program.

UNIVERSITY OF WYOMING

As of June 30, 2012, the University had investments with weighted-average maturities as shown in the following table:

Investment Type	Cost or Amortized Cost	Fair Value	Weighted Average Maturity In Years
US Government Sponsored			
Enterprise Discount Notes	\$ 155,977,493	\$ 155,960,602	0.50
Other Investments	73,713	73,713	n/a
Mutual Funds	629,041	578,744	n/a
Total Investments	<u>\$ 156,680,247</u>	<u>\$ 156,613,059</u>	

Interest rate risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University's policy for managing its exposure to fair value loss arising from interest rate changes on internally invested funds is to limit the maturity of all securities to less than one year.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The table below shows quality ratings of investments that are rated.

Investment Type	Fair Value	Quality Rating AAA
US Government Sponsored		
Enterprise Discount Notes	\$ 155,960,602	\$ 155,960,602
Total Investments	<u>\$ 155,960,602</u>	<u>\$ 155,960,602</u>

Custodial credit risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the University will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The University does not have a formal investment policy for custodial credit risk. Investments are held in safekeeping by external custodians in the University's name.

Concentration of credit risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the University's investment in a single issuer. Concentration of risk is not addressed in the internal investment policy. At June 30, 2012, the University held securities from the following issuers in excess of 5% of the total portfolio: Federal Home Loan Bank 51.80%, Federal Home Loan Mortgage Corporation 9.60%, and Federal National Mortgage Corporation 13.20%.

UNIVERSITY OF WYOMING—FOUNDATION

University owned endowment funds are held by the Foundation for investment purposes. The investment committee, following the Prudent Expert Rule, carries out the Foundation's investment policy. The Prudent Expert Rule states that a fiduciary shall manage the portfolio "with the care, skill, prudence and diligence, under circumstances then prevailing, and that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and like aims." External managers have been hired to invest in the following asset classes: equities, fixed income, absolute return, private equity/venture capital, hedged equity and real estate. A long-term target asset allocation strategy has been implemented to achieve required returns while minimizing risk. All investment vehicles selected must be in compliance with the laws of the State of Wyoming, Internal Revenue Code prohibitions on self-dealing or vehicles that would jeopardize the carrying out of the exempt purpose of the Foundation and restrictions on Unrelated Business Taxable Income.

The University and Foundation have invested in alternative investments defined as hedge funds, private equity, venture capital and other investments for which the fair market value is not readily attainable. Because the alternative investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. Such difference could be material. At June 30, 2012 the alternative investments held by the Foundation were \$92,130,035.

As of June 30, 2012 the University of Wyoming investments held by the Foundation, primarily in mutual funds, had weighted average maturities, where applicable, as shown in the following tables:

Investment Type	Historical Cost	Fair Value	Weighted Average Maturity in Years
Cash Funds	\$ 2,847,473	\$ 2,847,473	N/A
Real Assets	12,956,653	13,339,821	N/A
Private Equity	26,469,747	27,252,538	N/A
Absolute Return	38,702,740	39,847,298	N/A
Fixed Income	8,843,365	9,104,890	3.89
Hedged Equity	18,175,784	18,713,297	N/A
International Equity	8,556,829	8,809,881	N/A
Domestic Equity	18,370,714	18,913,992	N/A
Liquidity	199,421	205,319	N/A
	<u>\$ 135,122,726</u>	<u>\$139,034,509</u>	

Interest rate risk

The Foundation has no formal policy addressing interest rate risk.

Credit risk

The high yield and fixed income bond mutual fund investments are not rated.

Custodial credit risk

The Foundation does not have a formal investment policy for custodial credit risk. Investments are held in safekeeping by external custodians in the Foundation's name.

Concentration of credit risk

The Foundation's investment policy limits concentrations as follows:

1. The initial investment in any one issuer should not exceed 10% of a manager's portfolio (with the exception of U.S. Government securities);
2. The investment with any one issuer should not exceed 15% of a manager's portfolio (with the exception of U.S. Government securities);
3. No purchases of securities of the portfolio manager's organization or of any firm with controlling interest in said organization are to be made.

At June 30, 2012, there were no single issuer investments that exceeded 7% of the total holdings of the Foundation.

The summarized investments of the Foundation at June 30, 2012 are as follows:

Investment Type	Carrying Amount	Fair Value
Level 1:		
Money Market Funds	13,763,736	13,763,736
Stock	35,213,132	38,820,487
Corporate Bonds and Notes	94,804,120	94,405,318
Government Obligations	181,417	181,739
Other Investments	345,172	369,734
	<u>\$ 144,307,577</u>	<u>\$ 147,541,014</u>
Level 2:		
Real Estate	12,671,000	12,690,473
Y Cross Ranch	4,275,397	4,275,397
International equity	17,071,283	20,031,768
Domestic trust	7,481,666	9,630,225
Absolute return hedge funds	16,580,410	23,140,027
Long/short hedge funds	24,000,000	26,162,456
	<u>\$ 82,079,756</u>	<u>\$ 95,930,346</u>
Level 3:		
Insurance	256,140	256,140
Other investments	8,803	8,805
Private equity funds	47,194,345	62,433,239
Absolute return hedge funds	46,379,318	67,464,125
Real Estate and energy funds	23,769,672	30,403,658
Long/short hedge funds	13,000,000	16,387,543
	<u>\$ 130,608,278</u>	<u>\$ 176,953,510</u>
Combined total	<u>\$ 356,995,611</u>	<u>\$ 420,424,870</u>

WYOMING RETIREMENT SYSTEM

The System's Board has been authorized by the Wyoming Legislature pursuant to State statutes, to act on behalf of the plan membership in investing and managing monies in the retirement account, and in doing so shall exercise the judgment and care that a prudent investor would, in light of the purposes, terms, distribution requirements and all other circumstances surrounding the monies in the retirement account, including risk and return objectives established by the Board which are reasonably suitable to the purpose of the Wyoming Retirement System. The Board shall evaluate and select investments in appropriate asset classes as is deemed necessary to enhance returns or reduce risk in the total portfolio and has delegated to staff the responsibility to select strategic asset classes and investment managers.

The Wyoming Retirement System's schedule of defined benefit plan investments, as of December 31, 2011 is presented here:

WYOMING RETIREMENT SYSTEM	
SCHEDULE OF INVESTMENTS BY INVESTMENT TYPE	
AS OF DECEMBER 31, 2011	
Equities-U.S.	\$ 1,804,051,947
Equities-International	1,227,324,190
Fixed Income	1,589,654,240
Cash-Equivalents	351,662,701
Other	628,222,203
Alternative Investments	628,958,415
Total Investments	<u>\$ 6,229,873,696</u>

Credit Risk-Debt Securities

Fixed income grade investments shall have an average quality of the portfolio equivalent of a Standard & Poor's rating of A or better. Managers of accounts holding publicly traded non-Government debt should select and manage them so as to assure an appropriate balance in maturity, quality, marketability and adequate diversification with respect to industry and issues.

High yield investments are defined by the System as those debt securities, which carry a Standard & Poor's quality rating of BB or lower. Fund managers who manage these investments should structure a well diversified portfolio with respect to rating, maturity, duration, yield, industry and issuer with the intent of minimizing the risk of losses in any single security.

The distribution of quality rating of debt securities in the System's investment portfolio at fair value as of December 31, 2011 is as follows:

WYOMING RETIREMENT SYSTEM CREDIT QUALITY FOR SECURITIES WITH CREDIT EXPOSURE AS OF DECEMBER 31, 2011		
Quality Rating:		
AAA	\$	818,727,439
AA		65,711,883
A		176,365,704
BBB		167,900,752
BB		90,161,575
B		110,438,468
Below B		160,348,419
Total Credit Risk Debt Securities	\$	1,589,654,240

Custodial Credit Risk

Custodial credit risk for deposits of the defined benefit plans is the risk that in the event of a bank failure, the Systems' and Plans' deposits may not be returned to them. Deposits subject to this risk are those other than the \$5,328,046 of deposits held by the State Treasurer. These deposits totaling \$351,662,701 are held by the System's primary custodian are collateralized by commercial paper, repurchase agreements and money market mutual funds held by the primary custodian or its agents in accounts in the name of the Wyoming Retirement System.

Deposits are presented in the basic financial statements at cost plus accrued interest which is also the market or fair value. At December 31, 2011, the carrying amount of all deposits and the corresponding bank balance totaled approximately \$357 million.

Investment securities within the defined benefit plans are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the System and are held by either the counterparty or the counterparty's trust department or agent, but not in the System's name. Consistent with the System's investment policy, all investments are held by the System's primary custodian and registered in the System's name except for approximately \$323.4 million in real estate holdings.

The System does not have a formal deposit or investment policy for custodial credit risk.

Concentration of Credit Risk

The Systems and Plans expect the domestic investment managers to maintain diversified portfolios by sector and by issuer using the following guidelines in accordance with the System's investment policies.

The policy of the Board is to discourage equity investment managers from holding positions in a single issue whose market value exceeds 5% of the market value of the portfolio. However, exceptions can be made if this percentage of the overall portfolio is exceeded as a consequence of long held positions whose value has grown as a consequence of their strong returns. At December 31, 2011, the System did not hold any single investment with a market value of greater than 5% of its portfolio. The board does not have any formal policy relating to any specific investment related risk.

The Board does not authorize the use of derivatives as speculative instruments or in a leveraged manner such that the risk of loss from a particular position would be materially larger than if actual securities were utilized. Derivatives for the purpose of equitizing cash in a non-leveraged context, is acceptable with specific Board authorization.

The purpose of real estate investments is to provide counter cyclical returns income and a defense against inflation. Funds considered will be comprised primarily of highly-leased properties with reasonable income components. The real estate portfolio, in aggregate, shall be diversified by property type, property size, geographic region, and economic sector exposure. Leverage shall be used sparingly.

Interest Rate Risk

The System is also exposed to investment fair value loss arising from increased interest rates. Duration is a measure of the sensitivity of a debt security's value to rate changes. It is calculated using the present value of cash flows, weighted for those cash flows as a percentage of the investment's full price. More specifically, it is the approximate percentage change in value for a 100 basis point change in rates. The System's investment policy guidelines require that the investment grade debt securities portfolio be maintained with a weighted-average portfolio duration of no longer than ten years. No specific investment guidelines exist for other debt securities subject to interest rate risk not included in the investment grade portfolio.

At December 31, 2011 the following table shows investments by investment type, amount and the effective weighted duration:

WYOMING RETIREMENT SYSTEM INTEREST RATE RISK ORGANIZED BY INVESTMENT TYPE USING DURATION METHOD AS OF DECEMBER 31, 2011		
Investment Type	Amount	Effective Weighted Duration
Government Securities	\$ 371,041,630	3.82
Asset Backed	30,034,208	0.80
Mortgage Backed Securities	338,108,811	0.49
CMO/REMIC	22,751,774	0
Commercial Mortgage Backed	98,180,740	0.75
Corporate Bonds	617,757,720	2.55
Other	111,779,357	0.01
Total Debt Securities	\$ 1,589,654,240	2.05

Foreign Currency Risk

The System also expects its international security investment managers to maintain diversified portfolios by currency denomination; however, no formal policy limits have been established. At December 31, 2011, the System's exposure to foreign currency risk for its short-term and equity securities is as follows:

	Manager Cash	Foreign Equities	Real Return
Australian Dollar	\$ 1,587,620	\$ 73,335,722	\$ -
British Pound	1,564,845	226,718,034	-
Canadian Dollar	1,930,175	117,006,056	-
Czech Repub Krona	-	1,587,639	-
Denmark Krone	1,036,849	12,237,227	-
European Euro	716,931	292,721,582	16,645,172
Hong Kong Dollar	1,002,725	58,477,594	-
Hungarian Forint	-	654,758	-
Indonesian Rupiah	3,103	2,571,068	-
Israel Shekel	11,407	6,437,116	-
Japanese Yen	1	245,178,277	-
Mexican Peso	127,706	8,710,691	-
New Zealand Dollar	138	2,793,309	-
Norwegian Krone	65,493	8,907,932	-
Philippine Peso	-	1,933,869	-
Polish Zloty	-	2,147,503	-
Singapore Dollar	19,273	17,902,829	-
South African Rand	441,712	12,247,902	-
South Korea Won	489,564	22,970,298	-

Swiss Franc	-	80,280,739	-
Thailand Baht	-	2,971,579	-
Totals	\$ 9,760,956	\$ 1,227,324,190	\$ 16,645,172

The System also had foreign exposure for its investment strategy International Real Return in the Euro of 16,645,172.

At December 31, 2011, the System had no debt securities denominated in a foreign currency.

Derivatives

The System permits the use of derivatives by its international equity and external fixed income managers. Examples of derivative instruments permitted, but not limited to, are foreign exchange contracts, financial futures, forwards, options, swaps and swaptions. All derivative instruments utilized are considered "Investment derivative instruments" as defined in GASB 53 "Accounting and Financial Reporting for Derivative Instruments".

The fair value balances and notional amounts of derivative instruments outstanding at December 31, 2011, classified by instrument at fair value are presented here:

Derivative Risks

Credit, interest rate and foreign currency risks affecting derivatives and other applicable investments are addressed in previous sections of Note 3. These risks, applicable to other fixed income and foreign investments, are not substantially different from the same risks affecting applicable derivative instruments.

In addition to the principal risks noted above, Forward Foreign Currencies, Credit Default Swaps and Interest Rate Swaps are also subject to counterparty risk. In general, counterparty risk is the risk of loss of an amount expected to be delivered under an agreement in the event of the default or bankruptcy of the counterparty. Generally, counterparty risk is controlled through dealing with a number of different counterparties reasonably deemed to be creditworthy by the investment manager.

Derivative – Contingency

Derivative instruments often contain credit-risk-related contingent features that could result in an immediate payment to the counterparty. For example, a material adverse change clause could provide the counterparty with the right to early terminate the derivative agreement. Alternatively, it could provide a basis for renegotiating the agreement if specific events occur, such as a downgrade of the entity's credit rating below investment grade. These provisions may include an obligation to post additional collateral in instances where the credit-risk contingent feature is triggered or the counterparty is provided the right to terminate the agreement early.

Contingent features that could result in an immediate payment from the counterparty include the event of a downgrade of the counterparty below a specified rating, commonly A-/A3. Additionally, the counterparty can request immediate payment in the event assets under management of the portfolio falls by more than 30% in a year or 15% in a month. It is important to note that these contingent features are not compulsory, rather they are voluntary.

Defined Contribution Plan Cash and Investments

The cash and investments held within the defined contribution plan are comprised of the aggregate holdings of the participant's accounts that are invested in different mutual fund type investment options and cash held on deposit with the State collected from participants as fees for the purposes of plan administration. Plan participants determine the holdings of their individual participant accounts; therefore, the exposure of each participant to the investment risks discussed above including custodial, credit, interest rate, foreign currency and concentration is determined by that individual's risk tolerance. Additionally, the risks of the investment portfolios associated with each of the investment options are determined by the mutual fund manager and may vary depending on their risk tolerances and performance objectives. The defined contribution plan does not have any investments (other than those issued or guaranteed by the U.S. Government) in any one organization that represents 5% or more of the plan's net assets.

Limited Partnerships

The System has invested in limited partnerships. As of December 31, 2011 the market value of these investments was \$957,449,090. The limited partnerships invest in a variety of investments and as such, credit risk information is not available.

SECURITIES LENDING-WYOMING RETIREMENT SYSTEM

Under the authority of the governing statutes and in accordance with policies set by the Board of Trustees, the System lends its securities to broker-dealers with a simultaneous agreement to return the collateral for the securities in the future. The System's custodian is authorized to lend available securities to authorized broker-dealers subject to the receipt of acceptable collateral. The System lends securities such as common stock, U.S. Treasury and corporate bonds and receives collateral in the form of either cash or other securities similar to the type on loan. Borrowers are required to provide collateral amounts of 102% of the market value of loaned U.S. securities plus accrued interest and 105% of the market value of loaned non-U.S. securities plus accrued interest. The System cannot pledge or sell collateral securities received until and unless a borrower defaults. Securities held as collateral at year-end are not subject to the preceding disclosures of custodial credit risk as they are held in a collateral investment pool. At year-end, the System has no credit risk exposure to borrowers because the amounts the System owes the borrowers exceed the amounts the borrowers owe the System. Contracts with the lending agents require them to indemnify the System if the borrowers fail to return the securities (and if the collateral is inadequate to replace

the securities lent) or fail to pay the System for income distributions by the securities' issuers while the securities are on loan. Net securities lending income during the year ended December 31, 2011 was \$2,161,673.

Securities lent as of December 31, 2011, with a market value of \$626,738,835 and a collateral value at a rate of 102% and/or 105%, as appropriate, for a total market value of \$640,761,327 could be terminated on demand by either the System or the borrower(s). There is no direct match of the maturities of the collateral investments with the maturities of the securities loaned.

WYOMING COMMUNITY DEVELOPMENT AUTHORITY

The WCDA trust indentures and State statutes authorize the types of investments in which WCDA invests. Among these authorized investments are certificates of deposit, obligations of the U.S. Treasury, agencies and instrumentalities of the U.S. Government, mortgage-backed securities, guaranteed investment contracts, mutual funds, and repurchase agreements with banks with the underlying securities being obligations of the U.S. Treasury, or agencies and instrumentalities of the U.S. Government. The investments are carried at fair value except for certificate of deposits that are carried at cost.

The components of the Authority's investment portfolio as of June 30, 2012, are as follows:

Investments			
Escrowed Money Market Accounts			50,900,000
Housing Revenue Bonds			10,910,000
U.S. Government and Agency Securities			134,922,051
Total	\$		196,732,051

Credit Risk

State statutes limit the types of investments available to the Authority. Investments, including the underlying securities for repurchase agreements, are held by the Authority's trustees in the Authority's name. Guaranteed investment contracts which have a maturity beyond 18 months are generally guaranteed by AAA rated institutions or collateralized.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority would not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Substantially all of the Authority's investments are held in the name of the Authority by a trustee.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority attempts to match its investment maturities to the expected call dates of its bonds or needs for purchasing mortgages. With this investment focus, investments would be expected to reach maturity with limited realized gains or losses.

As of June 30, 2012, the Authority had the following investments and maturities:

	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1-5	6-10	More Than 10
Escrowed Money Market	50,900,000	0	50,900,000	0	0
Housing Revenue Bonds	10,910,000	0	0	0	10,910,000
U.S. Government and Agency Securities	134,922,051	240,009	3,677,122	22,834,599	108,170,321
Total	\$ 196,732,051	\$ 240,009	\$ 54,577,122	\$ 22,834,599	\$ 119,080,321

Interest Rate Swaps

Swap Objectives

The Authority has entered into interest rate swap agreements in connection with variable-rate bond series as a technique to lower the cost of long-term debt. The objective of the swaps is to effectively change the variable interest rate on the bonds to a synthetic fixed rate.

Terms and Values

Bond Series	Swap Contractual Dates	Notional Amount	Fixed Rate Paid	Variable Rate Received	Termination Date	Fair Value	Counterparty Credit Rating
2005 Series 2	3/31/2005	\$ 2,965,000	3.523%	70% of LIBOR	6/1/2021	\$ (88,902)	AAA/Aa3
2005 Series 4	6/30/2005	4,145,000	3.260%	70% of LIBOR	12/1/2021	(115,979)	AAA/Aa3

		<u>\$ 119,090,000</u>				<u>\$ (10,184,772)</u>	

As of June 30, 2012, the Authority's swap agreements had a net fair value of (\$10,184,772). If negative, the fair value of the swaps may be offset by reductions in total interest payments required under the related variable-rate bond, creating lower synthetic rates. The net fair value reported above as of June 30, 2012 is inclusive of accrued interest of \$319,646. Accrued interest is separately reported on the Authority's balance sheet. The resultant change in gross fair value was \$929,221. Because the coupons on the related variable-rate bonds adjust to the changing interest rates, the bonds do not have a corresponding fair value increase. The fair value amounts, obtained from an independent third-party, represent mid-market valuations that approximate the current economic value using prices and rates at the average of the estimated bid and offer amounts.

