It is hard to find words with which to express my sincere appreciation of this high honor. It is of course one of the great events of my life. I pledge to you my utmost, impartial cooperation, so we may fulfill our obligations to the state and the people whom we represent.

We will not agree on everything. To do so would certainly mean we would pass some bad legislation. Only by a frank, honest and sincere discussion of all sides of a question, can we arrive at the best possible solution. That is the American way—that—must be our way.

To you freshmen members I want to say that my services, as well as those of the senior members, will be cheerfully given you at all times. This is without reservation as to party or county. I want to welcome the press, and the radio. I want all members to cooperate with them, so the people in all sections of the state will know what the issues are and what progress is being made.

I know that this will be a harmonious session, that much good will be accomplished for our state.

Again I thank you.”

GOVERNOR'S MESSAGE
To
THE THIRTY-SECOND STATE LEGISLATURE

Mr. President, Mr. Speaker and Honorable Members
of the 32nd Session of the Wyoming State Legislature:

As Chief Executive, I am honored and pleased to come before you today to deliver the customary budget message, to place myself on record regarding certain important subjects and especially to give you an official and sincere welcome to our Capital City, the seat of important deliberations which you will make in our behalf during the next 40 days.

No reasonable person would attempt to establish a relative order of importance to the three main branches of our State Government. However, when we reflect on the importance of the laws of our State to all the people and consider that the Legislature is limited to 40 days, in each biennium, in which to make our laws and take care of all the work of the Legislative Department, then it is not unreasonable to conclude that your Body outweighs in importance any other governmental consideration during the term of each Legislative Session.

Yours is the responsibility for charting the course of all other Departments. You point the way along which the rest of us must proceed.

You are charged with raising the revenue with which to pay the costs of our State Government. You make the appropriations and set out the amounts to be spent by each Department. You make the rules of procedure for each of the Boards, Institutions and Departments. And finally you enact the laws which govern the people themselves. And to them only are you accountable.

Yours is indeed a great and far-reaching responsibility.

I think it can be truthfully said that the history of our State is largely the story of our Legislative Sessions, each session contributing substance to the great plan of Sovereign Statehood.

Therefore, it is the duty of each one of us to give a full measure of time and effort in helping you with your labor here. This we intend to do.

You may feel at times that your efforts are not fully appreciated. I can assure you that most of us are aware of the great contribution which you make to the progress and welfare of our State. We watch your work from day to day with the realization that it is your Body that charts the political and economic trend of our lives.

It would seem that most nations today are faced with a choice between government of free men and government wherein the state is master and the people slaves.

So long as we, the citizens of America, will it, there can be no master race of politicians to hold us in slavery here. But should we relax our vigilance in the slightest degree, let me warn you, there is an army of political masterminds called "Economic Planners" which would chart a destiny of bondage for us and "lead us down the road" of planned economy into socialism and communism. Our national and state legislative bodies must remain eternally vigilant for this thing must not happen to us.

You are our first line of defense.

We in Wyoming have been fortunate in having legislatures which have, for the most part, proceeded in a direction that assure to us the perpetuation of those principles necessary to our existence as free Americans. I am convinced that we need have no concern about that vital objective during the present Session.

The leadership of our national government will be assumed next week by a great citizen and soldier, a man of outstanding ability and integrity. I believe that you must feel, as I do, that President Eisenhower will stand firmly against any and all attacks on our freedom, whether made by brute force or creeping and insidious stealth.

Like you and me he believes in free enterprise, where every man can stand as a living example of the opportunities we all have under our republican form of government. Let us give him our full support regardless of politics, and let us not fail to remember him in our prayers for the peace of the world and the safety of our country's defenders.

I have been referred to, and rightly so, as a small business man. I am honored to be a member of that important group of Wyoming citizens. The business men and women of our State, as a group, have established standards of business and social conduct that might well be imitated by many public officials.

