Application for Registration of Trademark or Service Mark

1. Provide a written description of the trademark or service mark. Your written description must include all words, names, symbols, devices and designs which the applicant wishes to be included within the mark. You may attach a separate sheet if needed; however, **you must describe the mark completely:**

See Attached Description

2. Name of applicant:

Renegade Plumbing, Heating & Air, LLC

3. Business address of applicant:

2121 Hill Valley Rd, Gillette, WY 82716

4. Mailing address of applicant:

2121 Hill Valley Rd, Gillette, WY 82716

5. Applicant is (check only one; this selection should correspond to the information listed in item #2):

- | | | |
|--|--|---|
| <input type="checkbox"/> individual; | <input type="checkbox"/> corporation; | <input type="checkbox"/> general partnership; |
| <input type="checkbox"/> limited partnership; | <input checked="" type="checkbox"/> limited liability company; | <input type="checkbox"/> statutory trust; |
| <input type="checkbox"/> unincorporated association; | <input type="checkbox"/> statutory foundation; | <input type="checkbox"/> other |

6. a. If the applicant is a corporation, limited partnership, limited liability company, statutory trust or statutory foundation, list:

The state of incorporation or organization: Wyoming

The date incorporated or organized: 09/26/2014

(Date – mm/dd/yyyy)

b. If the applicant is a general partnership or limited partnership, list the names of the general partners or partners:

[Empty box for listing general partners]

c. If the applicant is a limited liability company, statutory trust or statutory foundation, list the names of the managers, members, trustees, or directors:

Michael Baughman, Member

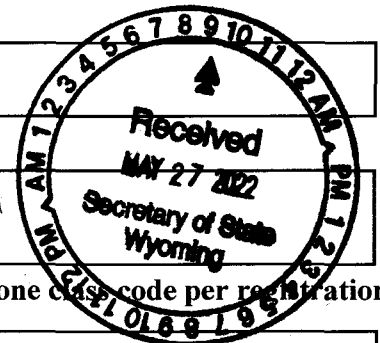

d. If the applicant is "other," explain:

[Empty box for explaining "other" category]

7. Provide the class number **and** title of the goods or services (see attachment). Use only one class code per registration:

Class number: 103

Title: Construction and Repair

8. Provide a brief description of the goods or services within the class (i.e., what your product is, or what service you provide):

Plumbing, heating and air conditioning service work and equipment. Also provides services for gas sewer or septic systems water treatment and new constructions

9. List the mode or manner in which the mark is used to identify the goods or services (e.g.: goods - labels on cans, bags, wrappers, etc.; tags, nameplates affixed directly to product; services - labels on laundry bags, advertising, window signs, etc.):

The logo has been used on coffee cups, business cards, company trucks and trailers, and in a banner for advertising purposes

10. An application to register the mark or portions or a composite has been filed by the applicant or a predecessor in interest in the U.S. Patent and Trademark office: Yes No

If yes, provide filing date, serial number of each application, the status and, if any application was finally refused registration or has not otherwise resulted in registration, the reasons therefore:

11. Date of first use by applicant or predecessor (the mark **must be in use** before it can be registered):

a. Anywhere: 10/01/2021 (Date - mm/dd/yyyy)

b. In this state: 10/01/2021 (Date - mm/dd/yyyy)

12. **One** photocopy or facsimile of the mark **as it is actually used** must accompany this application.

13. The applicant is the owner of the mark. The mark is in use and to the knowledge of the person verifying this application, no other person has registered, either federally or in this state, or has the right to use such mark either in the identical form thereof or in such near resemblance as to be likely, when applied to the goods or services of such other person, to cause confusion or to cause mistake or to deceive.

Notarial Seal

County of Campbell

A stylized droplet, convex on the right, bottom and lower left, turning concave on the upper left to the point of the droplet, with a contrasting stylized accent generally in the shape of an elongated droplet, but of otherwise similar shape to the droplet, on the lower right portion of the droplet. The droplet has a thick contrasting border. The convex bottom of the droplet is the base for the mark and the point of the drop extends a half-way up the mark. The droplet is encompassed on the left and right all the way to the tip by stylized flames where the droplet appears to be the heart of the flame. The flame is made up of two stylized shapes and which flame is approximately double the height of the droplet. The general shape of the flame is convex on the right, bottom and lower left generally consistent with the shape of the droplet. The upper left and top of the flame has three points, the center points being the tallest and differs from the general shape of the droplet. The left most and center points being convex on the left and concave on the right. The right most tip being concave on the left and convex on the right. In front of the flame, beginning half-way up the mark and offset to the right side of the flame is a left hand clenched in an overhanded fist, with a thin contrasting border surrounding the fist. The fist is holding a pipe wrench at the top of the handle. The pipe wrench is held nearly horizontally with the head of the wrench, on the left, jaws partially open and facing up. The head of the pipe wrench is slightly higher than the end of the handle on the right and both the head and end of the handle extend beyond the reach of the flame on both sides. Approximately one fourth of the flame is above the fist and wrench, with the remainder of the flame and droplet below.

Trademark Design Information

Registration #: 2022-001119758

Registrant: Renegade Plumbing, Heating & Air,
LLC

Date Registered: May 27, 2022

Class Code: 103

Design Category:

x-ref - water

x-ref - flame/fire

x-ref - hand

x-ref - body part

x-ref – tool