Swap Risks

Credit Risk – As of June 30, 2012, the Authority was exposed to credit risk on swaps which could have a positive fair value. The positive fair value of any one swap would represent the Authority's exposure to the potential failure of a single counterparty. Should the counterparty to this transaction fail to perform according to the swap contract, the Authority would face a maximum possible loss equivalent to the swap's fair value. As of June 30, 2012, the swap counterparties were rated AAA by Standard & Poor's and Aa3 by Moody's Investors Service. The Authority's policy to manage credit risk would require the Authority to seek credit enhancements should the counterparty's ratings be below AA- or Aa3.

Interest Rate Risk – The Authority is exposed to interest rate risk on its interest rate swap. On its pay-fixed, receive-variable interest rate swap, as LIBOR or the SIFMA swap index decreases, the Authority's net payment on the swap increases.

Basis Risk – Basis risk is the potential mismatch between the variable interest rate paid on the underlying bonds and the variable rate payments received by the Authority pursuant to the swap. The Authority's variable rate bond interest payments should correspond to the SIFMA Index (formerly the BMA Index), while the payments the Authority receives pursuant to the swap are for the most part 70 percent of LIBOR. The Authority is exposed to basis risk should LIBOR and SIFMA Index rates converge. If a change occurs that results in the rates moving to convergence (that is, the SIFMA Index exceeding 70 percent of LIBOR), the value to the Authority of the hedge from the swap is diminished. As of June 30, 2012 and 2011, the SIFMA Index rate was 0.18 and 0.09 percent, respectively, while 70 percent of LIBOR (the swap rate) was 0.17 and 0.13 percent, respectively.

Termination Risk – The Authority or the counterparty may terminate the swaps if the other party fails to perform under the terms of the swap contracts. The swaps may be terminated by the Authority at its discretion with a maximum of ten days' notice. If a swap was terminated, the variable-rate bonds would no longer carry a synthetic fixed rate. Also, if at the time of termination the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value.

Rollover Risk –The Authority is exposed to rollover risk on swaps that mature or may be terminated prior to the maturity of the associated bonds. When these hedging derivative instruments terminate or are terminated by either party, the Authority will not realize the synthetic fixed rate offered by the swaps on the underlying bond issues. The following bond series are exposed to rollover risk:

Associated Bond Issuance	Bond Maturity Date	Swap Termination Date
2005 Series 2	December 1, 2035	June 1, 2021
2005 Series 4	December 1, 2035	December 1, 2021
2005 Series 7	June 1, 2036	December 1, 2016
2006 Series 2	December 1, 2035	December 1, 2013

	<u>\$ 26,585,310</u>	<u>100.00%</u>

WYO-STAR

The Wyoming State Treasurer's Asset Reserve Fund (WYO-STAR), which is Wyoming's local government investment pool, has been established, in accordance with Wyoming statute 9-1-416 to invest funds upon request of any county, municipality, school district or any other local governmental entity. The State Land and Investment Board oversees the WYO-STAR program and there is no involuntary participation in WYO-STAR. In accordance with GAAP, the external portion of WYO-STAR is reported as an investment trust fund in the fiduciary funds, using the economic resources measurement focus and accrual basis of accounting, due to the State's fiduciary responsibility. The internal portion of the pool is reported in the Deferred Compensation Fund of the Wyoming Retirement System and the University of Wyoming. The investments of WYO-STAR are carried at their fair value as determined at June 30th each year. A ratio based on the participants share to the total share invested in WYO-STAR is used to determine each participant's share. The State has not provided or obtained any legally binding guarantees during fiscal year 2012 to support the value of the shares. A summary of WYO-STAR Investments as of June 30, 2012 is presented here:

WYO-STAR INVESTMENTS JUNE 30, 2012

Custodial Credit Risk

The WYO-STAR Program at June 30, 2012 had no custodial credit risk exposure.

Concentration of Credit Risk

The WYO-STAR fixed income portfolio holds \$551,873,249 or 76.63% of the fixed income securities in government agency securities such as Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Bank (FHLB) and Government National Mortgage Association (GNMA). These agency securities hold a rating of AA+.

Interest Rate Risk

The WYO-STAR investment portfolio by description as stated in the Master Investment Policy administers the short-term cash deposits made with the State by local entities. The actual investments are administered to provide liquid cash reserves, placing the majority portion in a cash portfolio and the rest in an extended cash portfolio.

These guidelines afford minimal interest rate risk.

The maturity assumptions or average life of the WYO-STAR fixed income portfolio securities are displayed in the WYO-STAR Interest Rate Risk Table:

STATE OF WYOMING

Foreign Currency Risk

As of June 30, 2012 the WYO-STAR investment portfolio had no exposure to foreign currency risk.

Highly Sensitive Securities

The WYO-STAR fixed income portfolios hold securities that are classified as “highly sensitive”. These securities, because of their specific type and structure, are rate sensitive as market conditions change. The portfolio holds \$27,560,289 or 3.83% of the fixed income securities in mortgage-backed securities. Collateralized mortgage obligations, (CMO's) perform like mortgage-backed securities. The portfolio holds \$70,759,980 or 9.83% of the fixed income securities in highly sensitive CMO's.

WYO-STAR Master Investment Policy

The target asset allocation, as stated in the Master Investment Policy, comprises one hundred percent (100%) of the fund in short term bonds and cash.

Diversification/permissible investments as stated in the Master Investment Policy permits purchase of the following securities:

- Asset Backed Securities
- Repurchase Agreements
- Government Securities: including obligations of the U.S. Treasury and Obligations of the U.S. Government Agencies or Instruments, bearing floating or fixed interest rates.
- Asset-backed securities will be limited to CMOs or pass through; the collateral for which is securities issued by Government Mortgage National Association (GMNA), Federal National Mortgage Association (FNMA), or Federal Home Loan Mortgage Corporation (FHLMC) or notes fully guaranteed as to principal and interest by the Small Business Administration. Automobile receivables and credit receivables will also be considered permissible investments.
- Currency: U.S. dollar denomination only.

The following tables represent the condensed statements of net assets and changes in net assets for the Investment Trust Fund WYO-STAR. The tables below include amounts for both the primary government, as well as its component units, and therefore will not agree to the Statement of Net Assets-Fiduciary Funds and the Statement of Changes in Net Assets-Fiduciary Funds, respectively.

ALTERNATIVE INVESTMENTS

The State of Wyoming, and its component units, has invested in alternative investments defined as hedge funds, private equity, venture capital and other investments for which the fair market value is not readily attainable. Because the alternative investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. Such difference could be material. At June 30, 2012, the organizations holding alternative investments were:

State of Wyoming	\$	1,334,550,132
University of Wyoming Foundation		92,130,035

NOTE 4 Loans Receivable

As of June 30, 2012, the gross amount of outstanding loans for governmental type funds was \$382,028,133. The largest portion of loans outstanding are municipal infrastructure, totaling \$221,983,260, which have rates which vary between 0% and 2.5%, are primarily collateralized by pledges of revenue and are required to be repaid within a maximum of 20 years. The second major category of loans outstanding are water loans, totaling \$86,427,915, which have rates which vary between 4% and 11%, are primarily collateralized by mortgages and pledges of revenue, are required to be repaid within a maximum of 50 years and are for the construction and maintenance of water supply and storage facilities. At June 30, 2012, loans receivable included loans to one major loan customer totaling \$59,681,919 which comprised 14% of total loans receivable.

The State's loans receivable as of June 30, 2012, are as follows:

	General Fund	Foundation Program Fund	Common School Land Fund	Permanent Mineral Fund	Non-Major Governmental Funds	Total
Receivables:

As of June 30, 2012, the State had committed \$79,855,679 in various loans for distribution after June 30th.

Receivables classified as Municipal Infrastructure Loans include funds provided through the American Recovery and Reinvestment Act of 2009 (ARRA). Provisions of the federal grant allowed the state to provide borrowers with debt forgiveness and/or zero percent (0%) interest rates on loans made with ARRA funds. Loan agreements address specific conditions or requirements for debt forgiveness. The debt forgiveness provision of these loans is effective at the completion of the project. During the year ended June 30, 2012, the principal forgiven for the Clean Water State Revolving Funds (CWSRF) ARRA and Drinking Water State Revolving Funds (DWSRF) ARRA projects was approximately \$5.3 million and \$6.9 million, respectively. The estimated principal forgiveness at project completion as of June 30, 2012 for CWSRF ARRA projects is \$16 million and the estimated principal forgiveness at project completion as of June 30, 2012 for the DWSRF ARRA projects is \$16.4 million. Total loans provided through the ARRA provisions for these programs were \$7.4 million.

University of Wyoming Loans Receivable

As of June 30, 2012, the total amount of outstanding loans was \$31,761,043 net of an allowance for doubtful accounts. The outstanding loans primarily consist of medical school contracts, which have rates from 0% to 8%, repayment schedules of 96 months after leaving school and allow for loan cancellation based on the number of years

of residency at eligible clinics in the State of Wyoming or upon practicing full-time medicine in the State of Wyoming. The University and the University of Wyoming Foundation had pledged receivables due of \$23,527,157 for donor pledges.

Wyoming Community Development Authority

WCDA loans receivable consist of mortgage loans receivable. As of June 30, 2012, mortgage loans receivable consist of the following:

Single Family Mortgage Bonds 1978 Indenture Fund, bearing interest at 0% to 8.9%, 25 to 30 year term, FHA or private mortgage company insured, or guaranteed by RD, VA, or mortgage guaranty fund	\$ 91,236,269

Restricted mortgage loans receivable, net	\$ 941,604,612
Mortgage loans receivable, net	9,576,243
	<u>\$ 951,180,855</u>

Total loan loss reserves for mortgage loans receivable established by the Authority as of June 30, 2012 was \$36,800,000 for mortgage loans receivable.

As of June 30, 2012, the Authority had 258 loans delinquent for 90 days or more from the population of 11,097 loans. The outstanding balance of mortgages delinquent for 90 days or more was \$21,810,614.

Wyoming Business Council

Interest rates on loans vary from 1% to 4.5% and have varying maturity dates through 2022; collateral includes personal guarantees, mortgages on real estate, and liens on receivables, inventory, furniture, equipment and crops.

At June 30, 2012, loans receivable included outstanding loans to two major loan customers totaling \$2,582,069, which comprised 39% of gross loans receivable as of that date. There were four loans totaling \$173,109 charged off during the year ended June 30, 2012.

	Gross Balance	Allowance	Net Balance
Economic Development Fund	\$ 3,793,074	\$ 451,769	\$ 3,341,305
American Recovery and Reinvestment Fund	100,000	0	100,000
General Fund	2,688,942	0	2,688,942
Total Loan Receivable	<u>\$ 6,582,016</u>	<u>\$ 451,769</u>	<u>\$ 6,130,247</u>

Wyoming Infrastructure Authority

	Gross Balance	Allowance	Net Balance
Loan Receivable-Basin Electric	\$ 32,054,000	\$ 0	\$ 32,054,000
Total Loan Receivable	<u>\$ 32,054,000</u>	<u>\$ 0</u>	<u>\$ 32,054,000</u>

The Wyoming Infrastructure Authority, under its bonding authority, previously issued \$34,500,000 dollars in Revenue Bonds purchased in total by the Wyoming State Treasurer. These bonds are secured by a loan receivable from Basin Electric for the same amount. This note accrues interest at 4.84%, and matures on September 15, 2025.

NOTE 5 Capital Assets

Capital asset activity for the fiscal year ended June 30, 2012, was as follows:

Primary Government

	Restated (Note 1 (G)) Beginning July 1, 2011	Additions	Deletions	Transfers In	Transfers Out	Balance June 30, 2012

NOTE 6 Receivables and Payables

On the Statement of Net Assets the “Due to Primary Government” and the “Due from Component Units” does not balance by \$5,089,163. The “Due to Component Units” and the “Due from Primary Government” does not balance by \$104,101,121. These differences are due primarily to the Department of Transportation’s September 30 fiscal year end.

To the extent that certain transactions between funds had not been paid or received as of June 30, 2012, balances of inter-fund amounts receivable or payable have been recorded as presented below. Amounts due to internal service funds are generally for services performed by those funds. The principle amounts of the balances within the Non-Major Governmental Funds represent advances between funds.

Payable Fund	Receivable Fund				
	General Fund	Foundation Program Fund	Common School Land Fund	Permanent Mineral Trust Fund	American Recovery & Reinvest Fund
Major Funds:					
General Fund	\$ 0	\$ 0	\$ 0	\$ 5,527,500	\$ 0

NOTE 7 Inter-fund Transfers

State of Wyoming

The primary government's operating transfers for the year ended June 30, 2012, were as follows:

Transferred From	Transferred To				
	General Fund	Foundation Program Fund	Common School Land Fund	Non-Major Govt Funds	Total Transfer To & Transfer From
Major Funds:					
General Fund	\$ 0	\$ 6,824,622	\$ 462,133	\$ 70,624,271	\$ 77,911,026
Foundation Program Fund	7,954,605	0	3,676,711	445,963,553	457,594,869
Common School Land Fund	0	129,151,059	0	0	129,151,059
American Recovery & Reinvest Fund	733,718	0	0	921,296	1,655,014
State Unemployment Fund	0	0	0	0	0
Non-Major Govt Funds	605,700,556	250,689,922	0	9,192,087	865,582,565
Non-Major Enterprise Funds	13,250,000	0	0	0	13,250,000
Internal Service Funds	0	0	0	0	0
Total	<u>\$ 627,638,879</u>	<u>\$ 386,665,603</u>	<u>\$ 4,138,844</u>	<u>\$ 526,701,207</u>	<u>\$ 1,545,144,533</u>

Transfers are used to 1) move revenues from the fund that statute requires to collect them to the fund that statute requires to expend them; 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; and 3) move profits from the Liquor Commission Fund (\$13.2) as required by law.

In the fiscal year ended June 30, 2012, the significant transfers include transfers to the General Fund from the Non-Major Governmental Funds representing excess revenues not needed in those funds (\$606.4). Transfers from the Common School Land Fund (\$129.1) are the investment income that is distributed to the Foundation Program Fund for the expenditures in that fund. These transfers were made in accordance with statutory authority granted by the Legislature.

The General Fund transfers to non-major governmental funds included the transfer of appropriations to the Capital Construction Fund (\$8.3) and transfers for operational activities (\$62.3).

The Non-Major Government transfers to non-major government funds were for operational activities during the year (\$9.1).

NOTE 8 Long-Term Obligations

State of Wyoming

During the year ended June 30, 2012, the following changes occurred in long-term liabilities for the primary government:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Governmental Activities:					
Revenue Bonds	\$ 35,925,454	\$ 0	\$ 2,645,454	\$ 33,280,000	\$ 1,860,000
Compensated Absences	57,723,472	43,704,699	44,621,173	56,806,998	44,580,808
Capital Leases	189,514	615,500	265,843	539,171	202,700
Deferred Interest Payable	1,699,594	0	1,699,594	0	0
Net OPEB Obligation	48,884,764	8,560,223	0	57,444,987	0
Claims/Benefits Payable	176,186,551	352,632,269	356,305,373	172,513,447	86,394,198
Total Governmental Long-term Obligations	<u>\$ 320,609,349</u>	<u>\$ 405,512,691</u>	<u>\$ 405,537,437</u>	<u>\$ 320,584,603</u>	<u>\$ 133,037,706</u>
Business-Type Activities:					
Compensated Absences	\$ 1,523,272	\$ 1,217,719	\$ 1,279,901	\$ 1,461,090	\$ 1,279,901
Capital Leases	202,954	0	202,954	0	0
Claims/Benefits Payable	1,385,636,567	267,381,675	179,343,601	1,473,674,641	179,477,582
Total Business-Type Long-term Obligations	<u>\$ 1,387,362,793</u>	<u>\$ 268,599,394</u>	<u>\$ 180,826,456</u>	<u>\$ 1,475,135,731</u>	<u>\$ 180,757,483</u>

Claims and benefits payable of the governmental activities are primarily liabilities of the General Fund for health and welfare benefits and the Environmental Quality Special Revenue Fund for claims associated with damages from prior mining activities. Compensated absences are payable by the funds in which they are incurred and are primarily the General Fund, the Board and Regulatory Special Revenue Fund, the Game and Fish Special Revenue Fund, and the Computer Technology Internal Service Fund. Revenue bonds will be liquidated by Debt Service Fund. The net OPEB obligation is partially funded by the retirees prefunded health insurance fund. In the business-type activities, the claims and benefits payable are primarily liabilities of the Workers' Compensation Insurance and Wyoming Health Insurance Funds. The inclusion of Deferred Interest Payable is the result of interest on outstanding bonds being deferred until the bonds mature.

Department of Transportation

The following table represents the changes in long-term liabilities of the DOT during the year ended September 30, 2011:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Governmental Activities:					
Compensated Absences	\$ 22,572,802	\$ 11,192,519	\$ 11,099,353	\$ 22,665,968	\$ 11,103,059

2018-2022	12,122,000	4,052,606	16,174,606
2023-2027	10,376,000	996,437	11,372,437
	<u>\$ 32,048,000</u>	<u>\$ 11,600,269</u>	<u>\$ 43,648,269</u>

Wyoming Community Development Authority

The following table represents the changes in long-term liabilities of the WCDA during the year ended June 30, 2012:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Business-Type Activities					
Housing Revenue Bonds	<u>\$ 1,255,149,326</u>	<u>\$ 216,842,508</u>	<u>\$ 264,526,272</u>	<u>\$ 1,207,465,562</u>	<u>\$ 79,845,000</u>

A. Capital Leases

The State has entered into various leases and lease purchase agreements for equipment that have been accounted for as capital leases in accordance with generally accepted accounting principles. Lease contracts are required by law to contain a fiscal funding clause indicating continuation of the lease is subject to funding by the Legislature.

Future minimum lease payments under capital leases, for the State's governmental and business-type activities and the University as of June 30, 2012, are as follows:

Year Ending June 30th	Governmental Activities	Business-Type Activities	University of Wyoming
2013	\$ 296,311	\$ 0	\$ 151,131
2014	174,662	0	151,131
2015	158,390	0	151,131
2016	104,149	0	22,664
2017	33,350	0	0
Total Minimum Payments	<u>766,862</u>	<u>0</u>	<u>476,057</u>
Less Interest	<u>227,691</u>		<u>38,496</u>
Present Value of Lease Payments	<u>\$ 539,171</u>	<u>\$ 0</u>	<u>\$ 437,561</u>

The gross cost of assets acquired under capital leases, asset class Equipment is \$1,145,583 for governmental activities with accumulated depreciation of \$634,875, and \$1,763,921 for the University of Wyoming with accumulated depreciation of \$1,747,140 in the asset class Equipment.