You may be sure that I have a business man's aversion to waste, extravagance, deficits and unbalanced budgets, and that I approve unqualifiedly all such orderly business procedure as reflects efficiency and favorable balances. And I especially favor a dollar of value received for each dollar spent. I believe that each employee should give a full and honest day's work and I also believe that "he who labors is worthy of his hire."

I believe that we "need more business in government and less government in business," and am fully aware that the future stability of our State is closely tied to accepted American business principles. And further, knowing that it is my full responsibility as Acting Governor to maintain a healthy business administration at all times, it shall be my constant purpose to insist upon fidelity to sound business practices and principles on the part of every department and institutional manager within our State. And this without exception.

Being resolved to do this and knowing the character and ability of the men and women responsible for the conduct of those institutions and departments, and therefore, responsible for helping me carry out this resolution, I have no hesitancy in assuring you that the administrative affairs of our State will be conducted in such manner as will meet your full approval.

In giving you this assurance I speak not alone for the office of Chief Executive but for the other elected state officials as well. Knowing these experienced board members as I do, I know that their abilities and their valuable cooperation in administrative efforts will insure the full success of our program.

I am indeed fortunate in having Mrs. Minnie Mitchell, Miss Edna Stolt and Mr. Everett Copenhaver to work with me in my administration.

It is not my right nor my intention at any time to try to dictate any course of action to you. Rather, I want to suggest to you those things which will aid us in accomplishing our aims. I want to recommend to you certain items of legislation and I want to counsel with you at all times in such a manner as to effect the necessary teamwork between the Legislative and Executive branches vital to good government.

The Budget

I will not bore you with any long recapitulation of budget figures which, in the main, are self-explanatory. Please call upon me or the Assistant Budget Officer, Mr. Redburn, at any time for explanation of any item that is not clear or on which you need additional information.

The revenue of our State should remain fairly stable during the next biennium. Even so, we should keep ourselves prepared for possible declines. I have found it necessary to make many cuts in budget requests. Some of them I have made with great reluctance. You will no doubt consider it advisable to make further cuts and adjustments in some of my own recommendations. Some capital outlay recommendations were made expressly contingent upon the availability of funds. You should not hesitate to make such alterations in the budget as you think necessary to keep us within our anticipated revenue and maintain a general fund balance of sufficient amount to be a cushion against unforeseen emergencies.

Constitutional Salaries

I urge that you give careful consideration to proposals relating to changing constitutional limits on salaries. Because of these limits, salaries cannot be increased during the term for which an official has been elected. If the trend of inflation should increase sharply, the various departments of our state and local governments could find themselves seriously handicapped.

It is recognized that in Wyoming we have a strong Judiciary. Our courts have an excellent reputation for integrity and fair dealing. I am convinced that the judges are underpaid. Furthermore, by reason of Article 5, Section 17, of the Constitution of the State of Wyoming, their salaries cannot be increased during their term of office so that it often happens that a judge who has just recently been appointed or elected receives a larger salary than one who has served for many

years. There is no possible justice in that. I, therefore, strongly recommend to the Legislature that the constitutional amendment be submitted to all the people of Wyoming for adoption at the next general election so that in the future those of the members of our Judiciary who do the same work will receive equal pay.

Wyoming Employment Security Law

The Employment Security Commission is presenting recommendations for changes in the Wyoming Employment Security Law. In order to formulate these proposals the Commission has made an intensive survey of the Wyoming economy and has used that study to analyze the prospective solvency of the Unemployment Compensation Fund. As a result of the study, an actuarial expert has determined that this State is in an excellent position to lower payroll taxes for many employers, and also to make some refinements in the benefits to unemployed claimants under the Employment Security Program.

In the light of the detailed and careful study the Commission has made, and with due regard for the excellent advice and counsel it has had, I should like to recommend that you pass the Commission's legislative program.

Game and Fish Commission

I ask that you amend our game laws so that the Governor will no longer be required to act as a member of the Game and Fish Commission, but that he may appoint a commissioner in his place.

Highways

Any legislation that will improve our State primary and secondary roads and our county roads will be of great benefit to our entire State. Ours is a State of vast distances and our economy is based upon our ability to travel over these distances quickly and conveniently. Therefore, we must provide our people with the very best highways possible.