Capital Leases—Wyoming Business Council

The gross amount of assets recorded under capital leases as of June 30, 2012 was \$92,273 with accumulated depreciation of \$42,977. Future minimum lease payments for capital leases are as follows:

Year Ending June 30	Amount
2013	\$ 24,437
2014	24,437
2015	12,219
Total Minimum Payments	61,093
Less: interest	(7,783)
Present value of lease payments	<u>\$ 53,310</u>

B. Bonded debt**State of Wyoming**

No new bonds were issued during Fiscal year 2012. The governmental funds bonded debt reported below represents the remaining principal payable on capital facilities revenue bonds. Funds for the repayment of the principal and interest on these bonds are restricted to the federal mineral royalties distributed to the school foundation program. The following table presents the State of Wyoming capital facilities revenue bonds outstanding as of June 30, 2012:

	Series	Amount Issued	Interest Range % On Outstanding Balance	Balance June 30, 2012
Government-Wide Statements				
Capital Facilities Refunding Bonds	1992	\$ 28,750,000	3.0-6.25	\$ 12,465,000
Capital Facilities Refunding Bonds	2002	10,405,000	2.75-5.0	1,220,000
Capital Facilities Refunding Bonds	2005	23,440,000	2.5-5.0	19,595,000
Total		<u>\$ 62,595,000</u>		<u>\$ 33,280,000</u>

Future minimum payments for revenue bonds recorded in the government-wide statements of June 30, 2012 are as follows:

Year Ending June 30th	Government-Wide Statements		
	Principal	Interest	Total
2013	\$ 1,860,000	\$ 1,685,050	\$ 3,545,050
2014	2,150,000	1,590,031	3,740,031
2015	2,260,000	1,479,588	3,739,588
2016	2,375,000	1,357,256	3,732,256
2017	2,510,000	1,223,113	3,733,113
2018-2022	12,715,000	4,011,706	16,726,706
2023-2025	9,410,000	721,750	10,131,750
	<u>\$ 33,280,000</u>	<u>\$ 12,068,494</u>	<u>\$ 45,348,494</u>

University of Wyoming

Revenue bonds payable represent the remaining principal payments on bonds used for construction of facilities. Revenue from the operations of residence halls, apartments, cafeterias, dining halls, other food service facilities, bookstore and telecommunications; income from other sales and services; income from the University Permanent Land Fund and mineral royalties from the University Government Royalty Fund are pledged for the Facilities Improvement Revenue Bonds Series 2004, the Facilities Improvement Revenue Bonds Series 2005, the Revenue

Refunding Bond Series 2009, the Facilities Improvement and Refunding Revenue Bonds Series 2010, and the Facilities Improvement and Refunding Revenue Bonds Series 2011.

The proceeds of the 2011 Facilities Improvement and Refunding Revenue Bonds were used to advance refund a portion of the outstanding Facilities Improvement Revenue Bonds, Series 2004, and fund construction of a joint facility (the UW/CC Joint Facility) to be located at the University of Wyoming/Casper College Center in Casper, Wyoming.

Revenue bonds payable consist of the following at June 30, 2012:

	Series	Authorized and Issued	Interest rates	Balance June 30, 2012
Facilities Improvement Revenue Bonds	2011A	\$ 9,060,000	4.00-5.00%	\$ 8,790,000
Facilities Improvement Revenue Bonds	2011B	7,680,000	2.05-4.00%	7,680,000
Facilities Improvement Revenue Bonds	2010A	6,585,000	2.50-5.125%	5,745,000
Facilities Improvement Revenue Bonds	2010B	19,730,000	4.10-5.83%	19,730,000
Facilities Improvement Revenue Bonds	2010C	18,000,000	5.80%	18,000,000
Revenue Refunding Bonds Series 2009	2009	7,755,000	3.00-4.00%	5,685,000
Facilities Improvement Revenue Bonds	2005	16,000,000	4.25%	11,885,000
Facilities Improvement Revenue Bonds	2004	11,100,000	4.50-4.625%	1,085,000
Total		<u>\$ 95,910,000</u>		78,600,000
Original issue discount/premium				2,457,651
Total				<u>\$ 81,057,651</u>

Future minimum payments for the University's revenue bonds recorded as of June 30, 2012 are as follows:

Year Ending June 30th	University of Wyoming	
	Principal	Interest
2013	\$ 3,055,000	\$ 3,372,586
2014	3,170,000	3,260,761
2015	3,285,000	2,971,746
2016	3,405,000	2,676,100
2017	3,540,000	2,540,000

2023-2027	24,450,000	5,955,541
2028-2030	17,650,000	1,297,459
	<u>\$ 78,600,000</u>	<u>\$ 32,429,442</u>
Original issue discount premium	2,457,651	
	<u>\$ 81,057,651</u>	

University Wyoming Foundation

The Foundation issued revenue bonds in the aggregate principal amount of \$3,700,000, pursuant to an Indenture of Trust, dated November 2007, by and between the Foundation and Wells Fargo Bank, N.A. The aggregate amount includes \$1,155,000 of serial bonds and \$2,545,000 of term bonds. The proceeds were used by the Foundation to help finance the cost of constructing and equipping the Conference Center located at 22nd Street and Grand Avenue in Laramie, Wyoming. The bonds bear interest from the date of issue to maturity or earlier redemption with interest payable semi-annually on May 1 and November 1 of each year. The Foundation has made all required debt payments.

The debt service requirements for the Bonds are as follows:

Year	Principal Due November 1	Interest	Interest Rate	Annual Debt Service
2012	\$ 85,000	203,076	5.40%	\$ 288,076
2013	90,000	198,486	5.45%	288,486
2014	95,000	193,581	5.55%	288,581
2015	100,000	188,309	5.60%	288,309
2016	110,000	182,709	5.65%	292,709
2017	115,000	176,494	5.72%	291,494
2018	120,000	169,916	5.79%	289,916
2019	125,000	162,968	5.84%	287,968
2020	135,000	155,668	5.95%	290,668
2021	140,000	147,635	5.95%	287,635
2022	150,000	139,305	5.95%	289,305
2023	160,000	130,380	6.15%	290,380
2024	170,000	120,540	6.15%	290,540
2025	180,000	110,085	6.15%	290,085
2026	190,000	99,015	6.15%	289,015
2027	1,420,000	87,330	6.15%	1,507,330
	<u>\$ 3,385,000</u>	<u>\$ 2,465,497</u>		<u>\$ 5,850,497</u>

The bonds maturing on or after November 1, 2018 are redeemable by the Foundation on any date on or after November 1, 2017, in whole or in part, at a redemption price equal to 100% of the principal amount of the bonds being redeemed and accrued interest to the redemption date. The bonds maturing on November 1, 2022 and November 1, 2027 are subject to mandatory sinking fund redemptions at a redemption price equal to 100% of the principal amount thereof and accrued interest to the redemption date.

Since the Foundation no longer had an interest in the Conference Center at year end, they were required by the Bond Council to transfer funds in the amount of \$3.7 million to certain "permitted investments" to satisfy future obligations on the bonds.

Wyoming Community Development Authority

Bonds are generally payable in scheduled annual and semiannual installments and are subject to mandatory sinking fund requirements in scheduled amounts. Redemption is optional after various dates at prices ranging from 100% (par) to 102% of par. Capital Appreciation Bonds (CABs) are reported at accreted value.

The bonds of the 2010 Indenture are general obligations of the Authority, payable from any assets of the Authority, not specifically restricted to other uses. The bonds of the 1978, 1992, 1994, and 2009 Indentures are special obligations of the Authority, payable solely from the income and receipts of these indentures. All of the bonds are secured by mortgage loans and other assets of the respective indentures. Interest on outstanding bonds is generally payable either monthly or semi-annually. Certain of the variable rate debt reprises weekly or monthly based on market interest rates.

The following table presents WCDA bonds outstanding at June 30, 2012:

	Balance at June 30, 2011	Issued	Retired	Balance at June 30, 2012	Amount Due Within 1 Year

2010 Series 1 and 2, 2012 to 2030, interest at 2.25% to 4.375%, original amount issued \$34,710,000	\$ 31,970,000	\$ -	\$ 4,195,000	\$ 27,775,000	\$ 5,005,000
2012 Series 1 and 2, 2012 to 2037, interest at .4% to 4.375%, original amount issued \$49,665,000 at premium of \$177,508	-	49,842,508	-	49,842,508	1,390,000
Principal amounts of bonds outstanding 1994 Indenture Fund	929,701,075	49,842,508	155,822,899	823,720,684	24,690,000
Wyoming Homeownership Bonds 1992 Indenture Fund					
Homeownership Revenue Bonds, Series I, redeemed, issued \$24,964,754	425,746	-	425,746	-	-
Homeownership Mortgage Revenue Bonds 2009 Indenture Fund					
Homeownership Mortgage Revenue Bonds Series 2009 A, preconversion bonds, variable interest rate, original amount issued, \$193,100,000	151,100,000	-	100,200,000	50,900,000	50,900,000
Homeownership Mortgage Revenue Bonds Series 2010 A and 2009 A-1, 2012 to 2041, interest at 1% to 4.25%, original amount issued \$70,000,000 at premium of \$92,240	69,593,908	-	3,158,017	66,435,891	1,160,000
Homeownership Mortgage Revenue Bonds Series 2011 series A, 2009 Series A-2 and A-3, 2012 to 2041 interest at .95% to 4.625% , original amount issued \$87,000,000 at discount of \$62,141	-	87,000,000	2,997,142	84,002,858	1,590,000
Homeownership Mortgage Revenue Bonds Series 2011 series B, 2009 Series A-4 and A-5, 2012 to 2041 interest at .625% to 4.25% , original amount issued \$80,000,000 at discount of \$54,964	-	80,000,000	1,979,964	78,020,036	1,505,000
Principal amounts of bonds outstanding 2009 Fund Indenture	220,693,908	167,000,000	108,335,123	279,358,785	55,155,000
Total bonds payable	\$ 1,255,149,326	\$ 216,842,508	\$ 264,526,272	\$ 1,207,465,562	\$ 79,845,000

Scheduled bond principal and sinking fund requirements in each indenture for the five fiscal years subsequent to June 30, 2012, which includes in each of the respective years the bonds to be remarketed or expected to be refunded, are as follows:

	Single Family Mortgage Bonds 1978 Indenture Fund	Housing Revenue Bonds 1994 Indenture Fund	Homeownership Mortgage Revenue Bonds 2009 Indenture Fund	Totals
2013	\$ -	\$ 24,690,000	\$ 55,155,000	\$ 79,845,000
2014	-	25,605,000	4,475,000	30,080,000
2015	-	27,685,000	4,685,000	32,370,000
2016	-	28,940,000	4,900,000	33,840,000
2017	-	28,630,000	5,125,000	33,755,000

Annual debt service requirements for the five fiscal years subsequent to June 30, 2012, and for each five year segment thereafter, including the bonds to be remarketed or expected to be refunded, are as follows:

	Principal	Interest	Total Debt Service
2013	\$ 79,845,000	\$ 42,176,733	\$ 122,021,733
2014	30,080,000	41,165,068	71,245,068
2015	32,370,000	40,125,126	72,495,126
2016	33,840,000	38,935,129	72,775,129
2017	33,755,000	37,631,784	71,386,784
5 years ending 2022	187,325,000	166,270,747	353,595,747
5 years ending 2027	245,055,000	120,146,569	365,201,569
5 years ending 2032	280,920,000	70,268,280	351,188,280
5 years ending 2037	227,485,000	23,631,488	251,116,488
5 years ending 2042	57,205,000	3,042,295	60,247,295
	\$ 1,207,880,000	\$ 583,393,219	\$ 1,791,273,219

The balances above do not include net premiums, discounts, or losses on refundings in the amount of (\$414,438) that are reported as components of bonds payable.

Hedging Derivative Instrument Payments and Hedged Debt

Using rates as of June 30, 2012 and giving effect to scheduled reductions in the notional amount of the hedging derivative instruments, debt service requirements of the Authority's outstanding variable-rate debt in 2005 Series 2, 2005 Series 4, 2005 Series 7, 2006 Series 2, 2006 Series 5, 2006 Series 7, 2006 Series 9, 2007 Series 2, 2007 Series 4, 2007 Series 6, 2007 Series 8, 2007 Series 11, and 2008 Series 2 and net swap payments are as follows. As rates vary, variable-rate bond interest payments and net receipts or payments on the hedging derivative instruments will vary.

	Variable Rate Bonds		Interest Rate	Total
	Principal	Interest	Swaps (net)	
2013	\$ -	\$ 243,108	\$ 4,086,514	\$ 4,329,622
2014	-	\$ 241,932	3,893,452	4,135,384
2015	-	\$ 241,932	2,661,069	2,903,001
2016	115,000	\$ 242,908	720,853	1,078,761
2017	245,000	\$ 241,782	96,764	583,546
5 years ending 2022	10,885,000	\$ 1,168,212	148,857	12,202,069
5 years ending 2027	17,970,000	\$ 1,023,453	-	18,993,453
5 years ending 2032	22,420,000	\$ 822,185	-	23,242,185
5 years ending 2037	60,910,000	\$ 436,075	-	61,346,075
5 years ending 2042	8,715,000	\$ 18,279	-	8,733,279
	<u>\$ 121,260,000</u>	<u>\$ 4,679,866</u>	<u>\$ 11,607,509</u>	<u>\$ 137,547,375</u>

Defeased Bonds

On June 30, 2010, the Authority issued \$31,610,000 in Housing Revenue Bonds in 2010 Series 1 with an average interest rate of 3.10 percent to partially refund \$31,610,000 of outstanding 1997 Series 5, 1997 Series 6 and 7, 1998 Series 3, 1999 Series 1, and 1999 Series 4 bonds with an average interest rate of 5.33 percent. Net proceeds of \$31,610,000 were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments on the partially refunded 1997 Series 5, 1997 Series 6 and 7, 1998 Series 3, 1999 Series 1, and 1999 Series 4 bonds. As a result, the refunded 1997 Series 5, 1997 Series 6 and 7, 1998 Series 3, 1999 Series 1, and 1999 Series 4 bonds are considered to be defeased and the liability for those bonds has been removed from the balance sheet. The defeased bonds were called and cancelled by August 1, 2010.

The refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$187,813. This difference was expensed in the accompanying financial statements. The Authority completed the refunding to reduce its total debt service payments over the next 9 years by \$2.67 million and to obtain an economic gain (difference between the present values of the old and new debt service payments) of approximately \$5,100,000.

Conduit Debt

From time to time, the Authority has issued Multi-Family Housing Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of low-income multi-family housing deemed to be in the public interest. The bonds are secured by the revenues from the property financed. Neither the Authority, nor the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2012, there were two such series of Multi-Family Housing Revenue bonds outstanding, with an aggregate principal amount payable of \$22,342,344.

Reserve Requirements

The 1978 and 1994 Indentures require the Authority to place a portion of bond proceeds in bond, mortgage and special reserve accounts. As of June 30, 2012, the Authority has \$95,622,187 in these reserve accounts which exceeds the reserve requirements contained in the applicable trust indentures of \$75,169,327. The amounts reserved in these accounts are as follows:

	1978 Indenture	1994 Indenture	2009 Indenture
Bond reserve requirement	\$ 17,938,454	\$ 24,661,512	\$ 6,854,850
Mortgage reserve requirement	1,050,000	13,419,303	4,310,208
Restricted special reserve requirement	-	6,935,000	-
Total required reserves	<u>\$ 18,988,454</u>	<u>\$ 45,015,815</u>	<u>\$ 11,165,058</u>
Total cash and investments held for reserves	\$ 19,128,442	\$ 64,622,654	\$ 11,871,091

C. Net OPEB Obligation

State of Wyoming

GASB 45 requires the State to have an actuarial valuation of the post-retirement benefit plan (other than pensions). The net result of which is to identify the actuarial accrued liability, the annual required contribution and the net OPEB obligation. The retiree benefits offered by the State included in this actuarial valuation are the self-insured plans, including prescription drugs, 3 options for early retirees and 2 options for Medicare retirees. Currently, the retiree benefits are subsidized by the State based on age and years of service.

Plan Description. The State participates in a single-employer defined benefit postemployment healthcare plan, the Retiree Health Insurance Plan. The Legislature has the authority for establishing and amending the plan. This plan does not issue a separate report.

A retiree is eligible for coverage under the group insurance plan at premium rates established by the State, provided:

Application to continue coverage is made to the State within thirty-one (31) days after termination of the retiree's employment; and

The retiree has had medical coverage in effect under the group insurance plan for at least one (1) year immediately prior to the date of retirement and is eligible to receive a retirement benefit under the Wyoming Retirement System; and either:

Has attained the age of fifty (50) on the date of retirement and has at least four (4) years of service credit under the Wyoming Retirement System as an employee of one (1) of the employing entities participating in the plan; or

Has at least twenty (20) years of service credit under the Wyoming Retirement System as an employee of one (1) of the employing entities participating in the plan.

Required Monthly Contributions. Contributions are required for both retiree and dependent coverage. The State of Wyoming is currently providing a subsidy to offset the retiree's contributions for the medical insurance program. The current contribution amounts are provided here:

Pre-Medicare

\$11.50 per month per year of service,
up to a maximum of 30 years

Medicare Eligible

\$5.75 per month per year of service,
up to a maximum of 30 years

For the plan year ending June 30, 2012 there were 13,528 fully eligible active participants. The retiree's benefit description provides eligible retirees receive health care through one of three medical plans. All plans are available to those under age 65 while the Health Savings Plan is not available to those 65 and older. The actuarial valuation identified a dental benefit which is available, but does not believe there is an OPEB liability associated with this benefit since the benefit is full-contributory and there is no implicit subsidy.

GASB 45 allows the use of one of the following actuarial cost methods for the valuation: Unit Credit, Entry Age Normal, Attained Age, Aggregate, Frozen Entry Age, or Frozen Attained Age. These methods can be amortized on either a level dollar or a level percentage of earnings basis. This actuarial valuation assumes the use of the Unit Credit method with amortization on a level percentage basis, because it is believed the Unit Credit method provides the most logical correlation between accruing and expensing of retiree benefits.

Funding Policy. The State finances this program on a "pay-as-you-go" basis. The Legislature has the authority for establishing and amending the funding policy. For fiscal year 2012 the State's post-retirement plan is considered an unfunded plan. While the legislature has established a fund to account for retiree health insurance contributions, to pay explicit subsidies, for purposes of this latest actuarial evaluation the plan is considered unfunded and these dollars are not treated as an asset for this analysis. The fund had a cash balance of \$15.1 million as of June 30, 2012.

Annual OPEB Cost and Net OPEB Obligation. The State's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the State's

annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the State's net OPEB obligation:

	FY 2010	FY 2011	FY 2012
Net OPEB Obligation beginning of year	18,329,596	\$ 36,301,113	\$ 48,884,764
Annual Required Contribution (ARC)	19,121,334	20,222,476	15,486,381
Interest on net OPEB obligation	1,174,910	1,815,056	2,444,238
Adjustment to annual required contribution	4,267,513	(1,392,032)	(1,874,576)
Annual OPEB Cost	24,563,757	20,645,500	16,056,043
Less:			
Employer Contributions	6,592,240	8,061,849	7,495,820
Increase in Net OPEB Obligation	17,971,517	12,583,651	8,560,223
Net OPEB Obligation at June 30	\$ 36,301,113	\$ 48,884,764	\$ 57,444,987
Percentage of OPEB cost contributed	27%	39%	47%

The Net OPEB Obligation (NOO) is the cumulative difference between the ARC and the employer's contributions to the plan. For the fiscal year ending June 30, 2012, the NOO is projected to be \$57,444,987, and assumes the State continues on a pay-as-you-go basis (Unfunded).

The Annual Required Contribution (ARC) includes an amount to amortize the calculated unfunded actuarial liability. As of June 30, 2012, the ARC included \$15,486,381 representing the amount of amortization of the actuarial accrued liability over 30 years the maximum period allowed by GASB 45.

The *Schedule of Funded Status and Funding Progress* is presented here for the initial and subsequent valuation dates.

Actuarial Valuation Year Ended June 30	Actuarial Valuation of Plan Assets	Actuarial Accrued Liabilities (AAL)	Unfunded AAL (Funding Excess)	Funded Ratio	Covered Payroll	Funding Excess as a Percentage of Covered Payroll
	(A)	(B)	(B-A)	(A/B)	C	((B-A)/C)
2008	0	\$ 174,161,000	\$ 174,161,000	0.00%	\$ 650,776,167	26.76%
2010	0	\$ 223,827,503	\$ 223,827,503	0.00%	\$ 787,153,740	28.44%
2012	0	\$ 218,733,654	\$ 218,733,654	0.00%	\$ 804,819,529	27.18%

The Actuarial Accrued Liability (AAL) for this post retirement benefit plan as of June 30, 2012 is \$218,733,654. This represents the present value of all future expected postretirement medical payments and administrative costs which are attributable to past service.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions. Projections of benefits are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits in force at the valuation date. Actuarial calculations reflect long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Actuarial valuation date	July 1, 2011
Actuarial cost method	Projected Unit Credit
Amortization method	Level percent of pay; Open Group
Remaining amortization period	30 years
Asset valuation method	Fair value of assets
Actuarial assumptions:	
Investment rate of return/Discount Rate	5.0%
Healthcare Cost Trend Rate (HCCTR)	9.00% for 2011; decreasing 0.25% each year thereafter until reaching 5.0% in year 2027 and after
Assumed rates of increase applied to retiree premiums	Same as HCCTR
Projected salary increases	4.0% per annum

University of Wyoming

Plan description: The University of Wyoming participates in one single-employer postemployment plan, for healthcare and life insurance. The Board of Trustees (the "Board") has the authority for establishing and amending this plan. This plan does not have a separate report.

Under the healthcare plan, any employee who retires and has completed twenty-five (25) years of service with the University or has fifteen (15) years of University service immediately preceding the date of retirement shall receive a benefit of conversion of up to 960 hours of accrued sick leave to a state contribution for group health insurance. The conversion is a rate of 1.5 months of coverage for each five (5) days of sick leave (a maximum of 36 months of premiums). There are 3,022 active employees and 564 retirees participating in the plan as of July 2010, the census date used for the actuarial valuation. As of June 30, 2012, there are 3,084 active employees and 518 retirees participating in the plan.

Under the life insurance plan, any employee who retires and has completed twenty-five (25) years of service with the University or who has attained the age of 60 with fifteen (15) years of immediately preceding University service can also have a one-half of his/her life insurance premium paid by the University.

Funding policy: The University finances this program on a pay-as-you-go basis. The Board has the authority for establishing and amending the funding policy.

Annual OPEB cost and OPEB obligation: The major component of the University's annual other postemployment benefit (OPEB) cost is the annual required contribution (ARC), an amount actuarially determined in accordance with GASB Statement 45. The ARC is the sum of the normal cost and the amortization of the unfunded actuarial accrued liability. The unfunded actuarial accrued liability is amortized over the maximum allowable period of 30 years on an open basis.

The other components of the annual OPEB cost are one year's interest on the net OPEB obligation at the beginning of the year and adjustment to the ARC. The adjustment to the ARC is the discounted present value of the net OPEB obligation at the beginning of the year.

The table below shows the components of the University's annual OPEB cost for the fiscal years 2012 and 2011, the amount actually contributed to the plan, and changes in the University's net OPEB obligation:

	FY 2012	FY 2011	FY 2010
Annual Required Contribution (ARC)	\$ 2,889,200	\$ 2,889,200	2,027,000
Interest on net OPEB obligation	187,700	105,400	117,000
Adjustment to annual required contribution	(186,200)	(103,900)	97,000
Annual OPEB Cost	2,890,700	2,890,700	2,241,000
Less:			
Employer Contributions	954,800	541,100	735,000
Increase in Net OPEB Obligation	1,935,900	2,349,600	1,506,000
Net OPEB Obligation, beginning of year	5,361,600	3,012,000	1,506,000
Net OPEB Obligation, end of year	\$ 7,297,500	\$ 5,361,600	\$ 3,012,000

The University's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal years 2012 and 2011 was as follows:

	FY 2012	FY 2011	FY 2010
Annual OPEB Cost	\$ 2,890,700	\$ 2,890,700	2,241,000
Percentage of annual OPEB cost contributed	33.30%	18.70%	32.80%
Net OPEB obligation	7,297,500	5,361,600	3,012,000

Funded status and funding progress: As of July 1, 2010, the actuarial valuation date, the actuarial accrued liability for benefits was \$22,742,900, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) for the year ended June 30, 2011 was \$178,598,848, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 12.7%.

As of July 1, 2008, the prior actuarial valuation date, the actuarial accrued liability for benefits was \$15,130,000, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) for the year ended June 30, 2009 was \$168,254,382, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 9%.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Methods and assumptions: Projections of benefits are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits in force at the valuation date. Actuarial calculations reflect long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Significant methods and assumptions were as follows:

Valuation date – July 1, 2010
Discount rate – 3.50% annual
Census data – as of July 2010

Actuarial cost method – Projected unit credit with benefits attributed from the date of hire to expected retirement age.

Amortization method – The unfunded actuarial accrued liability is amortized over the maximum acceptable period of 30 years on an open basis. It is calculated with an assumption that payroll increases by 3.5% per year.

Health care cost trend rate – The following annual trend rates are applied on a select and ultimate basis:

Benefit	Select	Ultimate
Medical	10.0%	5.0%
Dental	5.0%	5.0%

Select trends are reduced by 0.5% each year until reaching the ultimate trend.

Retiree contributions – These are assumed to increase with health care cost trend.

Retirement age – Annual retirement probabilities have been determined based on age and years of service.

Mortality – RP-2000 Table, applied on a gender-specific basis.

Termination – The rate of withdrawal for reasons other than death and retirement depend upon years of service in the first five years of employment and age thereafter. These rates are dependent on an employee's age, year of service, and gender.

Plan participation percentage – It is assumed that 95% of all future retirees and their dependents who are eligible for benefits participate in the postemployment benefit plan.

Spousal coverage – The assumed number of eligible spouses is based on the current census information.

Salary increase assumption – 3.5% per annum.

Additionally, the University contributed 1% of benefited payroll to the State as a subsidy for retiree benefits. The contributions for the years ended June 30, 2010, 2011 and 2012 were \$649,967, \$1,065,233 and \$1,089,652, respectively. This amount included \$411,014 in excess contributions for the year ended June 30, 2009. These excess contributions reduced the contributions for the year ended June 30, 2010.

NOTE 9 Lease Revenue

Lease revenue

The State possesses significant amounts of land of which the majority was received from the federal government when the Wyoming Territory was incorporated as a state. Such land is leased to third parties under leases accounted for as operating leases.

Future minimum rents receivable under these lease agreements as of June 30, 2012 are as follows:

Year Ending June 30th	Governmental Funds
2012	\$ 6,781,091
2013	6,102,982
2014	5,424,873
2015	4,746,764
2016-2021	14,240,291
	<u>\$ 37,296,001</u>
# of Grazing Leases	5,009
# of Special Use Leases	378
Total Acres Under Lease	3,551,581

NOTE 10 Pensions

State employees are eligible to participate in five different pension plans, depending on their current employment position. These plans are administered by the Wyoming Retirement System (WRS).

The Wyoming Retirement System was established in 1943 as a teachers' retirement program and amended in 1949 to incorporate State employees. Over 500 counties, municipalities, school districts and other units of government participate in the Wyoming Retirement System.

The Wyoming Retirement System administers nine defined benefit pension plans and one defined contribution plan. The defined benefit plans are all multiple employer – cost sharing plans with the exception of the Wyoming Judicial Pension Plan and the AirGuard Fire Fighters Pension Plan, which are single employer plans with 41 and 25 participants, respectively who are state employees.

1. Public Employees Pension Plan
2. Paid Firemen's Pension Plan A
3. Paid Firemen's Pension Plan B
4. State Patrol, Game & Fish Warden & Criminal Investigator Pension Plan
5. Wyoming Judicial Pension Plan
6. Law Enforcement Retirement Plan
7. AirGuard Fire Fighters Pension Plan
8. Wyoming Deferred Compensation (457) Plan
9. Volunteer Firemen's Pension Plan
10. Volunteer Emergency Medical Technician Pension Plan

The authority for establishing and amending the benefits and contribution rates rests with the Legislature of the State of Wyoming. The obligation to collect and remit the contribution rests with the member agencies of each plan. Administrative costs are deducted from the plan assets of each plan. The responsibility for the administration and operation of the first seven retirement systems and Wyoming Deferred Compensation (457) Program is vested in the Wyoming Retirement Board. The board is composed of eleven members, ten appointed by the Governor and the eleventh being the State Treasurer.

The Volunteer Firemen's Pension Plan is controlled by a separate board and administered by the director of the Wyoming Retirement System. The board consists of six members who shall be appointed by the Governor for staggered terms of three years. Each member is a volunteer fireman with a minimum of five years as a member of a volunteer fire department in the State of Wyoming.

The Volunteer Emergency Medical Technician Pension Plan is controlled by a separate board and administered by the Executive Director of the Wyoming Retirement System. The Board consists of six members who shall be appointed by the Governor for staggered terms of three years. Each member is a volunteer emergency medical technician with a minimum of five years of service as a volunteer EMT in the State of Wyoming.

The State reports all the plans administered by the Wyoming Retirement System as Pension Trust Funds. The Pension Trust Funds are presented on the accrual basis of accounting with investments valued at fair value determined, primarily, by the latest bid price or the closing exchange price at the balance sheet date.

WRS issues a stand-alone financial report. It can be obtained by writing to the Wyoming Retirement System, 6101 Yellowstone Road, Suite 500, Cheyenne, WY, 82002, or by calling 307-777-7691. The WRS fiscal year-end statements are as of December 31, which the State uses for its June 30th report.

Plan Descriptions

Public Employees Pension Plan:

The Public Employees Pension Plan is a cost sharing multiple employer defined benefit, contributory retirement plan covering substantially all employees of the State and of the Public School Systems of Wyoming. The Plan also covers employees of those political subdivisions which have elected to participate in the Plan. The AirGuard Fire Fighters Pension Plan was separated from the Plan January 1, 2011.

The Plan statutorily requires 14.12% of the participant's salary to be contributed to the Plan. Contributions consist of 7.12% of the participant's salary as employer contributions and 7.00% as employee contributions.

The amount of contributions designated as employee contributions represent the portion of total contributions that a participant retains ownership of and can elect to receive as a refund upon termination of employment. Employers can elect to cover all or a portion of the employee's contribution at their discretion.

The Public Employees Plan allows for normal retirement after four years of service and attainment of age 60. Early retirement is allowed provided the employee has completed four years of service and attained age 50 but will result in a reduction of benefits based on the length of time remaining to normal retirement age.

The Public Employees Plan provides retirement, disability and death benefits according to predetermined formulas and allows retirees to select one of seven optional methods for receiving benefits, including two optional forms of benefits: a 100% joint and survivor annuity, and a 50% joint and survivor annuity. The benefit amounts under these options are determined on an actuarially equivalent basis. State statutes provide for future annual percentage increase in benefit amounts beginning July 1, after two full years of retirement by the lesser of 3% or the cost of living adjustment determined to be actuarially sound not to exceed 3% per year. The cost of living adjustment provided to retirees is determined by the Board.

Employees terminating prior to normal retirement age can elect to withdraw all employee contributions plus accumulated interest through date of termination or, if they are vested, they may elect to remain in the Plan and be eligible for retirement benefits at age 50.

The Plan's net assets held in trust for benefits at December 31, 2011 totaled \$5.3 billion, a decrease of \$177.1 million from 2010. Additions to the Plan net assets held in trust for benefits include employer and member contributions and investment income/losses. For the calendar year 2011, member and employer contributions totaled \$235.3 million, an increase of \$34.7 million or 17.3% from 2010. Contributions increased due to the small increase in active members and the contribution rate increase, from 35,828 members in 2010 to 36,070 in 2011, along with an increase in average salary from \$48,243 to \$48,707. The Plan recognized a net investment loss of \$63.5 million for the year 2011 compared with a net investment gain of \$636 million a year earlier. This is due to the equity market.

Deductions from the Plan net assets held in trust for benefits included mainly retirement and beneficiary benefits, administrative expenses and refunds to members terminating service. For 2011, benefits totaled \$328.7 million, an increase of \$27.9 million or 9.3% a year earlier. The increase in benefits is due to the number of members retiring was greater than the number of those who became deceased. For 2011, the costs of administering the Plan's benefits totaled \$5.5 million, compared to \$3.6 million a year earlier.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. Refunds to members terminating service totaled \$15.2 million, an increase from \$13.6 million a year ago.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2012, the funded status of the Plan decreased from 84.6% at January 1, 2011 to 81.9% on January 1, 2012 due in part to assumptions used which were changed during the experience analysis and the decrease in the market value of investments. The active member payroll increased 1.6% last year, compared with a 1.8% increase the prior year. The amount by which the Plan's actuarial liabilities exceeded actuarial assets was \$1.3 billion at January 1, 2012, compared to the amount by which the Plan's actuarial liabilities exceed actuarial assets by \$1.1 billion on January 1, 2011.

State Patrol, Game and Fish Warden and Criminal Investigator Pension Plan:

The Wyoming State Patrol, Game and Fish Warden and Criminal Investigator Pension Plan provides retirement benefits to covered sworn officers of the Wyoming State Highway Patrol, law enforcement officers employed by the Wyoming State Game and Fish Department and sworn peace officers of the Division of Criminal Investigation. Member and employer contributions and earnings on investments fund benefits of the Plan.

The Plan statutorily requires participants to contribute 11.02% of their salary to the Plan and the State is required to contribute 11.33% of each participant's salary for a total contribution of 22.35%.

The Plan allows for normal retirement at age 50. The Plan provides retirement, disability and death benefits according to predetermined formulas. Terminating employees are entitled to a refund of employee contributions plus accumulated interest. If they are vested they may elect to remain in the Plan and be eligible for retirement benefits at age 50. The State statutorily provide for future annual percentage increase

in the benefit amounts beginning July 1, after two full years of retirement, by the lesser of 2.25% or the cost of living adjustment determined to be actuarially sound not to exceed 2.25% per year. The cost of living adjustment provided to retirees is determined by the Board.

The maximum service pension is 75% of the highest average salary. The minimum years of service requirement for a monthly benefit are six years.

The Plan net assets held in trust for benefits at December 31, 2011 totaled \$97.9 million, a decrease of \$3.2 million from 2010. Additions to the Plan net assets held in trust for benefits include employer and member contributions and investment income/losses. For the calendar year 2011, member and employer contributions totaled \$5.3 million, an increase from 2010 of \$183,578 or 3.6%. Contributions increased due to an increase in the average salary per member from \$73,741 to \$76,698. The Plan recognized a net investment loss of \$1.2 million for the year 2011 compared with net investment gain of \$11.7 million a year earlier. This is due to the equity market.

Deductions from the Plan net assets held in trust for benefits included mainly retirement and beneficiary benefits, administrative expenses and refunds to members terminating service. For 2011, benefits totaled \$7.1 million, an increase from \$6.5 million or 9.9% a year earlier. For 2011, the costs of administering the Plan's benefits totaled \$72,991 compared to \$48,843 a year ago. Refunds to members terminating service and requesting a refund totaled \$366,168, an increase from \$316,269 a year ago.

An actuarial valuation of the Plan asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2012, the funded status of the Plan decreased from 84.1% at January 1, 2011 to 79.5% at January 1, 2012. The amount by which the Plan's actuarial liabilities exceeded actuarial assets was \$27.3 million at January 1, 2012, compared to the amount by which the Plan's actuarial liabilities exceeded actuarial assets by \$20.2 million at January 1, 2011.

Paid Firemen's Pension Plan A:

The Paid Firemen's Pension Plan A is a cost sharing multiple employer defined benefit, contributory retirement plan covering paid firemen who were employed prior to July 1, 1981 and who elect to participate.

The Plan statutorily required participants to contribute 8% of their salary to a maximum not to exceed the salary of a Firemen First Class. Employers were required to contribute 21% of the salary. Effective April 1, 1997, required contributions have been suspended as the Plan has been determined to be actuarially overfunded. In 2008, actuaries determined the funding level to be at less than 100%. This Plan is being reviewed to determine the appropriate measures to take to ensure this plan is adequately funded, as it is a closed Plan.

The Plan statutorily provides retirement, disability, and death benefits according to predetermined formulas. The Plan also statutorily provides for an annual percentage increase in the benefit amounts beginning in the year following twelve (12) months of payments by at least 3%. The cost of living adjustment provided to retirees is determined by the Board. In the event the current actuarial valuation indicates the market value of the assets is greater than one hundred fifteen percent (115%) of the actuarial liabilities, the Board may increase the benefits by an amount determined affordable by the actuary, but not greater than five percent (5%) of the benefit. Participants may withdraw from the Plan at any time and receive refunds or participant contributions without interest.

The Plan net assets held in trust for benefits at December 31, 2011 totaled \$139.4 million, a decrease of \$15.4 million from 2010. Additions to the Plan net assets held in trust for benefits include only investment income. This Plan is a closed plan and the Board suspended contributions in April 1997. The Plan recognized a net investment loss of \$1.4 million for the year 2011 compared with a net investment gain of \$18.3 million a year earlier. This is due to the equity market.

Deductions from the Plan net assets held in trust for benefits included mainly retirement and beneficiary benefits and administrative expenses. For 2011, benefits totaled \$13.9 million, an increase from \$13.6 million or 1.8% a year earlier. The benefits continue to increase due to a 3% COLA in the current year. For 2011, the costs of administering the Plan's benefits totaled \$91,234 compared to \$64,054 a year ago. There were no refunds to members. As of July 1, 2001, all members of the Plan were eligible for a service retirement.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2012, the funded status of the Plan was 78.4% compared to 85.6% at January 1, 2011. The amount by which the Plan's actuarial liabilities exceeded actuarial assets was \$42.3 million compared with actuarial liabilities exceeding actuarial assets by \$28.2 million one year ago.

Paid Firemen's Pension Plan B:

The Paid Firemen's Pension Plan B is a cost sharing multiple employer defined benefit, contributory retirement plan covering paid firemen who were employed after July 1, 1981.

The Plan statutorily requires participants to contribute 8.5% of their salary to the Plan and the employer is required to contribute 12% of each participant's salary.

The Plan provides retirement, disability and death benefits according to predetermined formulas. The Plan also statutorily provides for a percentage increase in the benefit amounts beginning July 1 after one full year of retirement, by the lesser of 3% or the cost of living as determined to be actuarially sound not to exceed 3% per year. The cost of living adjustment provided to retirees is determined by the Board. Participants may withdraw from the Plan at any time and receive refunds of participant contributions without interest.

The Plan net assets held in trust for benefits at December 31, 2011 totaled \$80.2 million, an increase of \$1.6 million from 2010. Additions to the Plan net assets held in trust for benefits include employer and member contributions and investment income. For the calendar year 2011, member and employer contributions totaled \$4.6 million, an increase from 2010 of \$154,447 or 3.4%. The Plan recognized a net investment loss of \$961.5 thousand for the year 2011 compared with a net investment gain of \$8.9 million a year earlier. This is due to the equity market.

Deductions from the Plan net assets held in trust for benefits included mainly retirement and beneficiary benefits, administrative expenses and refunds to members terminating service. For 2011, benefits totaled \$2,011,330, an increase from \$1,642,615 or 22.4% a year earlier. For 2011, the costs of administering the Plan's benefits totaled \$52,758 compared to \$32,796 a year ago. Refunds to members during 2011 totaled \$38,274 compared to \$38,241 a year earlier.