You can make no greater contribution to the welfare of our citizens than to enact legislation that will improve and increase the road facilities of the ranchers and farmers of our State. We must bear in mind at all times that the ranch and the farm are our great economic backlog, and that we owe it to ourselves to make every reasonable effort in their behalf.

It is unfortunate that with improved highways we get an increased rate in traffic accidents and deaths. Regrettable as this may be, it cannot be advanced as a valid reason for neglecting our roads. Progress must continue despite the fact that our capable engineers find it impossible to construct foolproof roads.

It astounds me to reflect on the amount of disregard for himself and his fellowman that a driver must possess to be able to experience any sort of accident upon our modern highways constructed under engineering skill beyond any possible criticism.

I'm afraid that we cannot bring about the desirable end to the destruction and slaughter upon our highways by legislation or engineering skill alone. It would seem that men must find a new purpose in their hearts and minds and develop a new concept of courtesy on the

roads before we can realize a satisfactory change in our highway death rate. In the meantime, we must do the best we can to protect some drivers from themselves and to protect others from them. Any legislation that offers possible help should be enacted. There will be presented to you a measure to change the driver's license fee to \$1.00 per year. Since the present fee is 33 $\frac{1}{3}$ cents per year, this will represent an increase of some 66 cents. I am assured by the Highway Patrol that most of this increase will be used in the furtherance of safety measures. I urge you to enact this measure. I think the people of our State will agree with me that we are glad to pay this increase if it will be the means of avoiding just one serious accident per year.

Presidential Primaries

The recent national election has demonstrated the very great interest our citizens have in their government and has raised some criticism of our election laws, particularly the lack of provision in our law permitting presidential primaries. Many people feel that they should have a greater and more direct part in presidential nominations. I feel that they have a just complaint, and while I am not prepared now to make a specific recommendation to provide the desired changes, I feel that you should give any proposals along this line your careful study and favorable action.

Oil Rights on Federal Lands

I feel that you should initiate a movement toward the transfer of all oil rights on federal lands located without our State to the State of Wyoming. A memorial to Congress on this subject might eventually prove to be the means for winning a concession of vast benefit to our State.

Education

The proper education of our children is one of the most vital functions of our State and local governments. No other responsibility compares with that of providing proper and adequate facilities for the healthy development of the minds of our greatest resource—the youth of our State.

The state educational program faces many problems—teacher shortages, school building needs, the need for higher educational standards and many others. Therefore, it is imperative that our public schools be given a place of conspicuous importance on your legislative agenda, not forgetting the importance of the security of our teachers after their duties are performed in fulfilling their obligations to the future citizens of America.

Labor

The Workmen's Compensation Department, since its assignment of more adequate and sorely-needed additional office space in the suite formerly occupied by part of the Department of Education, is functioning very well.

In early December, following the custom of some years past and at the invitation of Governor Barrett, a joint open meeting of employers, employees, the State Treasurer and representatives of the

Workmen's Compensation Department resulted in an agreement with respect to amendments to the present Workmen's Compensation Act that will be presented in a legislative bill and will propose increased awards for injured workers in six of the present award categories. I hope you will give this program favorable consideration.

State Office Building

The following departments have representatives located in Casper: Department of Education, Equalization Sales and Use Tax Division, Game and Fish Department, the Department of Probation and Parole and the Employment Security Commission's Employment Service Office. Altogether these departments have paid out many thousands of dollars in rent.

The Board of County Commissioners of Natrona County and the City Council of Casper have offered to deed to the State a tract of land opposite the City and County Building as a site for a State Office Building.

Now the question with which we are faced is whether it is advisable at this time to construct an office building in Casper to house these departments.

There is a controversy over this matter today arising from ill-advised newspaper statements concerning possibility of a future change in the location of our capitol.

Let me make this comment: I do not feel that any member of the legislature would willingly give his support to any move designed to change the location of our seat of state government.