An actuarial valuation of the Plan asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2012, the funded status of the Plan decreased from 115.7% at January 1, 2011 to 109.4% at January 1, 2012. The amount by which the Plan actuarial assets exceeded actuarial liabilities was \$7.4 million at January 1, 2012, compared to the Plan actuarial assets exceeding actuarial liabilities by \$11.1 million at January 1, 2011.

Wyoming Judicial Pension Plan:

The Wyoming Judicial Pension Plan is a single employer defined benefit, contributory plan covering any Justice of the Supreme Court, District Judge or County Court Judge appointed to any of these offices on or after July 1, 1998, and with no prior service as a Justice of the Supreme Court or District Judge at the time of the appointment. The Plan also covers any Justice or Judge who elects to participate.

The Plan statutorily requires participants to contribute 9.22% of their salary to the Plan and the employer is required to contribute 14.50% of each participant's salary.

The Plan statutorily provides retirement and death benefits according to predetermined amounts primarily determined by age and years of service of the participant. State Statute provides for future annual percentage increase in the benefit amounts beginning July 1, after one full year of retirement by the lesser of 3% or the cost of living determined to be actuarially sound not to exceed 3% per year. The cost of living adjustment provided to retirees is determined by the Board. Participants may withdraw from the Plan at any time and receive refunds of participant contributions plus accumulated interest.

The plan net assets held in trust for benefits at December 31, 2011 totaled \$15.6 million, an increase of \$308,940 from 2010. Additions to the Plan net assets held in trust for benefits include employer and member contributions and investment income. For the calendar year 2011, member and employer contributions totaled \$1,103,550, an increase from 2010 by \$18,360 or 1.7%. The plan recognized a net investment loss of \$174,821 for the year ending 2011 compared to a net investment gain of \$1.7 million a year earlier. This is due to the equity market.

Deductions from the plan net assets held in trust for benefits included mainly retirement and beneficiary benefits, administrative expenses and refunds to members terminating service. For 2011, benefits totaled \$610,572, a decrease from \$624,150 or 2.2%. For 2011, the cost of administering the plans assets totaled \$9,217 compared to \$5,762 a year ago. There were no refunds to members in 2011.

An actuarial valuation of the Plan's asset and benefit obligations performed annually. At the date of the most recent actuarial valuation, January 1, 2012, the funded status of the plan decreased from 108.5% at January 1, 2011 to 107.0% at January 1, 2012. The amount by which the plan actuarial assets exceeded actuarial liabilities was \$1.1 million at January 1, 2012, compared to the Plan actuarial assets exceeding actuarial liabilities by \$1.3 million at January 1, 2011.

The actuarial methods and assumptions for the Judicial Pension Plan are presented here:

Valuation Date	January 01, 2012
Actuarial Cost Method	Individual Entry Age Normal Level
Amortization Method	Level percent open
Remaining amortization period	30
Asset valuation method	Actuarial value equals adjusted market value
Actuarial assumptions:	
Investment rate of return	8.00%
Projected salary increases	4.50%
Cost of living adjustments	3.00%
Assumed inflation rate	3.50%

Although the actuarial valuation is performed using the assumption for cost of living adjustments for each fund, these assumptions are not necessarily affordable in the long run. The valuations are based on current actuarial valuations, on current asset levels, on 8% future returns and on future demographic changes as assumed. Therefore, the actual cost of living adjustments have been recommended by the System's actuary as affordable and will be paid July 1, 2012 as follows: for the Judicial Pension Plan 0.00%.

Law Enforcement Pension Plan:

The Wyoming Law Enforcement Pension Plan is a cost sharing multiple employer defined benefit, contributory plan covering any county sheriff, deputy county sheriff, municipal police officer, Wyoming correctional officer, Wyoming law enforcement academy instructor, University of Wyoming campus police officer, detention officer, probation and parole agent, or dispatcher for law enforcement agencies and certain investigators of the Wyoming Livestock Board.

The Plan statutorily requires participants to contribute 8.6% of their salary to the Plan and the employer is required to contribute 8.6% of each participant's salary.

The Plan statutorily provides retirement, disability and death benefits according to predetermined amounts primarily determined by salary, age and years of service of the participant. The Plan also statutorily provides for a percentage increase in the benefit amounts beginning July 1, after two full years of retirement. State Statutes provide for future annual percent increases in the benefit amount to be the greater of the cost of living as determined by the Board or the percentage determined actuarially sound by the System's actuary, up to 2% each year. Participants may withdraw from the Plan at any time and receive refunds of participant contributions plus accumulated interest.

The Plan's net assets held in trust for benefits at December 31, 2011 totaled \$391.6 million, an increase of \$576.6 thousand from 2010. Additions to the Plan net assets held in trust for benefits include employer and member contributions and investment income. For the calendar year 2011, member and employer contributions totaled \$25.7 million, an increase from 2010 of \$102,532 or 0.4%. The Plan recognized a net investment loss of \$4.7 million for the year 2011 compared to an investment gain of \$44.8 million in 2010. This is due to the equity market.

Deductions from the Plan's net assets held in trust for benefits included mainly retirement and beneficiary benefits, administrative expenses and refunds to members terminating service. For 2011, benefits totaled \$17.9 million, an increase from \$15.8 million or 12.9%. For 2011, the costs of administering the Plan's benefits totaled \$345,446 compared to \$219,040 during 2010. There were \$2.8 million refunds in 2011 compared to \$2.8 million during 2010 or a reduction of \$30,720.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2012, the funded status of the Plan was 95.9% compared to 99.9% a year earlier. The amount by which the Plan actuarial liabilities exceeded actuarial assets was \$18.3 million compared to the plan actuarial liabilities exceeding actuarial assets by \$0.6 million a year earlier.

Volunteer Emergency Medical Technician Pension Plan:

The Volunteer EMT Pension Plan is a cost sharing multiple employer defined benefit, contributory retirement plan covering volunteer EMTs who elect to participate in the Plan. Participants are statutorily required to contribute \$12.50 monthly to the plan, although such contributions may be fully or partially paid by the agency on behalf of participants, if approved by the governing board. The Plan provides retirement and death benefits according to predetermined amounts primarily determined by entry age and years of service of the participant. Participants may withdraw from the plan at any time and receive refunds of participant contributions plus accumulated interest.

The Plan's net assets held in trust for benefit at December 31, 2011 was \$647,906 an increase of \$164,951 from 2010. Additions to the Plan net assets held in trust for benefits include employee contributions and investment income. For the calendar year 2011, member contributions totaled \$27,491; an increase from 2010 of \$3,528 or 14.7%. The Plan recognized a net investment loss of \$4,332 for the year 2011 compared to an investment gain of \$65,527 for the year earlier. This is due to the equity market.

Deductions from the Plan's net assets held in trust for benefits included administrative expenses and refunds. For 2011, the costs of administering the Plan's benefits totaled \$8,897 compared to \$6,458 a year earlier. There were no benefits paid for 2011. Refunds paid to members terminating service for 2011 was \$375.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2012, the amount by which the Plan actuarial assets exceeded actuarial liabilities was \$123,472 compared to the plan actuarial assets exceeding actuarial liabilities by \$66,297 a year earlier. The funded status at January 1, 2012 for the plan was 123.2% compared to 117.6% at January 1, 2011.

Air Guard Firefighters Pension Plan:

The Air Guard Firefighters Pension Plan is a single employer defined benefit, contributory retirement plan, covering the Air Guard Firefighters. Member and employer contributions and earnings on investments fund benefits of the Plan. The Air Guard Firefighters Pension Plan was separated from the Public Employee Pension Plan on January 2011.

The Air Guard Firefighters Pension Plan statutorily required 23.77% of the participant's salary to be contributed to the Plan. Contributions consist of 7.12% of the participant's salary as employer contributions and 16.65% as employee contributions. The amount of contributions designated as employee contributions represent the portion of total contributions. The amount of contributions designated as employee contributions represent the portion of total contributions that a participant retains ownership of and can elect to receive as a refund upon termination of employment. Employers can elect to cover all or a portion of the employee's contribution at their discretion.

The Plan's net assets held in trust for benefits at December 31, 2011 totaled \$3.4 million. Additions to the Plan net assets held in trust for benefits include employer and member contributions and investment income/losses. For the calendar year 2011, member and employer contributions totaled \$344,662. The Plan recognized a net investment loss of \$233,392 for the year 2011. This is due to the equity market.

Deductions from the Plan net assets held in trust for benefits included retirement, beneficiary benefits and administrative expenses. For 2011, benefits totaled \$36,785. For 2011, the costs of administering the Plan's benefits totaled \$3,383.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. There were no refunds paid to members terminating service for 2011.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2012, the funded status of the Plan increased from 77.3% at January 1, 2011 to 85.6% on January 1, 2012. The amount by which the Plan's actuarial liabilities exceeded actuarial assets was \$630,148 at January 1, 2012, compared to the amount by which the Plan's actuarial liabilities exceed actuarial assets of \$953,575 on January 1, 2011.

The actuarial methods and assumptions for the AirGuard Pension Plan are presented here:

Valuation Date	January 01, 2012
Actuarial Cost Method	Individual Entry Age Normal Level
Amortization Method	Level percent open
Remaining amortization period	30
Asset valuation method	Actuarial value equals adjusted market value
Actuarial assumptions:	
Investment rate of return	8.00%
Projected salary increases	4.50%
Cost of living adjustments	3.00%
Assumed inflation rate	3.50%

Although the actuarial valuation is performed using the assumption for cost of living adjustments for each fund, these assumptions are not necessarily affordable in the long run. The valuations are based on current actuarial valuations, on current asset levels, on 8% future returns and on future demographic changes as assumed. Therefore, the actual cost of living adjustments have been recommended by the System's actuary as affordable and will be paid July 1, 2012 as follows: for the AirGuard Pension Plan 0.00%.

Wyoming Deferred Compensation 457 Plan:

The Wyoming Deferred Compensation 457 Plan administered by the Wyoming Retirement System is an IRS section 457 Deferred Compensation Plan. This Plan is available as a supplemental plan to the basic retirement benefits of the Retirement System for employees of public employers who have adopted the 457 Plan. Contributions may be made into the Plan (subject to Plan and Internal Revenue Code limitations) by employees of participating employers sponsoring the Plan. Employer contributions may be made into the Plan at rates determined by the employers. There are 16,680 participants in the 457 Plan who are contributing through 251 employers.

Upon qualifying for distributions, benefits are paid out in lump sums, or as periodic benefit payments, at the option of the participant based on individual account balances and plan provisions. The 457 Plan's account balances are fully vested to the participants at the time of deposit.

Investments in the 457 Plan are individually directed by Plan participants who direct the investment of their funds among Board approved investment options of varying degrees of risk and earnings potential. Participants may transfer their funds between these options daily. Investments of the Plan are reported at fair value.

In addition to accepting employee deferrals, this Plan also accepts employer contributions on behalf of their employees, provided such contribution when added to the employees' deferred contribution does not exceed the maximum deferral permitted by the Plan. The State contributes \$20 a month per employee participating in the 457 Plan no matter the amount of the employee's contribution. The State contributed \$1,543,880 on behalf of its employees during the year ended December 31, 2011.

The Plan's net assets held in trust for Plan participants at December 31, 2011 amounted to \$387.4 million compared to \$368.3 million a year earlier. Additions to the Plan net assets held in trust for Plan participants include contributions and investment income or loss. The Plan experienced a net increase in market value of \$978,160 for the year 2011 compared to a net increase of \$31.3 million for 2010. For the year 2011, employee contributions and roll over's received totaled \$37.0 million compared to \$35.9 million for 2010. Deductions from the Plan net assets are mainly distributions to participants, and administrative expenses. A participant may request a distribution upon severance of employment, retirement, or an unforeseeable emergency as defined by the IRS Code. For 2011, distributions totaled \$18.2 million compared to \$18.4 million in distributions paid out in 2010.

The cost of the Plan is paid for primarily with administrative fees. Administrative revenue received totaled approximately \$1.9 million in 2011, which includes participant fees and rebates from investment managers,

compared to \$1.6 million in 2010. In years when there is a surplus of participant fees, it is held in trust by WRS for future Plan expenses in periods of down markets. WRS receives a minimal amount of rebates from investment companies, which are also used to fund the costs of plan administration.

In addition to administrative fees, participants also pay fund operating expenses to the fund managers depending on the funds selected. These expenses are deducted daily before share prices are valued. The Plan's record keeper maintains an individual account for each participant to which deferrals and other changes in value are credited.

Administrative expense includes contracted services with the Plan record keeper, investment consultants, as well as other management functions performed by internal employees. The cost of administering the Plan during 2011 totaled \$1,584,711 including \$790,434 in fees paid for contracted services for record keeping and consulting compared to \$1,479,744 in 2010, which included \$738,987 in fees paid for contracted services.

Volunteer Firemen's Pension Plan:

The Volunteer Firemen's Pension Plan provides retirement benefits to volunteer firemen who elect to participate in the Plan. Benefits of the Plan are funded by member contributions (\$12.50 per month), the fire insurance tax collected, and earnings on investments.

The Plan net assets held in trust for benefits at December 31, 2011 totaled \$58.4 million, a decrease of \$2.2 million from 2010. Additions to the Plan net assets held in trust for benefits include employee contributions, 50% of the gross annual tax collected on fire insurance premiums and investment income. For the calendar year 2011, member contributions totaled \$335,855, a decrease from 2010 of \$23,679 or 6.6%. The Plan recognized a net investment loss of \$652,979 for the year 2011 compared with net investment gain of \$7.0 million a year earlier. This is due to the equity market.

The tax collected on fire insurance premiums totaled \$1,649,218 in 2011 compared to \$1,598,736 received in 2010. Deductions from the Plan net assets held in trust for benefits included mainly retirement and beneficiary benefits, administrative expenses and refunds to members terminating service. For 2011, benefits totaled \$3.2 million, an increase from \$3.0 million or 8.3% a year earlier. The increase in benefits is due to the fact that there were more retirees being paid than in 2010. For 2011, the costs of administering the Plan's benefits totaled \$185,852 compared to \$121,887 a year earlier. Refunds to members terminating service and requesting a refund totaled \$79,670, a decrease from \$100,905 a year ago.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2012, the funded status of the plan decreased to 99.2% at January 1, 2012 from 104.6% at January 1, 2011. The amount by which the Plan actuarial liabilities exceeded actuarial assets was \$496,972 at January 1, 2012, compared to the amount by which the plan actuarial assets exceeded actuarial liabilities by \$2.8 million at January 1, 2011.

The State's contributions as employer are as follows:

Employer Contributions					
	Public Employees Pension Plan	WY State Hwy Patrol, G&F Warden, and Criminal Investigator Retirement Plan	Wyoming Judicial Retirement Plan	Wyoming Law Enforcement Retirement Plan	Wyoming AirGuard Fire Fighters
Year Ended Dec. 31	Annual Required Contribution	Annual Required Contribution	Annual Required Contribution	Annual Required Contribution	Annual Required Contribution
2009	44,874,453	5,009,928	1,052,097	4,998,749	0
2010	45,451,229	4,669,532	993,228	5,917,149	0
2011	58,732,876	5,320,881	1,103,550	6,764,614	164,217

Contributions have been fully funded in the current and prior years. And equals the required contributions for the years then ended.

University of Wyoming

Pension Plans

Eligible University employees have the option of participating in either the Wyoming Retirement System (WRS) or Teachers Insurance and Annuity Association-College Retirement Equities Fund (TIAA-CREF). WRS is a cost-sharing, multiple-employer public employee defined benefit, contributory retirement plan. TIAA-CREF is a defined contribution plan.

Participants in WRS who retire at age 60 with four years of credited service are entitled to a retirement benefit according to predetermined formulas and are allowed to select one of five optional methods for receiving benefits. Early retirement is allowed provided the employee has completed four years of service and attained the age of 50, but will result in a reduction of benefits based on the length of time remaining to normal retirement age. WRS also provides death and disability benefits. Benefits are established by State statutes. The WRS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing to Wyoming Retirement System, 6101 Yellowstone Road, Suite 500, Cheyenne, Wyoming 82002 or by calling (307) 777-7691.

As of July 1, 2010, statutes require that 14.12% of the covered employee's salary be contributed to the plan, one-half by the employee and the other half by the employer. The University contributes 12.69% of the employee's gross salary funded primarily through appropriations from the State Legislature. The employee contributes the remaining 1.43%. For the years ended June 30, 2011 and 2012, the University's contributions to the WRS were \$7,292,945 and \$7,517,552, respectively. Prior to July 1, 2010, the required contribution was 11.25% of which the University contributed the entire amount. The required contribution for the year ended June 30, 2010 was \$6,671,042.

As previously noted, some employees opt to participate in TIAA-CREF, which is a defined contribution plan. In defined contribution plans, benefits depend solely on amounts contributed plus investment earnings. As of July 1, 2010, TIAA-CREF also requires contributions of 14.12% of participating employees' salaries. Like WRS, statutes require that contributions be funded by both the employer and employee, and the University has elected to fund 12.69% of the employee's gross salary with the employee contributing the remaining 1.43%. Contributions are funded as accrued and are immediately vested. The contributions for the years ended June 30, 2011 and 2012 were \$14,575,561 and \$14,753,805, respectively. Prior to July 1, 2010, the required contribution was 11.25% of which the University contributed the entire amount. The required contribution for the year ended June 30, 2010 was \$13,086,902.

NOTE 11 Risk Management

Self-Insurance Funds

The State maintains two self-insurance plans: the State self-insurance program and the State employee medical, life, and dental insurance programs. Each of these plans is reported as an internal service fund. The University administers its own risk management program and reports a liability in the University funds. A brief description of each of the plans is provided below:

A. State Self Insurance Fund

Wyoming statute 1-41-103 created the State Self Insurance Fund to handle liability insurance claims brought against the State. The range of losses financed includes general liability, automobile liability, police liability, medical malpractice liability and civil rights. In addition, this plan covers peace officers liability for the political subdivisions within Wyoming. The State generally does not maintain reserves; losses are covered by a combination of appropriations from the State's general fund, Department of Transportation, Game & Fish Commission, and by assessing other State agencies a deductible of up to \$2,500 per claim when the agency is determined to be liable for the loss. The estimated liability for claims against the State including incurred but not reported claims is approximately \$5.8 million as of June 30, 2012. The claims liability estimate is based on an analysis of past, current and future estimated loss experience, a review of pending claims, an actuarial evaluation. Because actual claims liabilities depend on such factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liabilities may not result in an exact amount. Claims liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. The above estimate is not discounted and includes all claims adjustment expenses estimated necessary to properly settle the claim. There is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2012.

B. Group Insurance Fund

The State co-administers employee medical, life, and dental insurance with a third party administrator. The State self-insures medical costs and assumes all the risk for claims incurred by plan participants. Insurance providers solely administer the life insurance plan. The State does not retain any risk of loss under the life insurance plan, as the insurance provider of the plan assumes all the risk for claims incurred by the participants.

During the year ended June 30, 2012, the State contributed up to 85% a month for insurance premiums for each covered participant towards these plans. Participants are responsible for paying premium charges in excess of this amount. As of June 30, 2012, the medical claims liability including incurred but not reported claims is approximately \$17.5 million. A liability is recorded in the accompanying financial statements for the estimated claims liability. The claims liability estimate is based on an analysis of past, current and future estimated loss experience, a review of pending claims, an actuarial evaluation. Because actual claims liabilities depend on such factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liabilities may not result in an exact amount. Claims liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. The above estimate is not discounted and includes all claims adjustment expenses estimated necessary to properly settle the claim. There is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2012. No significant reductions in insurance coverage were made in the last fiscal year.

C. University Risk Management

The University is exposed to various risks of loss including torts, theft of, damage to, or destruction of assets and educators liability. The University has purchased commercial insurance for these risks that include insurance for property and liability. Settlements have not exceeded insurance coverage in any of the last three fiscal years. The uninsured risk retention or deductible per occurrence ranges from \$50,000 to \$100,000 for liability and from \$1,000 to \$250,000 depending on the type of liability or property involved.

A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable.

The following is a reconciliation of the unpaid claims liability:

	State Self Insurance Fund		Group Insurance Fund		University of Wyoming	
	2011	2012	2011	2012	2011	2012
Claims Liability at Beginning of Fiscal Year	\$ 6,559,759	\$ 6,840,604	\$ 13,485,839	\$ 15,655,163	\$ 750,000	\$ 750,000
Current Year Claims & Changes in Estimates	5,601,996	2,044,227	192,522,827	226,282,074	150,177	104,408
Claim Payments	(5,321,151)	(3,054,826)	(190,353,503)	(224,422,210)	(150,177)	(104,408)
Claim Liability at End of Fiscal Year	\$ 6,840,604	\$ 5,830,005	\$ 15,655,163	\$ 17,515,027	\$ 750,000	\$ 750,000

The University included their unpaid claims liability under the caption of "Accounts Payable."

Insurance Enterprise and Public Entity Risk Pools

The State administers three insurance enterprises: workers' compensation insurance, the Wyoming health insurance pool, and the mine subsidence insurance which are reported in enterprise funds. None of these funds have acquisition costs, therefore, no cost is amortized for the period. Unpaid claims and claim adjustment expenses are estimated based on the ultimate cost of settling the claim, including the effects of inflation and other social and economic factors. These funds use the accrual basis of accounting. The insurance enterprises do not consider anticipated investment income in determining if a premium deficiency exists. A brief description of the insurance enterprises and the pool are provided below:

- A. Workers' Compensation Insurance Fund-** Wyoming statute 27-14-101-806 created the Wyoming Workers' Compensation Act (Act). This Act requires all employers engaged in extra hazardous employment to obtain liability coverage for the payment of benefits to employees for job related injuries and diseases through the Workers' Compensation Insurance Fund. Eligible employers complying with the provisions of the Act are generally protected from suit by employees. Employers not required by the Act to participate in this program may elect to do so at their option. As of June 30, 2012, there were 18,373 employers insured under this Act.

The fund is used to account for the State's Workers' Compensation program that provides time-loss, medical, and disability payments to qualifying individuals sustaining work-related injuries, or death benefits to dependent families if the worker were to die from such injuries. To fund these benefits, the State charges employers' monthly premiums based on rates it establishes for each employment classification, the employer's experience rating, and the total payroll for covered employees in each particular classification. The Act requires that rates be established at a level to maintain an actuarially sound insurance program. The State is working towards funding the workers' compensation liabilities by 2013 through premium rate adjustments.

An actuarial study has estimated the liabilities and the ultimate cost of settling claims that have been reported but not settled and of claims that have been incurred but not reported. Because actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liabilities, claims adjudication, and judgments, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are re-computed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic, legal and social factors.

A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. The Department of Employment uses an undiscounted Workers' Compensation Insurance Fund balance when determining industry base rates for employer premiums. For consistency between the Department of Employment's Workers' Compensation Insurance Fund balance used for rate setting purposes and Workers' Compensation Insurance Fund balances shown in the CAFR, the Workers' Compensation Insurance Fund balance is shown at an undiscounted value. At June 30, 2012, approximately \$1,458 million of claims and adjustment expenses have been accrued. The State does not use reinsurance agreements, therefore the State retains full liability as the direct insurer.

B. Wyoming Health Insurance Fund

This fund is comprised of two programs: the Wyoming Health Insurance Pool and the Wyoming Small Employer Health Reinsurance Program.

Wyoming Health Insurance Pool (WHIP)

Wyoming statute 26-43 created the Wyoming Health Insurance Pool (Pool) for the purpose of providing health insurance for State residents. Qualifying State residents who are denied insurance by private carriers or leave coverage because of excessively high premiums or restrictive coverage may join the Pool. The Pool began providing health insurance coverage to participants on January 1, 1991. The statute creating the Pool contains a sunset provision that calls for the Pool to be terminated on July 1, 2015, unless authorization is continued. The State co-administers the Pool along with a third party insurance provider, Blue Cross Blue Shield of Wyoming; however, the Pool retains all risk of loss for claims filed by Pool participants. As of June 30, 2012, 1013 residents were covered under the Pool. A copy of the Pool's financial report may be obtained by contacting Blue Cross Blue Shield of Wyoming in writing at 4000 House Avenue, Cheyenne, Wyoming 82001.

The Pool's liability exposure per participant is a maximum lifetime benefit of \$750,000 for one Plan and \$1,000,000 for an alternate Plan. Premiums are collected from Pool participants to pay Pool expenses; however, if such premiums are insufficient to meet expenditures, the State has the authority to assess all carriers who write health insurance policies in the State to cover Pool deficits.

The estimated liability for unpaid claims and loss adjustment expense is based on data developed by the Pool's third-party administrator. Since the Pool has limited historical experience of its own, industry experience is also considered in determining the estimated liability. The liability includes estimates of the costs to settle individual claims that have been reported, plus a provision for losses incurred but not yet reported. The undiscounted liability for unpaid claims and claim adjustment expenses is \$1,200,000 at June 30, 2012.

Wyoming Small Employer Health Reinsurance Program (WSEHRP)

Wyoming statute 26-19-301, et. seq. created the Wyoming Small Employer Health Insurance Availability Act (the Act). The purposes of the Act are to 1) promote the availability of accident and health insurance coverage to small employers, 2) to provide reinsurance as a mechanism to fairly share risk, and 3) to improve the efficiency and fairness of the small employer group accident and health insurance marketplace.

The WSEHRP (the Program) is created under Wyoming Statute 26-19-307. The program is funded by reinsurance premiums paid by participating carriers and assessments against all authorized insurers who pay premium taxes to the State of Wyoming. Each year the Program's net earnings are determined. If net earnings are negative (i.e. the Program has operated at a loss), the loss is recovered by assessments against all authorized insurers. An independent board determines each authorized insurer's assessment in accordance with statutory provisions. As of June 30, 2012, the Program is reinsuring 164 lives. Three whole group plans reinsure 5 lives and 146 individual plans reinsure 159 lives. A copy of the Pool's financial report may be obtained by contacting the Wyoming Department of Insurance at 106 East 6th Avenue, Cheyenne, Wyoming 82002.

The estimated liability for unpaid claims and loss adjustment expense is based on data maintained by the Program's reinsurance intermediary manager, Pool Administrators, Inc., Wethersfield, CT. The Program's claim loss reserve is made up of two amounts, one being claims payable and the other being claims incurred but not reported (IBNR). Claims payable are claims that have been submitted by carriers to the administrator for reimbursement but, as of the date of the financial statements, have not been paid. Claims incurred but not reported are estimated claims, based on the past experience of the Program, that have been incurred by the carriers participating in the Program that have not yet been submitted to the administrator for reimbursement. The basis for this estimate is a loss ratio applied to current earned premium. The Program is currently estimating incurred claims at a rate of 600% of premium. As of 12/31/2011, the claims payable balance was \$765,463 and the IBNR was estimated at \$7,948,643 for a total loss reserve balance of

\$8,714,106. As of 6/30/2012 the claims payable balance was \$637,620 and the IBNR was estimated at \$10,714,055 for a total loss reserve balance of \$11,351,675.

- C. Subsidence Insurance** - Wyoming statute 35-11-13 requires the Department of Environmental Quality (DEQ) to administer an insurance program to cover mine subsidence loss to specified structures in the State. The Wyoming Mine Subsidence Insurance Program provides insurance to any individual whose home or business exists, over or near, any underground mine in the State. On October 29, 1986, the DEQ received a funding grant from the Federal Department of Interior's Office of Surface Mining to assist with administrative and claim costs. A grouting program was initiated in Rock Springs in 1986. A cement type of material is used to fill those abandoned mines subject to the greatest risk of subsidence. As of June 30, 2012, there were 143 policyholders with in-force premiums. The insured value of these policies is \$16,776,509. There were no unresolved or pending claims as of June 30, 2012. This program had an actuarial valuation performed in 2009 that is used to determine that premiums charged to participants are sufficient to meet anticipated claim expense. This evaluation concluded that current premium rates are more than adequate to cover expected claims and expenses of the program.

The following table summarizes current period activity for the State insurance enterprise funds:

	Workers' Compensation Insurance Fund		Wyoming Health Insurance Fund	
	2011	2012	2011	2012
Claims Liability at Beginning of Fiscal Year	\$ 1,228,977,642	\$ 1,372,425,044	\$ 11,929,162	\$ 11,383,630
Incurring Claims & Claim Adjustment Expenses:				
Provisions for Insured Events of the Current Year	212,062,345	236,708,738	19,257,111	16,734,188
Increase in Provision for Insured Events of Prior Years	98,164,000	16,398,000	(4,323,888)	(5,099,586)
Total Incurred Claims & Claim Adjustments Expense	310,226,345	253,106,738	14,933,223	11,634,602
Claims & Claim Adjustment Expenses Attributable to Insured Events of Current Year	(46,354,199)	(44,034,348)	(12,174,384)	(7,487,884)
Claims & Claim Adjustment Expenses Attributable to Insured Events of Prior Year	(120,424,744)	(123,217,757)	(3,304,371)	(2,978,673)
Total Payments	(166,778,943)	(167,252,105)	(15,478,755)	(10,466,557)
Total Unpaid Claims & Claim Adjustment Expenses at End of Fiscal Year	\$ 1,372,425,044	\$ 1,458,279,677	\$ 11,383,630	\$ 12,551,675

NOTE 12 Governmental Fund Balances

A. Governmental Fund Balance Classifications

Implementation of GASB-54, *Fund Balance Reporting and Governmental Fund Type Definition*, brought about new classifications of fund balance for the governmental funds. The State's fund balances are now classified in a hierarchical structure with the following classifications: (1) Nonspendable—This classification represents fund balance that can never be spent (corpus) or fund balance that are not in spendable form (inventory, prepaids), (2) Restricted—this classification includes those balances that are legally restricted for specific purposes due to constraints that are externally imposed by creditors, grantors, contributors, laws or regulations of other governments, (trust agreement) or enabling legislation, (3) Committed—refers to fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the legislature and can only be removed by an action of the legislature, (4) Assigned—this fund balance classification includes amounts that have been constrained to being used for a specific purpose, but are neither restricted or committed, (5) Unassigned—fund balance is that portion of fund balance that is available for any purpose the government chooses.

B. Stabilization Fund (Rainy Day Fund)

GASB 54 states a government may set aside amounts for use in emergency situations or when revenue shortfalls or budgetary imbalances arise. Those amounts are subject to controls that dictate the circumstances under which they can be spent. Governments may have formal arrangements to maintain amounts for budget or revenue stabilization, working capital needs, contingencies or emergencies, and other titled purposes. The authority to set aside those amounts generally comes from statute, ordinance, resolution, charter, or constitution.

For purposes of reporting fund balance, stabilization is considered a specific purpose as defined in GASB 54 and should be reported as restricted or committed if they meet the above criteria. Because the State does not have a formal stabilization arrangement, the fund balance of the State's Rainy Day Fund—the Legislative Stabilization Reserve Account (LSRA) is presented in the General Fund as unassigned fund balance.

C. Minimum Fund Balance Policy

The State does not have a minimum fund balance policy. It is current policy for the general fund that at the end of each biennium, the unobligated, unspent portion of fund balance is swept to the LSRA account. Similarly, the State's Budget Reserve Account is swept to the LSRA as well, except for cash representing five percent of the total general fund revenues collected.

D. Policy on use of unrestricted fund balance

The State does not have a formal policy on the use of unrestricted fund balance and therefore adopts GASB 54 recommendation that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The State does not have a formal policy on the use of funds when both restricted and unrestricted resources are available for use, it is assumed that restricted resources are used first, then unrestricted resources as they are needed.

Below is a presentation of the fund balance classifications for the governmental funds:

	General	Foundation	Common	Permanent	American	Non-Major	
	Fund	Program	School	Mineral	Recovery and	Governmental	
	Fund	Fund	Land	Trust	Reinvestment	Funds	Totals
Fund Balance							
Nonspendable:							
Corpus	0	0	2,478,992,159	5,488,140,128	0	624,140,995	8,591,273,282

Note 13 Commitments and Contingencies

Federal Grants

Grant monies received and disbursed by the State are for specific purposes and are subject to audit by the grantor agency. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon prior experience and current knowledge, the State does not believe that such disallowances, if any, would have a material effect on the financial position or results of operations of the State.

School Capital Construction Commitments

As of June 30, 2012, the State has signed agreements for contracts/obligated amounts—totaling approximately \$352.1 million with school districts throughout the state that commit the State to provide funding for school district capital construction projects. As of June 30, 2012, approximately \$95.3 million was unexpended under these agreements.

Investment Commitments

The State has committed to provide funding to certain private equity and real estate investments. The State's total commitment amount is \$545 million. This includes \$512 million in capital for investment and up to \$33 million for management fees. The State had invested \$353.9 million in these investments at June 30, 2012.

Encumbrances

The State of Wyoming utilizes encumbrance accounting to identify fund obligations.

The following shows encumbrance within the restricted and committed fund balances of the governmental funds for the fiscal year ended June 30, 2012. These encumbrances have outstanding amounts of \$500,000 or greater.

General Fund	201,018,710
American Recovery & Reinvestment Act	1,523,365
Foundation Program Fund	5,674,496
NonMajor Governmental Funds	367,052,101

Wyoming Retirement System

At December 31, 2011, the System was committed to the future purchase of investments at an aggregate cost of \$198,558,286. In addition, the System is an owner in private equities which has committed capital, draw capital and remaining capital of \$100,803,006.

The System leased a commercial office facility, under a non-cancelable lease agreement. Future minimum annual rental commitments are \$178,968 for 2011-2012, \$190,492 for 2012-2013 and 2013-2014. The lease agreement expires on June 30, 2014.

Wyoming Business Council

Loans approved by the Council's Board of Directors but undistributed as of June 30, 2012 totaled \$4,920,292. These will be funded by a combination of State appropriations, net restricted assets and Federal revenues.

Wyoming Business Council—Transactions with the State

The Council pays for services provided by the State for certain phone service, computer processing, motor pool vehicles, State plane usage, loan exam services and central mail. Total amounts expended for these services for the year ended June 30, 2012 were \$253,168.

The Wyoming Office of Tourism pays the Council for certain support services in the areas of fiscal and contract compliance, human resources, payroll and information technology. The total amount received for these services for the year ended June 30, 2012 was \$150,000.

The Council has entered into several agreements with the University of Wyoming (UW) to fund various projects which include the Market Research Center, Research Product Center, Manufacturing-Works, Small Business Development Centers, Small Business Innovation Research, Procurement Technical Assistance Center, Technology Business Center and Small Business Technology Transfer programs. Total amounts expensed to UW for the year ended June 30, 2012 were \$2,891,559, of which \$358,487 is included in accounts payable as of June 30, 2012. The Council is committed for amounts remaining under these agreements in the amount of \$255,440 as of June 30, 2012.

Wyoming Business Council—Other commitments and contingencies

The Council has contracted and/or committed funds for various projects, services and other items arising in the normal course of operations. The amounts remaining to complete these commitments totaled \$41,624,952 as of June 30, 2012. These commitments will be funded by a combination of restricted net assets, State appropriations and Federal revenues.

Construction and Software Development Commitments

As of June 30, 2012, there were 178 uncompleted projects. The remaining commitment to complete these projects totaled approximately \$576,556,793. The completion costs will be financed by a combination of State appropriations and federal grants. The following table shows these construction projects summarized to an agency level.

Agency	Appropriation Amount	Expended Amount	Remaining Encumbrance	Remaining Balance to Obligate
State Auditors Office Software Development	\$ 851,047	\$ 694,274	\$ 133,323	\$ 23,450

	<u>\$ 674,162,246</u>	<u>\$ 97,605,453</u>	<u>\$ 50,905,135</u>	<u>\$ 525,651,658</u>

University of Wyoming

The University has contracted and/or appropriated funds for the planning and construction or maintenance of several facilities with an aggregate cost of approximately \$268,352,402. As of June 30, 2012, the remaining commitment to complete these projects totaled approximately \$35,664,456. These completion costs will be financed by a combination of State appropriations and private gifts and grants.

The University is a defendant in several lawsuits including various claims related to its normal operations. The University believes that final settlement of matters not covered by insurance will not materially affect its financial condition.

During the year ended June 30, 2012, the University adopted the provisions of Statement No. 60 of the Governmental Accounting Standards Board, *Accounting and Financial Reporting for Service Concession Arrangements*. On July 1, 2011, the University entered into an agreement with an unrelated entity that provides for the construction of a 332-bed student housing facility on land owned by the University Bison Run Village. The agreement expires after 32 years at which time ownership of the facility reverts to the University. The University will manage the facility for the owner over the term of the agreement.

The total cost of the facility will be approximately \$18,500,000 of which approximately \$3,200,000 was provided by the University and the remaining amount borrowed by the owner. As of June 30, 2012, approximately \$8,619,509 of construction was completed and capitalized as construction in progress by the University. When completed in August 2012, the University capitalized the entire building cost and will depreciate over 50 years. The offsetting amount is recognized as deferred revenue and will be recognized over the life of the arrangement. The University has not guaranteed the debt of the owner.

Leases

The State is committed under various leases that are considered operating leases. The operating lease expenditures/expenses are recognized as incurred or paid.

Governmental funds rental expenditures under operating leases for the year ended June 30, 2012 were \$12,332,868. Future rental commitments for operating leases are as follows:

Year Ending June 30th	Governmental Fund Types	
2013	\$	11,362,115
2014		10,010,104
2015		4,792,759
2016		3,137,620
2017		2,477,883
Thereafter		4,688,891
	\$	<u>36,469,372</u>

Wyoming Business Council

The Council has entered into operating leases for office space and equipment. Expenditures or expenses on these leases are recognized as incurred. Total rent expenses for these operating leases for the year ended June 30, 2012 was \$179,316. Future rental payments for these operating leases are as follows:

Year Ending June 30th	Amount	
2013	\$	144,525
2014		130,094
2015		1,693
Total minimum payments	\$	<u>276,312</u>

Contingencies

Under the School District Bond Guarantee Program the Wyoming State Loan and Investment Board approved the guarantee of approximately \$3.9 million of bonds by the State through the year ended June 30, 2012. The State approved the following bonds as of June 30, 2012:

School Districts Approved	Issued Date	Issued Amount	Outstanding Bond Principle	Available for Future Guarantee
Fremont County School District #1	May 24, 2012	3,450,000	3,450,000	
Washakie County School District #2	April 15, 1999	500,000	50,000	
		\$ <u>3,950,000</u>	\$ <u>3,500,000</u>	\$ <u>296,500,000</u>

The Legislature has placed a \$300 million cap under the School District Bond Guarantee Program, of which \$296,500,000 is still available as noted above. This guarantee program only applies to refunding issues for bonds issued by school districts on or before November 1, 2001 and no longer applies to original issues after this date.

Wyoming Statute 35-11-1414, *Water Pollution from Underground Storage Tanks Corrective Action Act of 1990*, requires that the State establish a corrective action and financial responsibility account which is funded by mineral severance taxes as well as certain registration fees. In addition, this statute requires the Department of Environmental Quality to establish a prioritized list of sites contaminated by tanks and to take corrective action. As of June 30, 2012, 1,600 contaminated sites have been identified and 1,006 have been resolved. The State remediates contaminated sites as funding allows, and the statute limits the State's responsibility for clean-up costs to funding available in the corrective action accounts.