However, this controversy should not be confused with the projected construction of a state office building at Casper, which is, after all, a matter to be considered from a sound business standpoint.

In view of this, I shall take this position: If in your judgment it would be economical and wise at this time to build a state office building at Casper, I shall approve your action. I do feel, however, that the proposition should be considered on its merits and not in an atmosphere of rancor or factionalism.

Above all, we do not want unnecessary friction or ill feeling to emerge. We are all here with but one goal, namely, to provide the best and most efficient state government possible.

Gambling

News reports indicate the possibility that you may be asked to enact legislation to legalize slot machines and possibly other forms of gambling.

I feel that the Chief Executive should refrain from needless interference with the Legislature at all times, and that the power of executive veto should be used only in those cases in which the Governor feels certain that the best interest of the public demand it.

I shall be most reluctant to withhold my approval from any of your acts at any time, however, a need for fairness and proper understanding between us requires that I should advise you at this time that should you enact any measures legalizing gambling in any form, I shall veto such legislation.

Taxes

I particularly urge that you impose no new or increased taxes at this time. Business men everywhere have been hampered by unnecessary restrictions and regulations. I urge you not to further hamper business enterprise by placing any additional burden upon their shoulders. Whenever possible, I urge you to give them relief.

Our world is in a period of strife and distrust when any day might mark the precipitation of another world-wide conflict. Our nation must prepare herself against any and every evil contingency. She must remain strong and well-prepared until once again our civilization will echo only the sounds of freedom and universal peace and the discordant voices of hatred and intolerance shall be forever stilled.

Until such time as the dignity of sovereign and free nations shall be once again restored, it is the obligation of each subdivision of our national government and of each individual citizen therein to support our national program for armed security.

I need not remind you that this program will test to the fullest our capacity to pay taxes. To me, it seems that we who are responsible for state and local governments should give careful attention to easing the tax burdens of our people, so that they may be better able to meet the great demands made upon them by our national government.

This is why I urge a degree of economy and frugality in state expenditures that otherwise might seem extreme.

Therefore, until such time as our national taxes can be drastically reduced, I am anxious that no additional burden of state tax be laid upon our people.

This is a proper time to acknowledge our great debt to those young men and women of Wyoming who are serving our Nation and State in the various Armed Services. We especially want to mention the men of our National Guard who have faced and are now facing the enemy in Korea. Those courageous men are the cream of our youth, and of them I say, "We are in their eternal debt, and it is our sincere hope that they can soon return safely to their homes and loved ones."

Some have made the supreme sacrifice. These we cannot thank or in any other measure repay. They have laid their lives on the altar of freedom for us. We can only resolve to leave nothing undone that will help save the lives of others and to carry out successfully the cause for which they died. "So long as time's great cycle runs, Wyoming will grieve her fallen ones."

A message of this nature would not be complete without expressing proper appreciation to those public officials who have given me valuable assistance in preparing the budget.

I am therefore pleased to thank former Governor Frank Barrett, now our United States Senator, and Richard Redburn, Assistant State Budget Officer, for their most valuable help in setting out the details of this budget.

In Conclusion

In conclusion may I say that it is my sincere hope that our common objectives will cement our respective endeavors so that they will become one strong and effective force for great and lasting good for all our State.

Please be assured that my office and all the departments of our State government are pledged to give you any assistance that will help make your work successful. Do not be reluctant to call upon me or any member of my administrative family for assistance at any time.

May He who gives us hope and courage when the trail is dim make smooth your pathway, lighten your burdens and bless you in your labor during this, your 32nd Session. This is my earnest prayer.

Senator Robertson moved that a vote of thanks be extended to his Excellency, the Acting Governor, for his message. The motion prevailed.

Senator Robertson moved that a vote of thanks be extended to the House of Representatives for their courtesy in receiving the members of the Senate in Joint Session. The motion prevailed.

Senator Robertson moved that the Joint Session be dissolved. The motion prevailed, and President Bartling declared that the Joint Session was dissolved at 2:32 p.m.