Governmental Accounting Standards Board Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations* (GASB 49) became effective for the State for the year ended June 30, 2009, requiring governmental entities to recognize a liability for the future pollution remediation costs which meet obligating events criteria defined by GASB 49. The estimated pollution remediation obligation at June 30, 2012 is \$91,235,794.

The cost of remediating the sites discussed above has been estimated by the Department of Environmental Quality and is based on their experience in the remediation of previous sites.

The State is also a party to various legal proceedings arising in the normal course of business. The State believes that the outcome of these matters will not have a material adverse impact on the State's financial position or results of operations.

Wyoming Community Development Authority

At June 30, 2012, the Authority was committed to purchase single-family mortgages aggregating approximately \$1,212,982 under the 1978 Indenture, \$198,054 under the 1994 Indenture, \$24,526,569 under the Warehouse Indenture, \$8,498,928 under various Federal Programs, \$340,479 under the Housing Trust Fund, and \$1,103,860 under the new FNMA Program.

The Authority has variable rate bonds outstanding in the 1978 Indenture of \$52,545,000 and in the 1994 Indenture of \$121,260,000. These bonds are subject to tender at par for repurchase by the Authority at the option of the bondholders; however, the Authority may remarket these bonds if they are tendered by the bondholders. As of June 30, 2012, the entire \$173,805,000 of the variable rate debt was subject to a repurchase commitment assumed by the Government Sponsored Entities (GSEs) of Fannie Mae and Freddie Mac, through a standby bond purchase agreement.

Under these agreements, the GSEs will purchase any bonds tendered by bondholders and not successfully remarketed by the settlement date, and will adjust the interest rate associated with any unremarketed bonds to a bank rate. As of June 30, 2012, no variable rate bonds were held as unremarketed bank bonds under the terms of a standby bond purchase agreement. The Authority uses a number of insurers for its mortgage receivables as noted in Note 4. The Authority requires private mortgage insurance (PMI) on some mortgages with coverage ranging from 30% to 50% of the outstanding balances. As of June 30, 2012, approximately 13% and 16% of the Authority's outstanding mortgage receivable balances were covered by PMI from Radian and Genworth, respectively.

In addition, the Authority has obtained pool insurance for its mortgage receivables. Pool insurance provides stop loss coverage of up to 5% of the covered balances with a .5% to 1% deductible. As of June 30, 2012, approximately 6% of the Authority's outstanding mortgage receivable balances were covered by pool insurance from Genworth.

Note 14 Subsequent Events

State of Wyoming

In June 2012, due to drought conditions, the State began to experience wild land fires. As of fiscal year end the State had estimated an additional \$28.7 million would be needed to fully pay for these wild land fires.

In October 2012, the State Land and Investment Board approved a bond refunding of the 2005 Capital Facility Refunding Revenue Bonds. The bonds were issued on December 4, 2012. The amount of Refunded Bonds totaled \$16,905,000 with an estimated present value savings of \$3.1 million over the bond duration, which ends in October 2024.

University of Wyoming

On July 19, 2012, the Trustees of the University of Wyoming issued Facilities Improvement and Refunding Revenue Bonds, Series 2012 for \$39,655,000 pursuant to the provisions of Wyoming Statute §21-17-402 through §21-17-450, for the purpose of providing moneys: (a) to finance, purchase, erect, alter, remodel, expand, improve, repair, furnish and equip buildings, improvements and facilities for use by the University of Wyoming, specifically (i) the renovation and construction of a performing arts complex, (ii) certain renovations and improvements to White Hall, a student residence hall, and (iii) the expansion and improvement of the Half Acre Gym, a recreation center; (b) to advance refund a portion of the Issuer's outstanding Facilities Improvement Revenue Bonds, Series 2005; and (c) to pay certain expenses in connection with the issuance of the Series 2012 Bonds. The par amount of bonds issued was \$39,655,000.

Wyoming Business Council

The Council has entered into various agreements subsequent to June 30, 2012, primarily with local governments for economic development infrastructure projects and for energy efficiency projects during the period July 1, 2012 through July 30, 2017. These agreements are valued at up to but no more than \$19,221,265. These agreements will be funded by a combination of State appropriations and Federal revenues.

Subsequent to June 30, 2012, the Council distributed \$1,500,000 out of the American Recovery and Reinvestment fund for a loan approved but undistributed as of June 30, 2012.

Wyoming Community Development Authority

On June 22, 2012, the Authority instructed its trustee to call on July 12, 2012, bonds in the amount of \$10,780,000 from the 1994 Indenture. In addition, on July 12, 2012, another \$40,845,000 of bonds in the 1994 Indenture were refunded with a portion of the proceeds from the 2012 Series 1 and 2 bonds which were issued on June 12, 2012.

On September 13, 2012, pursuant to the 1994 Indenture, the Authority replaced the Standby Irrevocable Temporary Credit and Liquidity Facility issued by Fannie Mae and Federal Home Loan Mortgage Corporation for Substitute Liquidity Facilities which are Standby Bond Purchase Agreements for \$65,000,000 with The Bank of New York Mellon and \$56,260,000 with State Street Bank.

On October 2, 2012, the Authority instructed its trustee to call on October 25, 2012, bonds in the amount of \$4,345,000 from the 1994 Indenture.

On October 2, 2012, the Authority instructed its trustee to call on December 1, 2012, bonds in the amount of \$5,840,000 from the 2009 Indenture

WYOMING RETIREMENT SYSTEM

During the 2012 Legislative budget session, three bills were passed that affected the various plans. All three pieces of legislation were Senate Files.

The first - Senate File 30 increased the contribution rate for the Highway Patrol, Game & Fish Warden and Criminal Investigator Retirement plan. The contribution rate was increased from 22.35% to 25.6%.

The second - Senate File 59 removed the statutory language in all of the pension plans except for the Paid Fire A Plan. This change allows the board to issue a cost-of-living adjustment, only if the plan has at least 100% funding or greater and the COLA granted would not lower the funding level below 100%.

The third - Senate File 97 added a second tier to the existing defined benefit plan. This new tier applies to new hires on or after September 1, 2012 and increases the normal retirement age to 65, the highest average salary is calculated over five years and each member would receive 2% for each year of service as opposed to the current 2.13% for the first 15 years and 2.25% for service thereafter.

Note 15 New Pronouncements

Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*

The objective of this Statement is to improve financial reporting by addressing issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. As used in this Statement, an SCA is an arrangement between a transferor (a government) and an operator (governmental or nongovernmental entity) in which (1) the transferor conveys to an operator the right and related obligation to provide services through the use of infrastructure or another public asset (a “facility”) in exchange for significant consideration and (2) the operator collects and is compensated by fees from third parties.

The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011, fiscal year 2013 for the State of Wyoming.

Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34*

The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements.

The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2012, fiscal year 2013 for the State of Wyoming.

Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*

The objective of this Statement is to incorporate into the GASB’s authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements:

1. Financial Accounting Standards Board (FASB) Statements and Interpretations
2. Accounting Principles Board Opinions
3. Accounting Research Bulletins of the American Institute of Certified Public Accountants’ (AICPA) Committee on Accounting Procedure

The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011, fiscal year 2013 for the State of Wyoming.

Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*

This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities.

The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011, fiscal year 2013 for the State of Wyoming.

Statement No. 65, *Items Previously Reported as Assets and Liabilities*

This statement was issued to establish accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012, fiscal year 2014 for the State of Wyoming.

Statement No. 66, Technical Corrections-2012

The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*.

The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012, fiscal year 2014 for the State of Wyoming.

Statement No. 68, Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27

This statement was issued to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency.

The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2014, fiscal year 2015 for the State of Wyoming.

Required Supplementary Information

Budgets

The Legislature appropriates substantially cash basis budgets for a majority of the funds at the program level (administration, revenue division, investigations, etc.) within an agency. The State budget office maintains budgets for budgeted funds at the series level (personnel services, support services, etc.) within a program. Agency budget analysts are allowed to transfer appropriations from one series to another series within an agency's program but the Governor must approve all changes in appropriations at the program level. The State's legal level of budgetary control is at the program level.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation, is employed for governmental fund types. Encumbrances outstanding at June 30, 2012, for which the goods or services have not been received, are disclosed as commitments of the primary government.

Reconciliation from the Budgetary Basis of Accounting to the GAAP Basis

	General Fund	American Recovery & Reinvest Act Fund	Foundation Program Fund
Budgetary Basis Excess (Deficit)			
Revenues over (under) Expenditures	\$ (128,156,783)	\$ 291,181	\$ (176,748,432)
Changes in certain revenue and expenditure accruals	424,342,958	6,364,889	46,733,146
Activities not included in the General Fund budget	558,515,703	0	0
First year of the biennium revenues (over) under expenditures	(79,035,127)	(6,359,647)	134,221,363
Revenue and/or Expenditures from previous biennium budgets	(61,121,774)	(1,068,878)	(19,347,950)
Encumbrances as of June 30, 2012	142,302,671	748,139	8,202,061
Non-budgeted expenditures	13,531,559	24,316	(593,786)
GAAP Basis Excess (Deficiency) of Revenues and Other Financing Sources over (Under) Expenditures and Other Financial Uses for the biennium	\$ 870,379,207	\$ 0	\$ (7,533,598)
Net Change in Fund Balance:			
Year ended June 30, 2011	\$ 369,925,857	\$ (10,272,373)	\$ (32,084,794)
Year ended June 30, 2012	870,379,207	0	(7,533,598)
Total net change for the biennium	\$ 1,240,305,064	\$ (10,272,373)	\$ (39,618,392)

Supplemental appropriations and additional appropriations approved by the Governor are included in the column titled "B11's & Supplemental Budget." In the budget and actual statements, encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded as expenditures and liabilities in order to reserve that portion of the applicable appropriation, is employed for budgetary control purposes. Some unencumbered appropriations lapse at the end of each biennium. Revenue budgets are not legislatively established but are determined by individual agencies or the Consensus Revenue Estimating Group.

Most governmental and special revenue funds have legally adopted biennial budgets except for the Game and Fish Fund (this fund has an annual legally adopted budget) and the following permanent funds – Permanent Mineral Trust Fund, Wyoming Wildlife Trust Fund, Wyoming Tobacco Settlement Fund, and Wyoming Military Asst. Fund, Montgomery Home for the Blind Fund, the Wyoming Cultural Trust Fund, the Sundry Trust Fund and the Higher Education Endowment Trust Fund. The Debt Service Fund does not have an adopted budget and the Capital Project Fund which has an adopted budget is not presented. However, not all budget statements are presented in the supplemental information section.

Wyoming Department of Transportation Infrastructure Using Modified Approach

The Wyoming Department of Transportation (DOT) accounts for its infrastructure assets using the modified approach. The infrastructure consists of the road subsystem, the bridge subsystem and communication subsystem.

DOT manages its road network with a pavement management system developed by the Department. A consulting firm is contracted to collect the data. The pavement condition is rated in three areas: ride, rutting, and cracking. The ride is measured by suspension movement using an index called the present surface index (PSI). The rutting is measured using the height difference between the lane center and each wheel path of a cross section of the road to determine the rut index (RUT). The cracking measures the width and frequency of the cracks to establish the pavement condition index (PCI). A composite rating is derived from the three condition ratings called the pavement serviceability rating (PSR). The pavement management system establishes a PSR on a scale from 0 to 5 for each road section with the following categories: excellent 5.0 to 3.5, good 3.5 to 3.0, fair 3.0 to 2.5 and poor 2.5 to 0. It is DOT's policy to maintain its National Highway System (NHS) at an average rating of 3.25 (good) for the NHS system as a whole and its Off the National Highway System (Non-NHS) at an average rating of 3.00 (fair) for the Non-NHS system as a whole. Each road section has data collected every other year. The road subsystem condition assessment is done every year.

As of September 30, 2011, the overall PSR for the NHS was 3.52 and Non-NHS was 3.20. As of September 30, 2010, the overall PSR for the NHS was 3.48 and Non-NHS 3.19. As of September 30, 2009, the overall PSR for the NHS was 3.45 while the Non-NHS was 3.15. The number of miles for NHS and Non-NHS with excellent to good condition and fair to poor condition are as follows:

PSR Condition Rating	NHS						NON-NHS					
	2009		2010		2011		2009		2010		2011	
	# of Miles	Percent	# of Miles	Percent	# of Miles	Percent	# of Miles	Percent	# of Miles	Percent	# of Miles	Percent
Good to Excellent	2,583	67.2%	2,634	68.6%	2,661	69.2%	1,472	41.2%	1,556	43.9%	1,572	44.3%
Poor to Fair	1,260	32.8%	1,203	31.4%	1,182	30.8%	2,097	58.8%	1,990	56.1%	1,975	55.7%
	3,843	100.0%	3,837	100.0%	3,843	100.0%	3,569	100.0%	3,546	100.0%	3,547	100.0%

The Department uses a comprehensive bridge management system (PONTIS) to assist in managing the State's bridges. Each bridge is inspected at least once every two years. This inspection measures, rates, and records the required National Bridge Inventory (NBI) items, including dimensions, clearances, alignment, waterway data and structural condition. The structural condition is evaluated by using structural elements. Each component of the bridge (girders, deck, railing, columns, piling, etc.) is assigned an element and the condition of each element is evaluated based on several condition assessments. The element data is converted to NBI ratings using a conversion program. The structure's NBI data is then used to determine its sufficiency rating. The sufficiency rating is calculated by the Federal Highway Administration, and bridges with a sufficiency rating of 80 or less and classified as structurally deficient and/or functionally obsolete are put on the Federal Highway Administration Selection List. Functional obsolescence is a measure of the suitability of the bridge to provide for requirements of traffic both on and under the structure. Structural deficiency is a measure of the condition of the structural elements and the ability of the bridge to carry the anticipated loads. Bridges appearing on the Selection List are considered deficient, whereas those not on the lists are considered acceptable. The bridge subsystem condition assessment is done every year. The Department of Transportation's policy is to maintain 83% of its NHS bridges and 80% of Non-NHS bridges in acceptable condition.

Using the BMS/NBI conversion program, the NBI data supplied to the Federal Highway Administration in March 2011 results in the following selection list condition rating for the last three fiscal years:

Selet List Condition Rating	NHS						Non-NHS					
	2009		2010		2011		2009		2010		2011	
	Bridges	Percent	Bridges	Percent	Bridges	Percent	Bridges	Percent	Bridges	Percent	Bridges	Percent
Acceptable	1,225	95.9%	1,216	93.9%	1,203	93.9%	618	93.3%	622	93.3%	622	93.3%
Deficient	53	4.1%	64	6.1%	78	6.1%	42	6.7%	45	6.7%	45	6.7%
	1,278	100.0%	1,280	100.0%	1,281	100.0%	660	100.0%	667	100.0%	667	100.0%

The Department's new communication infrastructure facilitates statewide radio communications for and between public safety agencies, including law enforcement, fire, emergency medical, transportation and other entities. The Governor has appointed Public Safety Communications Commission commissioners to provide guidance regarding system operations and participation, and advice to promote system development, improvement, and efficiency.

To assess and monitor the communication system's operating effectiveness, the Department applied a new strategy for these relatively new assets: Telecom Infrastructure Asset ratings are calculated from the Telecommunications program Balanced Scorecard measures, revised for 2011. Ratings are grouped as WYoLink Base/Repeater, and Other-Telecom (Radio Site and Microwave). Telecom maintained this communications infrastructure following the technical evaluation and documentation procedures detailed in the Balanced Scorecard process. The Department's policy is to maintain 100% of its communication system in acceptable condition; actual overall rating was 98.5% because two operational microwave assets that did not receive annual preventative maintenance and inspection in 2011 are considered "Deficient".

Tabular summary of the quantity and percentage of Telecom infrastructure assets in acceptable condition follows:

Condition Rating	Number of WyoLink Assets		Number of Other Telecom Assets	
Acceptable	54	100.0%	127	98.5%
Deficient	0	0.0%	2	1.5%
	54	100.0%	129	100.0%

The Department estimated maintenance and preservation expenditures on infrastructure assets of \$370.6 million for the year ended September 30, 2011. Actual expenditures on infrastructure for maintenance and preservation were \$452.1 million, a difference of \$81.5 million. The difference is due to the size of the projects, with larger projects taking a longer period to complete, and projects that were let late in the current fiscal year and work was not started on these projects until the next year.

Estimated and actual amounts used to maintain or preserve the Department's infrastructure systems at the Department's target PSR ratings for the past five years are as follows:

Year Ending September 30	Estimated			Actual		
	Road Network	Bridges	Communication System	Road Network	Bridges	Communication System
2006	391.5 million	22.8 million	N/A	293.3 million	22.1 million	N/A
2007	376.7 million	32.9 million	N/A	354.3 million	22.1 million	N/A
2008	382.8 million	14.7 million	*	342.3 million	20.8 million	*
2009	502.8 million	37.4 million	*	474.9 million	25.2 million	*
2010	373.4 million	23.8 million	*	444.6 million	26.2 million	*
2011	349.5 million	20.3 million	.8 million	418.4 million	32.9 million	.82 million

*No maintenance or operation budget had been established as of this date.

STATE OF WYOMING

**SUPPLEMENTARY
INFORMATION**

**For Fiscal Year Ended
June 30, 2012**

Non-Major Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

Environmental Quality Fund-Restricted-This fund is used to account for litigated settlements clean-up projects. This fund is used for reporting restricted fund balance for GASB 54.

Environmental Quality Fund-Committed-This fund is used to account for fees, fines, penalties, forfeitures, and grants received which are committed for use in the reclamation of the environment quality clean-up projects. This fund is used for reporting committed fund balance for GASB 54.

Board & Regulatory Fund-This fund is used to account for the licensing fees paid by professionals as well as the related expenditures of regulating the specific professionals.

Game and Fish Fund-This fund is used to account for all revenues, which are restricted for the purpose of habitat, recreational facility, wildlife conservation and enhancement.

Special Projects Fund-Committed-This fund is used to account for revenues for conferences and services as well as the related expenditures, which are committed for use in special projects. This fund is used to report committed fund balance for GASB 54.

Special Projects Fund-Restricted-This fund is used to account for revenues for conferences and services as well as the related expenditures, which are restricted for use in special projects. This fund is used to report restricted fund balance for GASB 54.

Community College Grants Fund-This fund is used to account for mineral severance tax, which is granted to community colleges for emergency repairs.

Water Fund-This fund is used to account for mineral severance tax revenue which are restricted for the purpose of maintaining and rehabilitating current water facilities, capital construction, and fees received for water sales and storage at Fontenell, Sheridan and Palisades and the related costs of providing these services.

Workforce Development Fund-This fund is used to account for expenditures relating to workforce development activities for the Department of Workforce Services.

Mineral Royalties Fund-This fund is used to account for mineral royalties, which are restricted for the specific purpose of school capital construction.

Government Royalty Distributions Fund-This fund is used to account for royalties received on mineral production, which is restricted for grants and loans to municipalities, local governments, counties and special districts.

Farm Loan Loss Reserve Fund-This fund is used to account for a percentage of farm loan revenue, which is restricted for the repayment of defaulted loans and to pay the administrative and legal expenses of the Farm Loan Board in making collections on defaulted loans and foreclosing mortgages.

State Revolving Fund (SRF)-This fund is used to account for federal grants from the U.S. Environmental Protection Agency; state funds from the Department of Environmental Quality (DEQ) corrective action account and from SRF loan repayments, which were to DEQ for water pollution control projects.

Miners' Hospital Land Fund-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the Miners' Hospital.

Omnibus Land Fund-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the establishing, maintaining and support of charitable, educational, penal and reform institutions.

Donations and Bequests Fund-This fund is used to account for bequests and donations made for specific purposes.

Wyoming Wildlife Fund-This fund is for payments made by the State for the purpose of enhancing Wyoming wildlife resources.

Endowment Fund-This fund is used to account for the endowment funds.

Retirees Prefunded Health Insurance Fund-This fund is used to account for Retirees Prefunded Health Insurance.

Oil Surcharge Conservation Fund-This fund is used to account for fines and forfeitures charged to Mobil Oil, Texaco, Belridge, Palo Pinto, Stripper Wells, Diamond Shamrock and Exxon, which are required to be used to help conserve energy through special grant programs.

State Land Fund-This fund is used to account for land which was donated to the State and the land income, which is restricted to establishing, maintaining and supporting public buildings, fish hatcheries and various State institutions.

DEBT SERVICE FUND

Debt Service Funds are used to account for the accumulation of, and the payment of, general long-term principal and interest.

CAPITAL PROJECTS FUND

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

PERMANENT TRUST FUNDS

Permanent trust funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Wyoming Wildlife Trust Fund-This fund is used to account for assets of a trust agreement. The interest on this fund is restricted for the purpose of enhancing Wyoming wildlife resources.

Montgomery Home for the Blind Fund-This fund is used to account for assets of a legal trust agreement. The income from this fund is restricted for the purpose of establishing, maintaining and supporting a school for blind individuals.

Wyoming Tobacco Settlement Fund-This fund is used to account for assets of the tobacco settlement. The income from this fund is restricted for the purpose of improvement of the health of Wyoming's citizens.

Wyoming Military Assistance Trust Fund-This fund is used to account for appropriations for the military assistance. The income from this fund is restricted for the purpose to alleviate financial hardships faced by various military members and their families.

Wyoming Cultural Trust Fund- This fund is used to account for appropriations for the Wyoming Cultural Trust Fund. The income from this fund is restricted for the purposes to preserve, promote and enhance the unique cultural heritage of the Wyoming citizens.

Sundry Trust Funds- This fund is used to account for appropriations for various trust funds. The income from this fund is restricted for the purposes of the trust funds.

Wyoming Excellence In Higher Education Endowment Funds- This fund is used to account appropriations for higher education endowments. The income from this fund is restricted for the purpose of faculty recruitment and retention, other educational needs, funding for future scholarships, imposing reporting requirements, directing legislative committees to determine higher education accomplishments, and provides for committees to study and prepare plans of implementation as specified.

PROPRIETARY FUNDS

NON-MAJOR ENTERPRISE FUNDS

Enterprise funds are used to account for operations: (a) that are financed and operated in a manner similar to private business enterprise, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Liquor Commission Fund-This fund is used to account for the operation of the State Liquor Commission, which purchases and sells alcohol products to businesses throughout the State.

Canteen Fund-This fund is used to account for the purchase and sale of consumable goods to residents at the State institutions.

Subsidence Insurance Fund-This fund is used to account for insurance premiums received and claims payments made for house and land subsidence in subsurface mining areas. (Note that claims payments are currently being made from a federal grant in another fund. This fund is currently only receiving premiums, but it is the goal of the federal program to eventually make this program self sufficient.).

Honor Farm Agricultural Sales Fund-This fund is used to account for the revenues and expenses of producing and selling agricultural products to State institutions and other consumers by the Honor Farm.

Wyoming Health Insurance Fund-This fund is used to account for premiums received from residents unable to obtain health insurance and the expense of purchasing insurance for these residents.

Unemployment Insurance Fund-This fund is used to account for payments made for unemployment insurance benefits.

INTERNAL SERVICE FUNDS

The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost reimbursement basis.

Computer Technology Fund-This fund is used to account for the activities of the Computer Technology Division, which provides computer services to State agencies.

Motor Vehicle Fund-This fund is used to account for the activities of the Motor Vehicle Division, which provides transportation services to State agencies.

Central Duplicating Fund-This fund is used to account for the activities of the Central Duplicating Division, which provides printing, duplicating service as well as copier rental to State agencies.

Group Insurance Fund-This fund is used to account for the activities of the Group Insurance Board, which provides insurance coverage to State employees.

Wyoming Surplus Property Fund-This fund is used to account for the activities of the Surplus Property Division, which collects, distributes, and sells surplus property to federal, state and local governments.

Personnel/Training Fund-This fund is used to account for the training classes and services provided by the State's Personnel Division.

State Self Insurance Fund-This fund is used to account for the activities of the State's Self Insurance Pool which insures agency property against theft and damage.

FIDUCIARY FUNDS

PENSION TRUST FUNDS

Pension trust funds are used to account for the assets held by a government as trustee for employee retirement systems.

Public Employees Pension Plan-This fund is used to account for the activities of the Wyoming Public Employee Retirement System.

State Patrol, Game and Fish Warden, and Criminal Investigator Pension Plan-This fund is used to account for the activities of the Wyoming State Highway Patrol, Game and Fish Warden, and Criminal Investigator Retirement System.

Volunteer Firemen's Pension Plan-This fund is used to account for the activities of the Volunteer Firemen's Retirement System.

Paid Firemen's Pension Plan A-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired prior to July 1, 1981.

Paid Firemen's Pension Plan B-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired after July 1, 1981.

Wyoming Judicial Pension Plan-This fund is used to account for the activities of the Judge's Retirement System.

Law Enforcement Pension Plan-This fund is used to account for the activities of the Wyoming Law Enforcement Retirement Plan.

AirGuard Fire Fighters Pension Plan-This fund is used to account for the activities of the AirGuard Fire Fighters Pension Plan.

Volunteer Emergency Medical Technician Pension Plan-This fund is used to account for the activities of the Volunteer Emergency Medical Technician Retirement Plan.

Wyoming Deferred Contribution 457 Plan-This fund is used to account for administration of an IRC457 Deferred Compensation Plan.

PRIVATE-PURPOSE TRUST FUND

Private-purpose trust fund is used to report any trust agreement not properly reported in a pension trust fund or investment trust fund.

Unclaimed Property Fund-This fund is used to account for property for which the owner is unknown. The State is obligated to maintain possession of the property until claimed.

AGENCY FUNDS

Agency funds are used to account for assets that a government holds on behalf of others as their agent.

Treasurer's Agency Fund-This fund is used to account for funds held by the Treasurer's Office on behalf of citizens, counties and other municipalities.

Department of Revenue Fund-This fund is used to account for the receipt of the different taxes and the related disbursement to municipalities of these taxes.

Funds Held for Individuals-This fund is used to account for the various State agencies holding assets on behalf of individuals.

Environmental Cash Bond Fund-This fund is used to account for compliance bonds held by the Department of Environmental Quality.

Other Agency Funds- This fund is used to account for the activity within the County Predatory Control Fund, State Lands Fund, Adjutant General Fund, and the Sundry Agency Funds.

STATE OF WYOMING

STATISTICAL SECTION

**For Fiscal Year Ended
June 30, 2012**

Statistical Section

Index

This part of the State of Wyoming's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the primary government's overall financial health.

Financial Trends – These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Schedule 1 – Changes in Net Assets	218
Schedule 2 – Net Assets by Component	219
Schedule 3 – Fund Balances of Governmental Funds	220
Schedule 4 – Changes in Fund Balances of Governmental Funds	224

Revenue Capacity Information – These schedules contain information to help the reader assess the government's most significant own-source revenues. The three most significant own-source revenues for the State of Wyoming include: sales and use tax, mineral severance taxes and property tax collected and designated for the state's School Foundation Program.

Major Own-Source Revenue:

Schedule 5 – Governmental Activities Tax - Revenues by Source	226
Schedule 6 – General Governmental Tax - Revenues by Source	226
Schedule 7 – Revenue Capacity	227
Schedule 8 – Major Own-Source Revenue – Mineral Severance Taxes	228

Revenue Rates:

Schedule 9 – Revenue Rates	229
Schedule 10 – Revenue Rates for Mineral Severance Tax	230

Revenue Base:

Schedule 11 – Sales Tax Collections by Industry	232
Schedule 12 – Sales Tax Collections for Retail, Accommodation and Food Service Sectors	234
Schedule 13 – Use Tax Collections by Industry	236
Schedule 14 – Revenue Base-Assessed Value of Property	238
Schedule 15 – Locally Assessed Value and Estimated Actual Value of Taxable Property	240
Schedule 16 – State Assessed Value and Estimated Actual Value of Taxable Property	242
Schedule 17 – School Foundation 12-mill Property Tax Collections	244

Principal Tax Payers:

Schedule 18 – Principal Mineral Production Tax Payers	245
Schedule 19 – Principal Non-Mineral Tax Payers	246

Debt Capacity Information – These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Schedule 20 – Revenue Bond Coverage	248
Schedule 21 – Legal Debt Margin	250
Schedule 22 – Ratios of Outstanding Debt by Type	252

Demographic and Economic Information – These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Schedule 23 – Demographic and Economic Statistics	254
Schedule 24 – Personal Income by Major Source	256
Schedule 25 – Principal Employers by Industry	258

Operating Information – These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Schedule 26 – Capital Asset Statistics by Functional Category and by Fund Class	260
Schedule 27 – State Government Authorized Full-Time Positions and Number of Active Employees	264
Schedule 28 – Operating Indicators by Function/Program	266
Schedule 29 – Department of Employment Workers' Compensation Division	270
Schedule 30 – Department of Employment Workers' Compensation Division	271
Schedule 31 – Trends in AFDC/TANF and Food Stamp Caseloads and Expenditures	272
Other Wyoming Facts	274

Sources: Unless otherwise noted, the information in the following schedules is derived from the State's Comprehensive Annual Financial Reports.

Source: Department of Revenue; Annual Reports

Notes:

All rates are set by the Legislature.

¹The State of Wyoming does not levy a corporate income tax.

²The State of Wyoming does not impose or levy income taxes, earning taxes or any other form of tax based on wages or other income.

³Beginning July 1, 1993, the sales and use tax rate was increased by one percent. Counties could levy up to 2% in additional sales and use tax upon voter approval. Beginning July 1, 2007, counties may levy up to 3% in additional sales and use tax upon voter approval.

⁴A temporary sales and use tax exemption for food for domestic home consumption commenced on July 1, 2006 and ends on June 30, 2008. This was made a permanent exemption with House Enrolled Act 88 revised on July 14, 2008.

⁵The Legislature passed an increase tax rate for cigarettes effective July 1, 2003. A discount of 6% is given to wholesalers on purchases of stamps or metering machine settings.

⁶One percent of tax equals 10 mills. Therefore, the Foundation Program Fund mill levy of 12.000 is equal to 1.2000% of the assessed real property value is due as tax.

Estate Taxes are set under the United States laws governing federal estate taxes and the IRS Code. Estate tax proceeds are deposited in the State General Fund.

Notes:

Due to confidentiality issues, the names of the ten largest sales taxpayers are not available.
The categories presented are intended to provide alternative information regarding the source of the State's revenue.

¹Standard Industrial Classification

²North American Industry Classification System

The SIC and NAICS coding was developed by the Federal Office of Management and Budget. Under the system, a business is classified by primary activity, determined by principal product, or group of products produced, distributed, and/or services rendered.

Since Fiscal Year 2004, data has been tabulated by NAICS code instead of by SIC, these two classifications are different and are not directly comparable.

Only the State-imposed 4% sales tax collections are included.

Estimates of sales may be obtained by dividing the collection amount by the effective tax rate.

Penalty and interest funds are excluded in this table.

Sales tax collections do not directly coincide with the entity wide statements due to the amounts including portions distributed to cities, towns and counties.

Notes:

This schedule is a detailed list of the "Trade, retail" amounts reported in Schedule #11, Sales Tax Collections by Industry. The retail trade sector reflects consumers' daily spending. Due to confidentiality issues, the names of the ten largest retail sales tax payers are not available. The categories presented are intended to provide alternative information regarding the source of the State's revenue.

¹Standard Industrial Classification

²North American Industry Classification System

Since Fiscal Year 2004, data has been tabulated by NAICS code instead of by SIC, these two classifications are different and are not directly comparable.

Only the State-imposed 4% sales tax collections are included.

Penalty and interest funds are excluded in this table.

Estimates of sales may be obtained by dividing the collection amount by the effective tax rate.

Sales tax collections do not directly coincide with the entity wide statements due to the amounts including portions distributed to cities, towns and counties.

¹Standard Industrial Classification

²North American Industry Classification System

The SIC and NAICS coding was developed by the Federal Office of Management and Budget. Under the system, a business is classified by primary activity, determined by principal product, or group of products produced, distributed, and/or services rendered.

Since Fiscal Year 2004, data has been tabulated by NAICS code instead of by SIC, these two classifications are different and are not directly comparable.

Only the State-imposed 4% sales tax collections are included.

Estimates of sales may be obtained by dividing the collection amount by the effective tax rate.

Penalty and interest funds are excluded in this table.

Source: Department of Revenue; Annual Reports

Notes:

"Locally assessed" values represent property assessed by the county assessor.

"State assessed" values are those properties assessed by the Department of Revenue's Mineral Division or Property Tax Division.

"Real property" is land and appurtenances affixed thereto, including buildings.

"Personal property" is property not permanently affixed to the land.

The Non-Minerals classification 'Cable and Satellite' began being used in 2008.

Source: Department of Revenue; Annual Reports

Notes:

The Legislature requires that county assessors annually update property values. The county assesses property at approximately nine and one-half percent (9.5%) of actual value for agricultural land, residential and commercial property and eleven and one-half percent (11.5%) for industrial property. Estimated actual value is calculated by dividing assessed value by those percentages.

^a Includes tax-exempt property.

Less: Tax Exempt Property	Total Taxable Assessed Value	Estimated Actual Taxable Value	Assessed Value ^a as a Percentage of Actual Value

Notes:

A detailed listing of non-mineral and mineral property is stated in Schedule #14, Assessed Value of Property.

The State assesses property annually and assessment of minerals are annually following the year of production. The State assesses non-mineral property at approximately eleven and one-half percent (11.5%) of actual value. Mineral property is assessed as gross product of minerals or mine productions at actual value or one hundred percent (100%). Estimated actual value is calculated by dividing assessed value by those percentages.

<u>Estimated Actual Taxable Value</u>			Assessed Value as a Percentage of Actual Value
Non-Minerals	Minerals	Total

Source: Comprehensive Annual Financial Report

Notes:

Details regarding the State's outstanding debt can be found in notes to the financial statements. These obligations constitute a long-term obligation of the State.

The Building Corporation bonds were limited obligations of the Wyoming Building Corporation. The bonds were secured with the newly constructed prison and repayments were made through lease payments by the State for the use of the prison. The decrease between 2004 and 2005 is attributable to the State purchasing its prison facility and the subsequent retirement of the \$63 million dollars of debt.

The inclusion of deferred interest payable in fiscal year 2006 is the result of interest on outstanding bonds being deferred until the bonds mature.

^a See Schedule #23, Demographics and Economic Statistics, for personal income and population data.

^b Debt as a percentage of personal income is based on prior year personal income.

^c Amount of debt per capita is based on prior year population.

Sources: U.S. Department of Commerce, Bureau of Economic Analysis; U.S. Department of Labor, Bureau of Labor Statistics

Notes:

^a Total personal income is the income that is received by all persons from all sources. It is composed of wages and salaries, proprietors' income, personal interest and dividend income, rental income and personal current transfer receipts, less contributions for government social insurance.

^b Per capita personal income is calculated by dividing total personal income by population.

Differences between the Demographic and Economic Statistics schedule for Labor Force and Employment estimates and information contained in schedule, #24, Personal Income by major source, and #25, Principal Employers by Industry, are due to differences in survey information between the U.S. Department of Commerce and U.S. Department of Labor, including sample size, estimation procedures, coverage and definitions.

* Amount does not state total to avoid disclosure of confidential information, but the estimates for the non-reported item(s) are included in the totals.

²Contributions for government social insurance are included in earnings by type and industry, but they are excluded from personal income.³The adjustment for residence is the net inflow of the earnings of interarea commuters. For the United States, it consists of adjustments for border workers: wage and salary disbursements to U.S. residents commuting to Canada less wage and salary disbursements to Canadian and Mexican residents commuting into the United States.⁴Rental income of persons includes the capital consumption adjustment.⁵This component of personal income is payments to persons for which no current services are performed. It consists of payments to individuals and to nonprofit institutions by federal, state, and local governments and by businesses. Government payments to individuals includes retirement and disability insurance benefits, medical payments (mainly Medicare and Medicaid), income maintenance benefits, unemployment insurance benefits, veterans' benefits, and federal grants and loans to students. Government payments to nonprofit institutions excludes payments by the federal government for work under research and development contracts. Business payments to persons consists primarily of liability payments for personal injury and of corporate gifts to nonprofit institutions.

State patrol written citations	132,336	123,565	129,600
State patrol warning citations	103,753	114,579	113,797
State patrol motor vehicle crashes investigated	6,186	6,614	6,300
Drunk drivers taken off of roads by state patrol	1,000	1,085	1,060

Source: Various State departments.

Notes:

¹ Registered voter data is not available for some years due to an old voter registration system and information not being collected in non-election years.

² Purchasing card program was implemented in 2005.

³ Figures are based on October 1 enrollment.

⁴ The annual drop-out rate is calculated by taking one year's drop-out counts from grades 9 - 12, divided by an average enrollment using October 1 enrollments and completer figures. Information obtained from the Department of Education.

⁵ Starting in 2006-2007, the academic year definition was changed to more accurately reflect Banner's academic year definition of fall, spring and summer terms. Prior to 2006-2007, the academic year definition included summer, fall and spring terms. For example, academic year 2005-2006 includes August 2005, December 2005 and May 2006 while academic year 2006-2007 includes December 2006, May 2007 and August 2007.

⁶ Figures obtained by averaging end-of-semester data for fall and spring semesters, except for 2007 which only includes Fall 2007 enrollment figures. Data also includes all outreach enrollment.

⁷ The agency changed their data collection system in fiscal year 2007. Information prior to fiscal year 2007 is not comparable and is therefore, not provided.

⁸ Based on the NAICS Industries classifications.

⁹ The Emergency Unemployment Compensation 2008 (EUC08) program began in July 2008.

N/A = Information is not available.

- 1890 – Wyoming became the 44th state.
- 1890 – Wyoming's present constitution was adopted.
- 1903 – Wyoming's first State Fair was held in Douglas.
- 1906 – Devil's Tower was designated as the first National Monument.
- 1925-1927 – Wyoming's first female Governor, Nellie Tayloe Ross.
- 1994 – Wyoming leads the country in coal production with 3 million tons per week.

Geography

- Area: 97,818 square miles
- Highest Elevation: Gannett Park - 13,804 ft.
- Lowest Elevation: Belle Fourche River – 3,099 ft.

State Motto – Equal Rights

State Bird – Western Meadowlark

State Flower – Indian Paintbrush

State Nickname – Equality State

State Tree – Cottonwood

State Flag – A bison on a blue field bordered in white and red

ACKNOWLEDGEMENTS

The CAFR Group of the State Auditor's Office prepares the State of Wyoming Comprehensive Annual Financial Report. Staff of the Group for the fiscal year 2012 report includes:

Thomas E. Rowe, CPA
Colleen Quinn, CPA

Kyndra Herrera
Kara Poppe

Special thanks are also extended to Messrs. Robert Dahill, Patrick McGuire, Ken Dugas, Ms. Brandy Marrou, and staff of McGee, Hearne & Paiz, LLP; staff of the State Treasurer's Office; the Department of Audit; and financial management personnel throughout Wyoming State Government. Preparation of this report would not have been possible without the efforts of these individuals.