The House re-convened at 2:50 p.m. at the call of the Speaker. Mr. Daniels moved that the House adjourn until 10:00 a.m. tomorrow. The motion prevailed and it was so ordered at 3:00 p.m.

The following letter was sent to Mrs. Floyd V. Kelly:

January 21, 1953

Mrs. Floyd V. Kelly
Torrington, Wyoming
Dear Mrs. Kelly:

Humbly we tender our sympathy to you. We would lift your burden if only we could. In this hour of grievous loss, may there be a consolation of thankfulness for the wonderful years he was with you and us.

Great ones, though sorely missed, leave golden memories to bless the tomorrows. We, too, miss Floyd, your and our big, forthright, courageous, cheerful courier of good will to all men, to his country and community. His kindly contributions have helped his countrymen climb a little higher in civilization's slow ascent toward a better day.

We are so grateful to you for having shared him with us. We and your community owe you so much for the great help, love, and support which you gave him in order that he might serve us all. God bless you and your son, and accept our gratitude for a little better world made possible by your Great American Husband.

Upon request of Mr. Keith Thomson of Laramie County, the following remarks of Mr. Daniels, Converse County, were placed in the record. Mr. Daniels, in commenting upon the motion of Mr. Lowe for amendment of House Bill 13, reviewed certain factors which he judged to bear upon the adoption of the amendment and concluded with an appeal to the House to defeat the amendment and to submit the bill as drawn to voting, urging that the same be either adopted or killed in its present form, and upon the philosophy expressed therein of one

Senator for each county which resulted from the population factor of 40,000 for each Senator.

Mr. Chamberlain asked that his statement be taken down and spread upon the records of the House Journal.

"In the House the Constitutionality of a law seems to depend on whose ox is being gored. The smaller Counties are at the mercy of the larger ones. We all want to live together, so let's pass this Bill."

It is with a sad heart that I attempt, at this time, to try and express my sincere thanks and appreciation to each of you for your kind words of sympathy, the beautiful floral offerings and the many cards, during the illness and sudden death of my husband, Floyd.

He was proud of his membership in the Legislature. He enjoyed the work and loved his co-workers, so I have no regrets that he spent his last few days doing what he wanted most to do.

The acquaintances we made and experiences enjoyed while in Cheyenne will always be treasured in my memory and I am sure will be a great comfort in the years to come.

Again I thank you one and all for the many kind words of sympathy and I hope as the years pass I will have the pleasure of meeting you all again.

Very sincerely,

(Signed) NELLIE KELLY.

Prayer in Memoriam

Let us bow in meditation as we remember those representatives of our State who have passed from this earthly life since the last session of this Body.

Ross Alcorn, Carbon County; George Hauser, Platte County; Floyd Kelley, Goshen County; William Mudgett, Park County; Fred Williams, Weston County; Clifford Wilson, Teton County; P. P. Baldwin, Lincoln County, W. E. Baehr, Sublette County.

O Lord God, Thou hast been our dwelling place in all generations. In times of sorrow it comforts us to know that Thou art, and that nothing can separate us from Thy love.

We commend unto Thee, these who have completed their earthly pilgrimages. These, now separated from us for a season, have gone to be with Thee. Multiply unto them the manifold blessings of Thy love, that the good work which Thou didst begin in them may be perfected until the day of Jesus Christ. Heavenly Father, even as their faith was found in Thy salvation and Thy word, so may we be reminded that Thou hast prepared for Thy children a world in which there shall be no more death, neither sorrow nor crying, neither shall there be any pain.

We remember the loved ones they left behind on this earth. May Thy spirit be with them, undergirding their lives, strengthening their faith in Thee and Thy salvation.

We also pray, dear Heavenly Father, this experience of remembering these who have gone on before, may so inspire our lives this hour that we might live this day and every day ahead, listening to Thy voice, redeemed by Thy love in Christ, that our lives may be powerful witnesses for Thee, filled with courage and wisdom for right.

Amen.

The Journal of Wednesday, January 18, 1953, was read and approved as read.
